Joanne Carr says

Club Prive Hot/The French Connection

Well I must say it's been awhile since I've read a panty buster

Carrie & Gavin's is a hot love story filled with twists and turns.
The sex is hot and the description makes you have to change your panties.

Carrie was a paralegal working for a high powered female attorney she decides to go out with her friends for a drink where they start to play a game to get men's numbers. Since Carrie was the first to play this game she turns to find a hot looking stranger

Gavin was the hottie that Carrie ask for his number which took him by surprise. Carrie decided she was not going to call .

But, as fate would have it she kept running into Gavin.

When they finally get together the steamy sex ensued as they begin to get closer he tells her about his little daughter and what happened to her mother who had been killed in an accident.

There is a lot more of this book that has betrayal more hot sex and finding out who had caused the accident that killed his daughter's mother.

More..but that would be a spoiler.

This box set also includes a continuing story about Carrie & Gavin called "The French Connection".

Tale of the possibility of Club Prive opening in Cannes the couple make their way to France to meet with the money people that's where the big problems start.

Gavin and Carrie attend a party where he meets two girls that the money man has hanging on his arm. One of the girls happened to be an up and coming performer who attaches herself to Gavin to show him around which sent Carrie into overdrive.

Carrie is in a fit when she comes back to the hotel where Gavin and her were staying only find the two women in their bed.

Carrie was told that Gavin had invited them. Also, it just so happens to be the girl that latched herself to Gavin.

Then one of the money people happens to be a gorgeous women who wanted Gavin for herself

She invites him for a meeting using the other money person to lure him to her. As Gavin takes the meeting on the yacht he finds out that they were alone. She comes on strong then since Gavin wasn't about to put out

she tells him put out or swim to shore but, not before Carrie sees him on the yacht in a kiss and embrace

Well that's where I will end so you have to read the book itself.

I would definitely recommend this series.

Book Six

given an arc for an honest review....by far the best read from m.s. parker i was blown away. .carrie and gavin

head off to France for a vacation/business meeting with the hopes of rekindling their romance that has dwindle in the year they have been together...Gavin finds the man who wants to open the new club in France to be a little off...and the girls he tries to push onto Gavin leave a weird feeling with Gavin....but the business opportunity is still worth it....after spending the day together preparing to attend a party together with some mind blowing scenes in the shower they head off to a music event with one of the girls from the club as their "escort" and when Gavin spends most of the night with the escort Carrie is not impressed and is even less impressed when Gavin leaves suddenly....a must read cannot wait for the next installment.....

Book Eight

Ms Parker you have done it again an outstanding end to Carrie and Gavin's story...as Carrie deals with seeing Gavin kissing another woman Gavin is rejecting that woman but Carrie does not know that and Carrie has a strange feeling that Pierre the reporter is not really what he says he is but how does he fit in to the story and is he really a reporter. Gavin is told some things by his new business partner that lead him to think Carrie is in danger..what will happen will Carrie learn to trust Gavin and will they with Vincent be able to bring down Alize for what she really does.... Would love one more book with a wedding and a baby or two... A read you will not be disappointed in loved it from start to finish

J. Kahele says

I read this series while traveling and I have to say it was a very good read to pass the time and I enjoyed it tremendously. The author did two things right to keep me engaged. She wrote relatable characters and she kept it hot and steamy. Enjoyable, for that kick up your feet, light read.

Indie Editor Nancy says

This book started quickly introducing the main characters and Carrie meeting the stranger Gavin in a bar on a dare. I loved both main characters, Carrie is a strong willed gal, with a career and school to finish. We don't really know much about Gavin, other than he is a hot, gorgeous man who seems to be good at finding Carrie and keeping her attention. I loved the suspense; and the ending of this first installment and the book is very well written and a pleasure to read.

Carrie and Gavin's story continues, with an exciting twist at the end. Gavin gets another chance to make things right as Carrie cannot forget how much she feels for him. A very well written, and exciting part 2 to this new series by M.S. Parker. A must read!

Gavin's relationship with Carrie is developing further, with the truth about his daughter and his fiancée being revealed. Trust is still an issue but plans to take a weekend away together eases our heroine's mind. Questions

about Howard and his families colourful past continues into the next book. Carrie is letting her work slide choosing an evening out with Gavin. You'll need to read this to find out more.

Carrie is such a smart woman. Gavin's true dominant colours are starting to burn brighter and Carrie is concerned but too invested in their relationship. Howard is looking pretty guilty but of what? Guess we'll find out in the Conclusion, book 5 of Club Prive. Another very well written and exciting book by M. S. Parker.

Carrie's intuition and investigating has brought real trouble for her in this final book. She is in dire straits when Gavin is brought to her; you need to read this book I can't give it away. I was in complete horror, Howard is cruel and menacing. Gavin's love for Carrie is awe inspiring, and the ending will please you immensely.

Love this new author, and her sexy erotic stories of young strong heroines and hot and dominant heros. I can't wait to read more by M.S. Parker.

Wendy says

I have rated each book individually and here I will write my opinion on the series...

This series was great! It had a lot of sexy scenes and many believable problems. In the first set of club prive focus on one villain, and french connection on another but, they centered around the same issue. It was really great to see an overlap.

These books are a quick and easy read. A definite must!

Kay says

{ vague review because I read this years ago }

This was the first series I read by M.S. Parker and LOVED it. I couldn't put it down. Then I read as much of this author's books I could get my hands on.

Patricia says

I loved Gavin and Carrie.

Gavin and Carrie's relationship had plenty of obstacles in their path. They made it thru all of them and the relationship grew stronger thru it all. So did their love. :-)

Leslie says

Good

Interesting dual series. I was a bit annoyed with the characters not 'talking' to each other at key points but if they would have, it would have killed most of the series. Regardless, still a good read. Huge M. S. Parker fan!!

Lori says

Great box set!

I absolutely loved this story. It went from being romantic drama with BDSM undertones to full on suspense. It is a real page turner that I could not put down.
