Bloodright Karin Tabke

The coming of the Blood Moon will lead two Lycan packs into war, spur two rival brothers into conflict, and spark an act of vengeance so evil that its effects will be felt for generations.

One woman stands at the center of it all... After years of waiting, the Blood Law is at last avenged. Lycan Alpha Lucien Mondragon takes revenge on his brother, Rafael. Lucien is poised to slay Rafael's life mate, the Lycan/Slayer half-breed Falon- but cannot complete the kill. For Falon's mystical powers and fiery nature awaken a heart Lucien thought long dead. Instead of ending her life, Lucien defiantly marks Falon as his own, tormenting his brother to insanity and spurning Rafael's blood thirst for his own revenge.

Though terrified by the savage Lucien, Falon finds herself inexplicably drawn to his primal rage and strength by a desire she cannot resist. Torn between the true love she has for Rafael and the burning hunger she holds for Lucien, Falon knows that the will of her heart will lead her to her destined life mate. But it may also doom the Alpha brothers-and the Lycan race-to extinction...

Rita says

OMG, what can I say. Outstanding. If you want action, romance, and erotica, you have got to read this book. Don't pick it up, if you are going to be squeamish. There are some very bold situations in this book. She put the first book to shame. I cannot believe how it ended. It is sin to have to wait till December for the final book. I am so Team LUCA and RAFA!! I would like to know who her father is, maybe we will get that in the last book. I take my 5 stars back, 6 stars Ladies and Gentleman :DDD

Elena R a.k.a. Lunies R says

DOWN RIGHT AWESOME!!!

Here I thought theirs no way I'll even come close to liking Lucien, but my mind and body played tricks on me. I Love HIM!! Great story line and awesome as heck characters! The Hero and heroine are kick ass! Nice come back from the first novel and well worth waiting nearly a year to finally read it.

One con for me was the transforming into their uh "beasts" and doing the dirty, it was done twice, but I got over it cause the novel was GREEEEEEAT!

Damn I feel like I betrayed Rafa! Now I know how Falon feels. GOSH!

April says

Awsome!! Sucks that i have to wait soooooooo long though. Oh well. :D

Contains some spoilers

BLOODRIGHT picks up right where BLOOD LAW (book 1) leaves off. Falon has just been given to Rafael's brother, Lucien, as payment of Blood Law. Rafael killed Lucien's true mate years ago, who he believed to be a Slayer, but Lucien claimed she wasn't and wanted Blood Law enacted, which basically means an eye for an eye. Instead of being given the chance to kill Falon, the council decides that since there's doubt on both brothers' claims, Lucien can have Falon as his own true mate, leaving her unharmed or release her to Rafael. He chooses to take her as his mate and leaves a broken hearted Rafael behind as Falon is now part of the Mondragon pack. The entire book focuses on Falon now being an alpha with Lucien and preparing for the big Blood Moon rising when the fight between the packs and the Slayers will come to a bloody conclusion. Rafael, being the honorable man that he is, has also promised to mark another mate in

return for Lucien saving Falon when she's mortally wounded early on.

BLOOD LAW was the story of true mates Rafael and Falon, BLOODRIGHT is the story of true mates Lucien and Falon and I had such a hard time with this. In the first book, it's driven home, many times, about how Rafael and Falon and true mates, she loves him with all her heart and soul and would do anything for him. It takes her all of 40 pages in BLOODRIGHT to have sex with Lucien. To me, this trashes everything she was feeling for Rafael in book 1. Falon can't help how her body responds to Lucien, but she doesn't even try to resist him and after her initial plan to make his life a living hell gets forgotten rather quickly, she's starting to fall in love with the brother who wants nothing more than to see Rafael destroyed.

Lucien knows that Falon loves Rafael, she states this many times throughout the story that she won't ever be able to stop loving him, but she chooses to stay with Lucien. First, it's to honor the Blood Law and I guess it's also her way to honor Rafael, but that turns into her choosing to stay with Lucien for Lucien and the love she's feeling for him. Lucien came across as such an insecure guy, which as an alpha, just didn't mix. He goes back and forth the whole book with "releasing" Falon and telling her the choice is hers as to whether she stays with him or goes back to Lucien. She never denies the love she feels for Rafael, nor does she deny the love she feels for Lucien and tells him many times that she chooses to be with him. Lucien can feel the love she has for Rafael and it pisses him off all the time. It was hard to understand why he kept acting out when he felt her love for his brother, especially when she told him time and again that yes, she loves Rafael, but she chose to stay with Lucien. Things would settle down and then he'd feel her love for Rafael again and the cycle would start all over. I thought many times, enough!! She picked you, Lucien, believe her, deal with the love she feels for her first true mate (which shouldn't be a shock) and move on!

Falon made some bad decisions as well. She's still learning about the power she has within her and as part of the powerful three: her, Lucien and Rafael. But she taunts the wrong people with her power and ends up finding herself in more than one life threatening situation. She's still in the dark about who her father is, but her mother makes an appearance and I'd have liked to have gotten more information from her about what exactly happened in the past. Even though what happened between her mother and her yet to be revealed father is completely uncertain, it is eluded to, I wanted her to finally shed some light on everything to Falon (and us as readers).

My biggest issue with this book – it crosses the line sexually between Falon and Lucien. I try to keep an open mind when it comes to erotic stories, especially erotic PNR because lines will be pushed, pretty far sometimes, but there are some lines that I just don't want to read about being crossed. Lucien and Falon have some dirty, animalistic sex scenes. Early on, the most daring was Falon in her human form and Lucien in his wolf form during foreplay. It was a little eh, but it was foreplay and that was it; until it came to the scene where they had full out sex with Falon as human and Lucien in his wolf form. No. Just no. That's not an image and scene I want burned into my brain and really, their sex was rough and daring enough without going there. I would have DNF'd the book right at that point had there been more than about 50 pages left in the story. I thought, I'm this close to the end, I'll just finish it. Only to find another scene with more human/wolf sex, this time Falon shifts to wolf right in the middle of them having sex. This is a no-go for me and even with the issues I was having regarding the main relationship not really working, this just soured me to the whole book.

I did end up finishing it and the book ends on another cliffhanger. A third person comes into the mix claiming that Falon is their true mate (this one woman seems to be everyone's true mate) and takes off with her, leaving the brothers in the dust. Judging by the cover of book 3 and all the hints leading up to the final installment, the three leads will finally come together for the big Blood Moon rising. At this point, I have no desire to find out how it all plays out in the final book. This story left a bad taste with the human/wolf sex

line it crossed and it's not a book I'll recommend.

Bunnycore says

******Before I begin I am going to place this here, I want everyone to know that there are somethings that maybe well no will be questionable in this book. There is blood, rough sex, and well somethings that are going to be very morally objective. I liked this book a lot and if you read or have read this book and want to talk about it. I will explain why one part didn't bother me.*****

Okay with that said, let's move on.

So I rarely binge read a series with the exception of this series. I love Falon, Luca, and Rafa. I feel for these characters, they are broken and they need to be loved. This was a turning point for Luca and Rafa.

Falon is in love with both boys, She is now with Luca and Rafa is having the worst time with it. He has to now mark a new girl and move on. He is honor bound to do it.

I am ready for the three of them together.

This was a good book and I am ready for the last.

Mersina Seena says

WHAT.THE.EFFIN.FUCK!

People why in the bloody hell did you not warn me about the ending! I WANT THE NEXT BOOK NOW!

Nicole says

4 Stars! Bloodright picks up immediately where blood law ended. I love Lucien.*sigh* He's a manipulative, bossy, ruthless, sexy bad boy alpha that is essentially a tortured soul. I waited forever (about a year) for him and he didn't disappoint. 3 stars are just for him. Beware he is tattooed, pierced,(both in the nether regions - *yep down south ladies*) and can be a huge jealous a-hole at times. When I say jealous I mean Lucien is *seriously* jealous of Rafael. He just want to be loved and all that good stuff.

Falon is pretty badass herself but she annoyed me *three* times which is two times too many. o you ever think logically girl? Oh and Rafe?(view spoiler)

The Sex. **H-O-T**. The taboo part if the book didn't throw me off. Yes, it's definitely not for everyone but it didn't bother me. They are wolves. Lucien has no boundaries and doesn't like to be restrained or follow rules. I pretty much just went with the flow.

Overall Bloodright focuses on Lucien and Falon but packs a lot of action and the underlying tension of the

two lycan packs into it. Good book for a erotic romance and way better than the first for me. There is another cliffhanger that has you thinking 'Damn It!'. Falon is in demand all around. Oh and (view spoiler) I did enjoy it and will be anxiously awaiting the conclusion se for later this year.

UniquelyMoi ~ BlithelyBookish says

Their shared blood will destroy them in hatred—or unite them in passion...

After years of waiting, Lycan Alpha Lucien Mondragon is poised to take revenge on his brother, Rafael, by killing Rafael's life mate, the Lycan/Slayer half-breed Falon—but he cannot complete the kill. Instead of ending her life, Lucien defiantly marks Falon as his own.

Though terrified by the savage Lucien, Falon finds herself drawn to him. Torn between the love she has for Rafael and the hunger she holds for Lucien, the will of Falon's heart will lead her to her destined life mate—but it may also doom the brothers and the Lycan race to extinction...

Bloodright, the second book in the *Blood Moon Rising* trilogy, is fast paced, edgy, very... and I do mean, *very* sexy... so sexy, in fact, that it borders on taboo. This book begins where *Blood Law* left off and right from the start it grabbed hold, and seriously, didn't let go! I can't wait for the third and final book of the trilogy, *Blood Vow*, due out in December, 2012.

[
Fallon is beautiful and perfect, and she has super special powers, and everyone wants to do her, and su

Marie says

W-O-W Lucian is SMOKING!

I loved this one MUCH better probably because it centred around Lucian and Falon. I mean yeah Raf is nice, but Lucas, dang, he's sexy!

He oozes sex appeal, hotnesses and mystery.

How can you not be attracted to that, he is well appealing,interesting and gorgeous!

And that ending? Wow, did not see that coming. Falon Groton my nerves a little but. She couldn't be happy with Lucian, or even Raf. She wants both of them. Some trio relationship with two BROTHERS. I mean two

brothers and one girl.. *shudders*. It's kinda weird but when their both just gorgeous well I'm kinda jealous haha!

But yeah. Now the 'fenir' wolf's got her so... What ever, pray tell, will happen now?

I loved these scenes between Falon and Lucien;

He pressed his forehead to hers and looked down at her swollen breasts. His fingers tightened around her arms.

What he did next stunned her. Carefully, he buttoned up her vest and then stood back from her. He held out his hand to her. Dumbfounded, she took it. He led her through the heaving, gasping, humping pack up the metal stairway to his room.

Quietly, he shut the door behind them. "Get some sleep, Falon. Your body isn't as strong as you think it is."

He walked past her into the bathroom.

Speechless, she stood there in the middle of the bedroom, her body on fire while he—he did what?

Brushed his teeth?

"Do not ever interfere in my business," he commanded.

Falon threw her head back and laughed. Then narrowed her eyes at him and demanded, "Am I not your chosen one? As such, I demand to stand beside my almighty alpha." She bowed to him as if he were King Shit.

Vanessa theJeepDiva says

After nearly a year of impatiently waiting I finally got to read what happens after "all hell broke loose." The wait was worth it. Bloodright is an amazing follow up to Blood Law. The book starts off at a quick pace and the action, emotions and revelations just keep accelerating. Be prepared to not be able to put this book down until the very last page!

Going into the second book in Karin's Blood Moon Rising trilogy I was determined not to like Lucien. I loved Rafael and Falon as a couple. Their relationship was securely established in Blood Law. I felt that Lucien's anger and hatred towards his only living blood relative was extreme and probably should have lessened some over the past sixteen years.

To say that Lucien's character shocked me would be an understatement. There are so many layers to this male. Initially Falon sees the brothers as "Rafael was all that was golden and honorable, Lucien was all that was dark and decadent." Nothing with these two males is that simple. As Falon gets to know Lucien she quickly discovers this fact. He is just as loyal and honorable as his golden brother. She also discovers that she may be able to bring the two packs back together.

The two packs reuniting are paramount for their coming battle at the rise of the Blood Moon with the Slayers. Lucien, Falon, and Rafael are preparing for this battle and what their roles in it will be. Through a Slayer attack they discover that together they make a more formidable pack to fight against the Slayers that are determined to rid the world of all Lycans.

Falon's strength as a heroine continues to astonish me. She has been put into an impossible position. Her choice in the man she will be with has been taken from her by laws that she was not raised by. She makes the best of her situation. Even when both men seem to only see their inner torment over the circumstances that they have found themselves in she still keeps her head high and seeks to find a way for all to be happy with the councils ruling in regards to the Blood Law.

The sex scenes are beyond hot and sensually erotic. Lucien is one sexually charged Lycan that has finally found the female that completes him. This is one hot and sexy romance. There are a few sexual situations where the characters are in their shifted wolf forms. These scenes are tastefully written on flow with the eroticism of the book and the primal mating bond that get established between the couple.

And now I will impatiently wait for December 4 and the release of the third and final book in this amazing series, Blood Vow. I can't wait to see how this series wraps up.

Laurielu Bona Fide Reflections says

In Bloodright, author Karen Tabke weaves an exciting, tension filled tale of a Lycan nation on the brink of war and the very discordant, intense emotional dynamics between three Lycans. This story had my heart twisted up in all sorts of directions because of the intensity of the heartache, pain and love came screaming off the pages in this book. Add in the intensity of the plot against the Slayers who want to destroy the werewolves and you have a recipe for a superb story.

Lucien Mondragon and Rafael Vulkasin are twin brothers who are the respective alphas of their packs - the Mondragon Pack and the Vulkasin Pack. Lucien's attitude toward his brother is very bitter and hateful ever since Rafael killed his mate. Rafael is confident in the decision he made to slay Lucien's mate because he was sure she was a Slayer - the Lycan's worst enemy - and in turn, saving Lucien's life since laying with a Slayer is punishable by death.

Because Rafael killed Lucien's mate, Lucien has declared his right in the Blood Law where he is able to exact the same offense upon his brother, the offending party. Falcon, Rafael's mate is ordered by the elders who oversee and uphold the laws of the packs to go to Lucien. The beginning of the story has the reader thrown into the middle of the ramifications of Rafael handing over Falcon to Lucien creating an astounding start to a great book.

As a heroine, Falcon is level headed, brave, and is able to do what she needs to do in order to make sure the packs stay cohesive rather than war with each other despite the declaration of the Blood Law on Lucien's insistence. Because of her powers and her relationship with the two alphas, she becomes a major player in the building conflict.

Falcon's personal life gets more complicated. The more time Falcon spends with Lucien, she falls in love with him, too. Because of the tie she spends with Lucien, she also learns more about herself and her powers. The strength of the feelings she has for both Lucien and Rafael causes Falcon to be torn between the feelings she has for each brother since they have both melded to her soul. They each fulfill her in different and inexorable ways which make her complete. In addition, she has a strong feeling that she is supposed to be with both brothers and has a strong suspicion that the Prophecy of the Three relates to the three of them.

Bloodright is an outstanding book and I am waiting with bated breath for the next installment of this series. If you are a paranormal romance genre reader, this is a book you do not want to pass up. It has everything one could hope for in a good book - love, hate, mayhem, sensual moments, Lycans. Absolutely a hands down five star read! And the ending will leave you pining for more.

Happy Reading from Bona Fide Reflections!!

Bloodright by Karin Tabke
A Blood Moon Rising Novel #2

Entering the second book in Karin Tabke's Blood Moon Rising series, we start off exactly where the first book ended. For those of you that haven't read the first book, I strongly recommend you start at the first book. The first book ends in a cliffhanger, and the author doesn't spend any time rehashing the foundation of the story from the first book, and you just might find yourself a bit lost.

I was reeled in with the first book to this series, Bloodlaw and couldn't wait for the next book to finally land in my greedy little hands. I love the world that Tabke has created, with her chopper riding bad boy Lycan's, and the history of the brothers Lucien and Rafael, also the story behind the Slayers. The history in which she has given her characters and their story is compelling, and totally sucked me in to the story. I am normally a character driven reader, and Tabke hit all the major marks with me. However, there are a couple of issues I had with this book, and it revolves around Fallon. How many times is she going to get herself killed before she realizes that she is not in fact invincible. Also, I found myself a bit irritated over the fact that EVERYONE wants Fallon, and each time she's brought back from death, or the brink of, her hormones are running rampant. Now I know this is PNR but those things were a bit over the top.

After the ending of the first book left me shocked and awe'd, I thought there was no way I could accept any outcome that denied Rafael and Fallon their HEA. Boy was I wrong!! I got the drift really quick in this book that Tabke was going to try to make me like Lucien, aaaaand well I not only liked him, I fell completely in love with him. His character is so complex, as he starts revealing his true self piece by piece, my heart opened up the same way. Thus leaving me in much of the same situation as Fallon, loving both brothers. But I will admit that were I faced with the choice myself, I would without a doubt choose Lucien.

I'm not going to go into the story / plot here, if you like shifter stories, this series is for you. This is the fourth book I've read by this author, and I think she is incredibly talented in her writing and characterization, and I look forward to reading more from her. Mrs. Tabke also knows her way around the smexy scenes, and will surely make your toes curl!

Tigris Eden says

Bloodright (Blood Moon Rising Trilogy #2)

by Karin Tabke

The coming of the Blood Moon will lead two Lycan packs into war, spur two rival brothers into conflict, and spark an act of vengeance so evil that its effects will be felt for generations. One woman stands at the center of it all...

After years of waiting, the Blood Law is at last avenged. Lycan Alpha Lucien Mondragon takes revenge on his brother, Rafael. Lucien is poised to slay Rafael's life mate, the Lycan/Slayer half-breed Falon- but cannot complete the kill. For Falon's mystical powers and fiery nature awaken a heart Lucien thought long dead. Instead of ending her life, Lucien defiantly marks Falon as his own, tormenting his brother to insanity and spurning Rafael's blood thirst for his own revenge.

Though terrified by the savage Lucien, Falon finds herself inexplicably drawn to his primal rage and strength by a desire she cannot resist. Torn between the true love she has for Rafael and the burning hunger she holds for Lucien, Falon knows that the will of her heart will lead her to her destined life mate. But it may also doom the Alpha brothers-and the Lycan race-to extinction..

I waited and waited and waited for this book! I was NOT disappointed! Right from the beginning it picks up right where it left off in Blood Law. Rafa and Fallon have agreed to abide by what ever the council decides. It could mean the difference between life and death for both Rafa and Fallon. This stems back from a family feud between Rafa and Luca each alphas of their both packs. Pack Vulkasin and Pack Mondragon. Lucien wants revenge! Rafa slayed his chosen and the term an eye for an eye is literal. Rafa states his chosen Mara was a slayer and of course Luca disagrees whole heartedly.

The council decides to give Fallon over to Lucien and it sets the three of them on a course that is chain reactive for all the packs!

I loved every minute of this book and kept turning pages! I was angry when I had to put the book down, I didn't want to stop! Fallon doesn't want to have feelings for Lucien but he gets her on a soul deep level. Brings out a side of her she has never know before. Even with Rafa... Can I just stop right there and say this? WEREWOLF SANDWICHING IS IN!

Now Lucien never thought he would be able to open his heart to another and finds out that he is wrong in ways that only make a girl go *swoon* He's dark and sinful and sexy as hell! He's unique bedside manner came be considered taboo to most people but I found that Tabke took you to the edge and pulled you over in a safe way. Who doesn't want a little werewolf in them? *winks* I know from just seeing some of the comments that people had issues with some of the more "taboo" scenes. But damn she did it up right! I say it was perfect for Luca's personality, he lived on the edge pushed the envelope not only with his emotions but with Fallon and made her see a side of herself she didn't know existed.

There is a lot of Rafa in this book and Fallon is equally torn between both brothers and finds that she can't live without them. The power of three will unite the packs and vanquish the slayers for all time come the rising! And I am all for it as long as it entails the three of them tangled on the forest floor enjoying themselves! HA! I'm serious there is a scene in this book that you will enjoy if your into Werewolf

Sandwiches!

I loved the dynamics of the packs and how they were all emotionally connected to their alphas, when the alphas mated the pack mated and when the alpha gets with cub then the packs will begin to reproduce. That is strong family connection right there! Then of course there are a few surprises there is Layla who Fallon recognizes from her past and then there is Fenrir and the ring! (In a Lord of the Rings voice) The one true ring to rule them all! The precious! Fallon tests her emotional boundaries as well as her physical and mental boundaries, she's got powers beyond a Lycans.

I gotta say I know where this is headed and I am eager to see how it all plays out and of course Tabke leaves you on edge at the end wanting the next book NOW! Be prepared to get pulled into a world deep with emotions and heartache.... Because Bloodright will take you there and back again only to leave you wanting!

Hands down I enjoyed this book it gets more than 5 starts more like 10!

Ashlie Hale says

? ??????????♥?????This series was truly love at first book for me! If I could give this series 10 stars I would.

What the hell why not!!! I give it 10 hot sexy stars for this series and for Lucien. ???
