With inspiring and educational stories, Scholastic's Hello Reader series caters to the spectrum of reading abilities among beginning readers. My First Hello Readers use basic words to reinforce phonics and sight vocabulary. The books at this level offer punch-out flash cards plus six additional pages of skill-building activities. Levels 1 - 4 combine a greater vocabulary and longer sentence length. Each book has an introductory letter from an education specialist guiding parents on how to help their children learn to read. Preschool - Kindergarten.

From Reader Review Buzz Said the Bee for online ebook

Alicia says

Why is it that so many of the little readers for children are so stupid? I understand they are trying to use simple words so the kids can read them, but my gosh people, get more creative. Maybe I'm being too harsh. We can't all be Dr. Seuss.

Miss Sarah says

An easy reader for animal lovers about one animal landing on top of another and the pile it creates. Preschool and up

Colette says

Fun repeating story that builds upon itself, good illustrations to keep kids engaged.

Rachel Rosenthal says

Summary-This beginning children's book was about a bee who sat on a duck. Who then, in turn, sat on another animal who then sat on another animal all of the animals said there corresponding noise. Once all the animals were on a sheep the cow mooed and all the animals fell off.

Evaluation- I thought for a Beginning children's book was great. This book included onomatopoeia and personification.

Teaching Ideas- When using this book to teach i would teach onomatopoeia or personification as well as animal sounds.

Jane says

Buzz Said the Bee is an easy reader that is silly about farm animals perfect for children learning to read. My preschool class likes it too because of the way it repeats phrases with new words and they can read along. This is one of their favorites and they often pretend reads it during free choice time in the library. With the cute pictures for clues they remember most of the simple text to 'read' alone.

Luisa Knight says

This is a treat! A clever and comical story-line that breaks from the monotony of what's typical with this reading level. Be sure to add this to your reader's list.

Reading Level: K - 2nd grades

**Like my reviews? I also have hundreds of detailed reports that I offer too. These reports give a complete break-down of everything in the book, so you'll know just how clean it is or isn't. I also have Clean Guides (downloadable PDFs) which enable you to clean up your book before reading it! Visit my website: The Book Radar.

Angelica Nucico says

This early reader book is very simple for those who are just learning to read. It is very funny and the pictures are cute. There is a lot of sounds in the book (the animals making various noises). This makes the book more fun for the reader because they are then able to participate in the reading of the book.

The words and the picture in this book really play along well together. Although they play along well, they tell the same story, but it just makes it easier for the reader to understand the book. Buzz Said the Bee, was actually my favorite book as a child and I would most definitely read it to any other child.

Alyssa says

Buzz Said the Bee by Wendy Cheyette Lewison

Buzz Said the Bee is a great and adorable easy beginner book for your struggling readers. Repeated patterns help children easily identify the words used. It all begins with a bee resting it's behind on a duck. When the bee does not move the duck sits on hen. When a pile of animals sits on a sleeping sheep, the bee buzzes in the sheep's ear sending all the others animals rolling down a hill. I was taken back by this book and did not think this book was worth reading until the ending page when Lewison concluded the book in a very comical way. The cartoon expressions when the bee buzzes is the cherry on top.

Dolly says

This is a fun story with repetitive words; it helps teach children how to read. The colorful illustrations and rhythmic narrative are fun to read aloud.

21 Oct 2011 - Our youngest brought this book home from her first grade class to practice her reading for homework and she really enjoyed reading it aloud to me.

Siskiyou-Suzy says

This was one of my little sister's favorite books. I'm sure I read it to her plenty. The rhythm of the book is stuck in my head, like a song from my childhood. When I read it again, I felt certain a song went with it, but

it's just the way the words flow together. It's a fun book with not at all my style of illustrations.

Beckie Coldiron says

This is a cute book, in which you can explore different types of animals, sounds, and rhyming words. I would use this in a pre-k classroom by having children match the animals with their correct sounds. I would also have my children clap when they heard a rhyming family or a rhyming word.

Jill Dobbe says

This is the first book my daughter learned to read and I bought one for her son/daughter.

Amy says

This book is wonderful when talking about rhymes and the sounds animals make. It has a cumulative story line and builds as the animals sit on each other. Also, this book has a wonderful note for parents to help their children learn to become better readers. This book has been recommended for preschool age to 1st grade.

Ilyen Marban says

Book about different animals being friends and the sounds they make.

Shuntia Williams says

This is a great story to read to young children. In the book a bee stirs up trouble by sitting on a duck. This causes the duck to sit on an animal and that animal sits on another animal. It finally ends when the cow sits on a sheep and falls off. The vivid illustrations helps this book to come alive.
