Let me quote some of the things Jim Rohn said in this speech:

- "The last 6000 years are read like this: opportunity mixed with difficulty."
- " For things to change, you have to change."
- Don't wish it was easier, wish you were better."
- "Don't wish for less problems, wish for more skills."
- Don't wish for less challenge, wish for more wisdom."

The Law of Averages - If you do something often enough a ratio will appear. Once a ratio starts, it tends to continues.

It is a very short audio that I highly recommend you to listen to.

The title doesn't do justice to the talk. And it hasn't got much to do with Network Marketing per se. If you went looking for some tips and tactics for your Network Marketing business, you'd get disappointed. It's more about the holistic idea or philosophy of pursuing any goals involving other people (or a network). The approach and mind set we have to develop in order for it to be successful.

This was surprisingly a great tool and bit of inspiration for me, especially for primarily being for the mlm industry (which by the way perfectly got all the success principles any distributor should have to make it in this industry)...

but really had some great stories and sparks of inspiration by the late Jim Rohn...so really was excellent in helping just beyond building a successful ml hiz - but more a successful life...

goes asa favourite...and i dont chose them likely...but straight, to the point with pure good value content even although its short..made it to the fav list

If you've read other Rohn books, you'll find very few gems here. It's actually a recording/transcription of one of his seminars. If you haven't read other of his books, I would absolutely recommend it, Rohn was a great author/speaker, but if you've read other works of him, you may skip this one.
