Danielle Rang says

1. No awards
 2. Grade 2-8
 3. This set of nursery rhymes differs from traditional books. Gris Grimly twists classic rhymes into dark and sinister tales. He challenges the usual perception of these classic nursery rhymes.
 4. These nursery rhymes are great. It is a fun twist on the traditional children's rhymes and makes them more accessible as children grow older. As children age, they like to delve into darker types of stories and this is a great example of that, a way for them to connect a dark side to something they've known.
 5. This book is a great example for a writing workshop. Students can learn how to turn a basic story into something more sinister, with a darker twist. It can also be used as a chilling read aloud.
-

Regina says

Another wonderfully creepy and twisted version of children's rhymes to read to your little monster.

Madeline says

Not for all children, but great for some, a macabre retelling of our favorite nursery rhymes.

Marie says

More dark nursery rhymesque cautionary tales for kiddos (and adults). Some of the rhymes in this book were less fluid than the first and the art wasn't quite as impressive, but still overall a good book ... if you like dark weird nursery rhymes.

Alyson (Kid Lit Frenzy) says

I love Gris Grimly's illustrations. Part quirky, part macabre. Pure wonderful. Wicked Nursery Rhymes II is not necessarily for young children but older children and adults will enjoy these fractured versions of the original.

Sarah says

From the back "This collection contains harsh realities, ironic consequences, hard hitting morals and

shocking conclusions. Reading of this material my result in an uneasy feeling for those who are prone to making bad decisions. Recommended for discerning adults and properly supervised children, these tales are intended to direct the misguided and to amuse the wise with accounts of others' misfortune" It is pretty hilarious, like Sipping Spiders from a Straw, this take on the traditional nursery requires a certain sense of humor and the macabre.

Anna says

Didn't realize this was the second one until it was too late. Very much enjoyed the art, as per usual. But I don't quite find the rhymes clever enough to try for the rest of them.
