Reader's Guide to the Legend of Drizzt Philip Athans

Celebrate Twenty Years of Drizzt!

Drizzt Do'Urden fought his way out of the monster-infested Underdark and carved a life for himself on the no less unforgiving surface world. The Legend of Drizzt follows the tale of a hero born to a race of evil, who struggles with his inner demons and the prejudices of others to become one of the greatest heroes the fantasy genre has ever known.

This premier, hardcover, richly illustrated guide to The Legend of Drizzt(TM)celebrates twenty years of the most popular character in fantasy. This book will captivate new readers and established fans alike with its in-depth exploration of Drizzt and full-color illustrations by renowned artist Todd Lockwood. Don't miss out on the phenomenon!

Alex says

A nice supplement, and fun to have around for new players of the LoD board game.

Jon says

A great encyclopedia of R.A. Salvatore's famous series based on the legend Drizzt Do'Urden. This book contains a very nice collection of information on the characters, places, monsters, and more that are encountered in the novels. There are detailed maps of the cities and illustrations to accompany every creature and character mentioned. I would recommend this book to any fan of Salvatore's novels based in the Forgotten Realms setting. This also serves as a great reminder if I forget who a certain character was or the plot summary of a particular novel.

Kelly says

I spent a cozy afternoon on the couch poring through this book today. Truly a comprehensive collection of information pertaining to Drizzt and his world - his companions and foes, geographic landmarks, town maps and local lore. I found myself smiling over and again as I appreciated a detail here and lavish artwork there. Though many artists contributed, Todd Lockwood, who brings Drizzt to life like no other, has outdone himself in this volume.

A must for fans of Drizzt - it has inspired me to read the books all over again...

Astri says

A great gift for any fan of the Legend of Drizzt series. Gorgeous illustrations.

Keith Phillips says

If you have read all of the books up until the most recent then it is a good book to have to refresh your memory of what happened earlier in the series. Also it has nice detailed maps of all the locations of his adventures along with nice pictures of the characters. And if you're new to the series it can help you learn more about the characters and their world. Along with actually following the paths that they take by looking at the maps if you wanted to go that far. Good Gift for a Drizzt fan.

Tony says

Looking for a good recap of the Legend of Drizzt novels? Look no further, A Reader's Guide to the Legend of Drizzt serves as a companion book to the series. Complete with book summaries, character information, a bestiary, and even detailed maps, this compendium of Drizzt information is a great reference guide for any Drizzt reader. Keep in mind that much of the information in this book falls in a timeline somewhere after Sea of Swords and before The Pirate King in the Drizzt timeline.

The recap of the first 13 books is very helpful for any reader who wants to get back in to the Drizzt novels; however, there seems to be a few inconsistencies. Jarlaxle has a limp? Wulfgar is more than twice the height of Drizzt? I understand compiling this was a painstaking task for the author, but these are major details!

The art of Todd Lockwood is 5 star, and much of the art is taken from the new Legend of Drizzt covers, but after the art outlining the book summaries, the inconsistent art that follows is very noticeable. There were over 65 artists who contributed to this book. While most of the art is superb, some of it is downright shoddy.

The detailed maps are the best part about this book. Too bad the maps weren't in the original books! They would have been helpful. Included are detailed maps of Ten Towns, Cities of the Sword Coast, Mithral Hall, Menzoberranzan, and more.

Athans also writes information about the forgotten realms world that is otherwise not found in the Drizzt's books themselves, which gives additional insight into the setting of Salvatore's Drizzt tales.

Recommended to Drizzt's fans who are just starting the series, or to readers that are coming back to the series after a long break.

Pierre says

Great artwork helps visualize the Realms. Unfortunately, doesn't add anything new.

Jack says

Mostly a picture/trivia book. good only for biggest fans of drizzt.

Kyla says

Descriptions, pictures, all of the information. Loved seeing all of these awesome characters.

Juan Bárcenas Cuellar says

Un profundo acercamiento a la leyenda de uno de los personajes más populares del universo de Reinos Olvidados con magníficas ilustraciones de Todd Lockwood.

Hace ya 20 años un héroe desconocido surgió de la más profunda oscuridad... ¡Descubre su pasado!

¡Prepárate para lo que está por venir! Este libro atrapará a los lectores nuevos que se acerquen a sus páginas y hará las delicias de los habituales de la serie.

Excelente recopilación gráfica de los primeros trece libros de la leyenda de Drizzt, el elfo oscuro que abandonó las profundidades de la tierra para encontrarse con su destino. Para verdaderos fanáticos.

Michael Alexander Henke says

Fairly recently I decided that I was going to try to get caught up on the Drizzt books. For some reason I had stopped reading them, despite enjoying them quite a bit. I finally got through the Paths of Darkness series, and that gave me leave to read this, since that's what it covers up to. This book is great for anyone that's a fan of the Drizzt series. It gives a brief synopsis of the first 13 books, and is loaded with art and information. It has details about nearly every character major and minor. Information on monsters, demons, maps of all the towns and cities. It is just loaded with stuff. A great companion to the series.

Wes Baker says

Not necessarily a book I'd pick up to just read, but well worth having around if you plan on sticking with The Legend of Drizzt for the long haul. The maps alone are worth the purchase, they're beautiful and give you a great idea of the scope of Faerun and where different cities sit in relation to the other cities.
