Detecting Lust: an erotic detective novel (Sin) Mikey Lee

Seth Lane is the best SVU Detective the precinct has to offer. He's smart, determined and has a seriously impressive closing rate. He's also sexy as hell and married to Zee, a woman who not only understands his demanding job but supports him in doing whatever is necessary to close the case.

But when he meets the newest victim of a brutal attack, Seth has to use every resource he has to find the suspect - and fast. Every clue he collects is a step towards closing the case, but he's shocked when the biggest clue of all comes with the help of his wife. Thrown headfirst into the case, Seth must follow the evidence to apprehend the suspect before he hits again.

Alex says

First of all, Thank you Mikey!!

This book was exactly what I needed this weekend.

Chapter One hooked me straight away. I love Seth and Zee! Completely in love and can't get enough of each other. The sex is super hot and there is plenty of it.

Seth is definitely a guy we all want to know. So caring, determined and sexy!

I'll be recommending Detecting Lust to everyone and I'm looking forward to seeing what Mikey Lee brings us next. (:

Oh and 'goofy bumps' is literally one of the cutest things I've ever read.

Natalie The Biblioholic says

Before I start my review, I would like to thank Ms. Pam Nelson for this book. You didn't have to do it but I'm so grateful that you did.

Ok so this book was freaking fantastic! Everything about it was bloody genius! I'm not sure how the author came up with this stuff but he's AMAZING!!

Seth and Zee were what married couples should look like and be about. They were still in love, still hot for each other, supportive, considerate, passionate, etc. They were absolutely beautiful together.

Told mainly from Seth's POV, he's a detective for the SVU and he's brilliant at his job. One of his cases is the basis for the plot. Despite the somber, heavy subject matter, this story came off as a light read. Go figure. While at work, Seth showed us that he was actually all around, not just with his wife. He was compassionate, dedicated and determined.

I took a star away for 2 reasons:

1. Ashley was obviously infatuated with Seth (and he knew it), but there wasn't a time where I felt that she was put in her place. He didn't show or tell her about being married and I felt this unresolved issue could be a problem. He didn't even mention it to Zee in passing :(
2. I felt like the ending wasn't really The End. I wanted more and I hope to get it ;)

This author is new to me but he's definitely one to watch. I can't wait to read more of his books because he is MEGA talented.

XO

Thrown headfirst into the case, Seth must follow the evidence to apprehend the suspect before he hits again.

Review:

It would have been incredibly difficult for me to say that I've never read any of Mikey Lee's novels in the last only be damage Detecting Lust is his debut release. Admittedly, I never expected this type of story or as many plot twists when I read the blurb and picked out this book to read - the numerous times I have had to re-read a passage just to make sure I read it right the first time, the times up when had to take those deep breaths and calm myself, reminding myself that it was only a story and fiction. And especially just how well the characters were well described to not only have qualities readers can immediately pinpoint, but flaws that remind us that even heroes aren't perfect and need help and support. Contrary to many murder-mystery with the romance and erotic touch, Detecting Lust includes a happily married couple, SVU Detective Seth Lane and his wife Zee who is willing to do just about anything to make him happy and support him during his career and even moved so when he finds himself needing help at solving the case of a rape victim. To make it clear enough for all readers that are survivors of such crimes, Mikey Lee has taken such a delicate subject and treated it with respect to such a degree that there didn't feel or have any major triggers that could be traumatic for them - and I say this as having gone through the same ordeal and having had to deal with the after effects that lasted years. Between the chemistry, the storyline, and the mystery behind a crime that seems to get better and stronger as I kept reading, Mikey Lee has managed to really grab my full attention, even making me fall in love with detective genre novels when I thought never to find the perfect combination between romance, suspense, erotica and the sensuality - this was one book I loved!

Teresa's Tantalizing Book Teasers says

I'm DETECTING lots of future page flippers for Mikey Lee!!!

WATCH OUT Dick Tracy and Detective James Gordon, there is a new, Modern Day Detective in the city and his name is Seth Lane! He's the man other men want to be and the man women want in their beds. There's only one woman though in Seth's life and that is his sexy/confident wife, Zee.

The storyline is written with a Male POV, which I personally love, because you get the raw, lusty thoughts of the inner male mind minus all the hormonal mushiness. Detective Seth Lane is driven to catching a scumbag who has committed rape. While he goes through the case and gets closer and closer to possibly catching his suspect.....he also gets closer and closer to his woman, Zee, in the sheets, out of the sheets, far away from the sheets; you detect where I'm going. (There are shower scenes, behind her scenes, and of course what every male loves...blow job scenes.) Hell, I think I learned a thing or two myself to try on the hubby and DETECT whether he appreciates them as much as our Detective Seth Lane did!

All sexual kidding aside; the story is truly a love story between Seth and his "Swiss-Army-Wife", Zee (you'll have to read to understand the meaning).

I adored Mikey's acknowledgement in the beginning of a letter from Ronald Reagan to his wife, Nancy.

P.S. As I read I listen to music.... a song I would put on a Playlist for this Book would be Charles Kelley's "The Only One Who Gets Me". It truly reminded me of Seth and Zee!

Thanks Mikey for the early read! XOXO, TeresaDetecting Lust

Milva says

Is it a Thriller, a romance or an erotica novel? This debut has it all. The right mixture of the ingredients stirred in one story. Seth Lane is a Detective and married to Zee the love of his life. His job is to catch the sexual predator who destroyed a young woman's life.

The way to solve the case reads like one of the episodes of Law and order SVU.

There is not an easy way to describe the story and not post spoilers. I loved the suspense, the hot scenes and the male POV.

This is definitely a must read.

Julianna Marley says

Did you ever read a story that reached out and grabbed you by the throat in the first chapter? Did you ever read a story that made you afraid to turn the page in the last chapter because you didn't want it to end?

"Detecting Lust" did both of those things for me and I already want more.

Hot sex, suspense, real-life emotions and a couple with an inspiring love and respect for one another, "Detecting Lust" has it all.

You will swoon, sigh, keep an eye out and fan yourself in this debut novel.

5 out of 5 SEXY Stars

Leslie says

An enthusiastic debut from Mikey Lee!

Detecting Lust, just like the title suggests, is an erotic detective novel. I don't know if I've ever read an erotic detective novel before. For those expecting a romance novel, it's not. It's not the kind of book that explores a relationship between two people. It's an investigation of a crime. With super freaking hot sex scenes.

Seth Lane, a hottie with six pack abs, loves his wife, yoga instructor Zee. He gets assigned to investigate a rape case, and the book is about how he figures out whodunit.

So there's the rub. How do I review this? I don't want to give anything away, because the whole point is to figure out who did it!

It starts out hot and sexy and keeps going that way, getting more involved in the investigation and the clues along the way. Written with clear knowledge of police procedures—and the ways they sometimes get broken—it's a great read!

Angela Roberts says

Excellent book, a definite good read!!!! I like the fact it had a plot as well as the other stuff!!! Good job, waiting for a sequel!!

S. says

I was so excited to read Mikey Lee's debut novel!

This book started off with a bang, literally, and just kept on going after that. The book had quick pace which I appreciated as a reader. I will admit I haven't ready a detective/mystery story in a long time so it was a nice change of pace from usual fare.

I loved that Seth and Zee were already in an established relationship, it was quite refreshing, and their

relationship was so passionate and hot! I loved that they had a healthy relationship and I especially loved how they couldn't keep their hands off each other.

The story did have multiple POVs which was nice but at times confusing. I do agree that it was necessary for the story and for the reader to know everything they needed to.

I will be upfront and say the story deals with rape, as a survivor myself I was immediately nervous but I can report the story was trigger free, at least for me. It was handled sensitively and accurately so I feel that Mr. Lee definitely either has experience with detective work or did his research.

Over all it was an excellent debut. There were some repetitive parts, lots of the same types of phrases being used again and again but not enough that I felt like I wasn't enjoying the story.

I definitely will be reading more from Mr. Lee and would recommend this book to anyone who enjoys a hot mystery story.

Julie Linhart says

This is Mikey Lee's debut novel!

So let's talk about what this book is or is not. This book really isn't romance, it's not really mystery or thriller. It's a detective novel with some erotica mixed in. Now that's a new concept right?

Seth our main character is a happily married detective. He's good at what he does and what he does is solve crimes. I really found the whole detective aspect and the story that it revolved around really interesting and really well told.

Seth's case revolves around a woman who has been raped and him trying to find the bad guy. For those suddenly concerned when I mention the word rape, there are no triggers...the author did a great job steering clear of that. As much as I am an erotica lover I think what I liked best about this book was the whole detective/solving the crime aspect of the book. You can tell that the author either has some background in the area or has done his research. That being said he managed to make detective work not boring. Granted things are sped up (as compared to real life) in this story to keep it interesting and makes it a generally quicker read.

For those that need the erotica aspect of the book there is plenty in the book. I think you will really like Seth and Zee's relationship and the sexy scenes they share.

Things that made this 4 stars vs 5 stars for me: Mostly this book is in Seth's POV. Occasionally the female POV slipped in at times that I wasn't expecting it. I understand why the author slipped it in but it was something that would throw me a bit as I was reading. Also certain words were a bit overused for me and some descriptions a bit overdone for my liking. But all in all this was a really enjoyable story.

Since this is Sin #1 I think it's safe to say that we will be hearing more from Mikey Lee and there will be more Detecting in our future. I look forward to seeing what he puts out next and to see his growth as a writer.

Even though there will be more Detecting books coming this is a standalone.

Peggy Lee (Reading Keeps Me Sane) says

Detecting Lust reminds me of a naughty detective television series found on a premium station. Definitely a premium station so that I can get a full view of the detective in all his glory. It's a short story about a smart, sexy detective who solves cases quickly in order to bring closure to the victim.

Seth Lane knows how to close a case fast however his newest case brings unexpected challenges. He meets the challenges head on and with the steamy assistance he receives from his wife, Seth may find the break he needs to solve the case.

I enjoyed the short novel, it was a change of pace from most erotic novels. Seth and Zee are happily married, they support and enjoy each other. Seth makes the world safer and sexier. It's the right combination of steamy and intriguing. I can't wait for further books in the series. 4 Stars!

Pam Nelson says

5 Lusty Stars

Soooo I try and make notes of things I want to talk about in my review... this is my note.

"What a breath of fresh air." - I have NEVER written those words about a book. I have read A LOT of books.

I don't know if it was the fact that Seth is married and actually LOVES his wife. I know right! No one writes that in romance or the fact that he is married and there is NO cheating going on. Hallelujah!!! He actually LOVES his wife.. I know I said that already but it needed to be said again.

So not only is Seth like my newest book boyfriend but I want to be friend with his wife Zee!! I can be an Ashley only not so flirty and just admire him from a far. *bats eyes* Please lol. To her credit she doesn't know his is married... Or at least I don't think she knows.

I have to say even though it ended and I actually chanted "No, No that can't be it." This is going to be a book I re read and that's saying something because I am an audiobook nut job. Eye reading takes me FOREVER. But this book, soo worth it!

Ok I feel like I didn't even talk about the book just my thought and feelings... Well that's what the blurb is for right ;) Read this book you won't regret it.

Seth is most defiantly the man I want on the job so we need MORE, MORE, MORE.

All my Reviews are 100% honest and my own.

Lindsay says

This book is Mikey Lee's debut book. It is a story about Seth Lane on a mission to solve a sexual assault

crime. I was so intrigued by the crime solving aspect of the storyline. I was sucked in trying to figure out who did it. It held my attention and kept me reading! Seth and his wife Zee have a sexy hot relationship, but some words and situations were a bit repetitive. But this is Mikey's first book and I've got to say I'm really hoping his new partner Ashley gets a book because I want to know what happens to her!

Misty - The Erotic Book Blog says

I really enjoyed this story!

To be honest it was nothing like I expected it to be, and that's definitely not a bad thing. Mikey Lee has done a wonderful job with his debut story.

This is the story of Seth Lane, a police detective who has just been assigned a rape/sexual assault case that he needs to solve as soon as possible. With the help of a rookie detective, Seth and Ashley try to put the case together piece by piece.

A unique aspect to this book is that, unlike most of the other romance books I've read, our hunky leading man is married. And when Seth struggles with his case, or simply needs a way to relieve stress, his wife Zee is never too far away to lend a helping hand (or whatever other body part may be required). And that's where the story really heats up...

This was a really great detective story with a perfect amount of naughtiness. It keeps you intrigued to the very end and while there's no cliffhanger you can tell there is still so much story left to tell. Detecting Lust is the first book in the Lust series and I'm definitely curious as to what happens next with this interesting cast of characters...

I definitely recommend picking up this book.

Stephanie Mae says

Well before you sit yourself down to devour this story, you grab a bottle of wine, a change of panties and find your husband/boyfriend or who ever really!!!! This read was awesome, loved everything about it, A fast paced, quick and easy read, perfect for a couple of hours of spare time. Seth is our Detective and is married to Zee, holy hotness does Mr Lee know how to write a sex scene, scorching hot, felt even more so because they were happily married. So we have our hot Detective solving a case, and then some. I can't wait for more of these stories, I enjoyed it a lot. (wink,wink) Reviewed for HeadTripping Books by Carolyn.
