**SEAL's Bride** Vivian Wood

I live for f\*cking and fighting.

From Fallujah to Catahoula, ex-SEAL Sawyer Roman's left a trail of broken hearts in his wake. Settle down? Hell, the ripped, fierce bad boy doesn't even bed the same woman twice.

When he winds up back in his hometown, he's got no intention of changing his ways. F\*ck the comforts of small-town life, there's a world full of pussy out there to conquer.

That is, until he sees her. Remy River, the gorgeous blonde knockout who slams the door in his face -- apparently, she hasn't forgiven him for his past sins.

Time to conquer the unconquerable.

I had his baby, and he doesn't know.

Four years ago, Remy made a huge mistake. Lovesick and impulsive, she slept with Sawyer Roman.

And while he was off shooting bad guys, she had his baby.

He doesn't know Shiloh is his son, and if she ever tells him, his family's threatened to ruin her life. But now he's back, damaged but hotter than ever, and he still wants her.

If only she could turn away. If only she could resist his kisses, but Remy melts when he looks at her like that. But this secret's weighing on her soul, the guilt getting heavier and heavier every day.

Remy has to tell Sawyer that Shiloh is his, but can they start fresh? Or will it be the tragic end to their love story?

## **From Reader Review SEAL's Bride for online ebook**

### **Connie says**

Sweet, sizzling and oh so sexy! Awesome story about sexy Seal, Sawyer, and Remy, the girl he left behind 4 years ago. Unfortunately, he also left behind a souvenir, that no one seems to have the courage to tell him about. A little disappointed that neither Sawyer or Remy confronted their sneaky, blackmailing fathers over the "missing" letters.

---

### **melanie says**

Loved this book. Remy had my heart from the get go with all the crap she had to endure. Sawyer it took a little while I knew he just had to grow up. Remy had a heart of gold and a spine of steel of course she had to. I know I am be vague but I am trying not to spoil anything but trust me this book is worth the read and a few Kleenex.

---

### **Shari Kay says**

Not wasting my time on another douchbag H and doormat h Soooooooo over it

<https://www.goodreads.com/review/show...>

---

### **Izzie d says**

The hero is not very likeable. He sleeps around and when he finds out about his son he seems unable to empathise with what a difficult situation his girl was in until someone else points it out to him.

---

### **Char ? Denae says**

This story got some bad reviews but I loved it. Sure it's a bit cliche; high school sweethearts are separated when the boy joins the military, and pretty predictable; missing letters (which never does get explained), misunderstandings, and kept secrets, but the characters and outcome totally worked for me. I read to either, learn something or to be entertained. This was a short, sweet, entertaining read. Could there have been a little more to the story? Of course! I would've liked more details to fill in the spaces but the author gives us enough to complete the plot and finish with a happy, satisfying ending. (Except for those unexplained, missing letters...) There's even a few teasing nuggets scattered throughout to make us curious enough about the hero's brothers to want to read the rest of the series, which I definitely intend to do.

## **Dawnie says**

I wanted something fast and easy to read and this was defiantly that.

It was not at all a great read -sadly- but it was good enough.

I think that all the characters in this were incredibly stupid and utterly frustrating, but the writing itself wasn't bad and made it very easy to just keep on flipping the pages even though i was rolling my eyes on what and how it was happening.

I do have to say i like the idea -navy seal coming back home to help his family with their business, running into his childhood sweetheart again.

Its cute, its fun and if done right can certainly be a fantastic read.

Sadly the author did try to make it a bit too dramatic, tried to stretch the story out while keeping the "big secret" to obviously secret even if i never even understood why it needed be kept a secret to begin with especially with how it was being "Kept" (it wasn't! People kept talking about it, so what?!)

I did not like how the "secret" than was reviled, that was just the easiest way out, the stupidest reaction and not at all how i think actual people would or even should react to that type of situation. So that was not at all good.

i also thought the the ending was extremely rushed, and overly Disney with its happily ever after -lets ignore everything that was a huge deal throughout the entire book and all the problems that kept getting heated back up over and over again and end it on a happy note kind of ending.

Which i am personally not the biggest fan of. I mean give me that kind of ending over the stupidly open cliffhanger where nothing gets solved at all and nothing makes sense at all any day!

BUT i still think that in this book it could have been done differently, and with more solutions for the problems that where constantly made throughout the book.

I also have to say that i found it very strange of the father of the male lead was only brought into the story to make things dramatic and otherwise completely ignore his existent completely. Which made NO sense to me at all. Why add a character only to have him pop up when something stupid needs a reason that could have been left out completely anyways?

All that sounded as if its a horrible book.

Its really not.

Its okay.

But it could have been a lot better and while you read this, you notice a lot of those moments and sadly those stand out a lot more than the things that are done good.

Still if you want something fast and easy (to read and to forget afterwards) this is a good pick. Just don't

expect something great or in anyway unique or realistic.

---

### **Sometime says**

I was worried about this book but I wanted to see if the author could redeem the man-ho main character. I find no fault with the writing and the story isn't bad if not an overdone trope. But I just had no respect for the characters. How dare Remy keep Sawyer's son from him? Not cool. Sawyer on the other hand was a complete pig. He treats Remy like a booty call he can visit anytime he's in town and she lets him. He is carrying on with 3 or 4 women in DC even while he's trying to seduce Remy. And the women he is with makes me seriously question his judgement. (view spoiler) His sudden change of heart at the end gave me whiplash and felt more like wish fulfillment than reality. I guess you could say I didn't enjoy this book.

---

### **JoAnn says**

I really really wanted to love this book... I did like it just could have been more.... Little things irked me about it. I got why she did what she did regarding Shiloh. With all the dramatics with that situation nothing really happened there once it all came out in the open... I didn't feel the love or chemistry between them he seemed to show more for his latest DC conquests... It's like Remy was a second thought when it came to him coming back home. I don't like that he carried a "relationship with several other women while still trying to pursue Remy... With this day and age how do we not communicate with text or emails?!?! She seemed to accept him whole heartedly after the DC incident. I mean really he was gone 6 days after she returned my mind would have conjured up a whole lot of stuff during that time... But she just says ok! Ugh... I expected her to have a little bit more back bone! I just needed more from this book.

#### **1 ~Crap-tastic Hero~Star**

This is NOT a safe read. I hated the H, Sawyer. Just everything about him, the way he thinks, acts, what he says and does. None of it worked for me.

Where to start . . . Sawyer is from a rich family, he has two brothers and shortly after his mother died, his a-hole father marries his mistress, some ditzy bimbo who is just a few years older than they are. His h is Remy, a girl from a large but loving family who's loved Sawyer for forever. At first I thought this was going to be a second chance romance between high school sweethearts. Nope, this is more like a 10+ chances and-he-keeps-blowing-it romance. They dated in high school but they were never really in a relationship. From Remy's flashbacks and thoughts, she was only ever his convenient f\*ck buddy. Remy was a doormat. When Sawyer leaves to enlist, he sporadically comes to visit and always manages to get into Remy's pants. She knows that they aren't exclusive (of course the H is a man with manly needs so he sleeps with anyone and everyone) but she "loves" him so she takes whatever scraps he throws her way.

The last time he visited was four years ago. Remy ends up pregnant with his baby. Because she knows he is off doing better and more exciting ~~women~~ things with his super better and exciting life, she settles down in her little judgmental town to raise her baby, alone. She has the support of her large family and that is

probably the only thing I loved about this read. Her family, mom, dad, brothers and sisters were great with the baby and with helping Remy, I really liked that part.

So fast forward four years (with no contact between the H and h) Sawyer is back in town. Not because he misses his family or because he wants to settle down, and definitely NOT because he misses the h. He's back for the simple reason that his douche father is blackmailing him into staying to run the family ranch or he will sell it all.

At this point I thought, with a few twists, some groveling and some OTT sweet moments this H might just be able to redeem himself. Nope, again I was horribly wrong. After only being back one day, he sees Remy at a bar where she works and immediately wants to pick up where they left off. Apparently he doesn't think anything of the last four years of silence between them. When she turns him down he gets bent out of shape and for the life of him can't think why she would be mad at him! While he tries to reconnect with Remy, Sawyer still receives and responds to sexting messages he gets from a 4-5 of his other f\*ck buddies that he has back home in the city. This includes nude pics, dirty texts and even a video clip he watches. All after meeting the h again and trying to get in her pants. \*gag\*

It doesn't matter how many times authors try to convince me a manwhore of this proportion is hot/likable/lovable or has the capacity to remain faithful, I just don't buy it.

Sawyer was not redeemable in my eyes and the way he reacts to finding out about it baby! Ugh! He actually thought one if not both of his brothers took his left overs and that the baby was one of theirs! When he finds out the truth he ends up furious with Remy for keeping him from his child. Which I get was messed up, but cut her some freakin slack, his father threatened her and after trying to contact Sawyer with no response, she did the best she could. He never tried to get in touch with her so what was she to do?!?! I absolutely hated that every time there was an argument or a fight, his first response was that he didn't need her and always the thought that he should go find OW to slack himself on. \*more gagging\* And I'm supposed to believe this guy is genuine? That if push came to shove, he would stay exclusive with Remy? Again, not buying it.

This book straight up sucked for me. Not even the moments with his kid made up for what a giant loser this guy was. Especially since Remy admits that she's never been with anyone but Sawyer. I hate when the h stays faithful to the cheating H. It is not romantic or special, it's messed up and a mood killer.

Safety: NOT safe. There is a four year separation where the h is left to care for their son while the H sleeps with countless women. We get no detailed scenes but he does think about and makes mention of these other women. We even get to meet one towards the end, at his warrior buddy's funeral. The fact that this same woman was also his (married) dead friend's mistress was gross! It ends with a "supposed" HEA (marriage) and another baby on the way.

---

### **Jane says**

Ex-SEAL Sawyer Roman returns to his hometown, Catahoula, Louisiana with his two brothers. He tries to talk to his girl from home only Remy River will not talk to him.

Sawyer knows she is keeping secrets from him. His brothers will not tell him anything either. His

manipulative father is pulling more strings than he imagined. He has all three of his sons home working on the farm. Remy's father and brother warn him to stay away from here and none of it makes sense.

I love second chance romances and *SEAL's Bride* is a very good one with a secret son too.

---

### **Pratna Imrith says**

This was my first time reading a book by Vivian Wood and I really enjoyed her dual point of view writing style, however she did not fulfill my expectation of the lovable alpha male hero which I have come to expect from SEAL books. I found Sawyer highly annoying because he was being a man whore and treating Remy like a booty call and he did not show much qualities of a Navy SEAL. Remy's character was irritating because I could not accept her decision to hide her son from Sawyer and the fact that she just assumed the worst of him and even when he is treating her like crap she is still falling back into his arms. I also felt that the author did not give much importance the issues in Sawyers life such has his troubled relationship with his father or the PTSD that he was suffering from. The chemistry between Remy and Sawyer was good, but annoyed me at the times when Sawyer was being a man whore. I found that the book also left many gaps like Sawyer confronting his father and the many days at the end when Sawyer disappeared. The part where Sawyer finds out about his son was very anti-climatic and I expected more emotion from that scene or it to happen earlier in the book and they take a while to sort through the drama which was definitely lacking in the book. Overall this is an okay book with good writing and annoying characters, but I had expected much more from a book based on SEAL's.

---

### **Quiche says**

If I could give this book less than 1 star I would. The H is an irredeemable selfish manwhore. I've read 100's of romance books and this ranks in the bottom and the first time I've ever thought of the phrase "balance of power" while reading a romance book. The male lead treats her like a booty call since high school and she lets him. It is truly disheartening that people could give this book a good review. How low is your self-esteem if you think this relationship scenario is romantic?

---

### **Samantha says**

#### **Eehh**

Unfortunately I wasn't digging this book to much. For me the beginning was way to slow with too many details and a lot of waiting. Then finally towards the end it finally picked up then everything kind of happens at once. I felt like a lot of details were missing and left me with some confusing. She was 28 he was 30. But it was mentioned later she was in kindergarten and he 4th grade when they first met. Just felt like details were missing or weren't adding up. It also felt like both brothers should have books. They were both so frequent in the book and had hints dropped here and there about their life's that you never really find out answers. Colt and his leg. And Walker and his past relationship. And more recent Walker and Shelby. Just felt incomplete. I also felt like the characters had no chemistry. They were "high school sweethearts and prom king/queen" but once they met up again it was like they just met or barely knew each other. Nothing indicating that they were in love for (years?) And grew up together but nothing about their past was

mentioned. I don't know. Just kind of lacking for me. The only thing I liked was the ending. It was sweet and happy.

---

**Yasmin Vasquez says**

I enjoyed it a lot what I didn't like is Chapter 28 is blank and I have to wait until 7/1 to get the epilogue.

---

**Michelle says**

There is nothing to like, or redeeming, about Sawyer.

---
