You asked for it, so here it is: an ILLUSTRATED Legend of ZERO story!

**BLURB:** A rogue Trith is out to start a war, and only one bug can bring him down. In this Legend of ZERO novella, Joe Dobbs' eccentric, ceiling-lurking groundmate Flea teams up with Forgotten to stop a Trith from killing his friends. The task, however, is harder than it sounds--often because of Flea's own dubious choices. Will Flea succeed in defying all odds and ending the Trith's reign of terror, or will he end up spitting on one too many bad guys with guns? Will he balk in the face of danger, or will he become FLEA, AGENT OF CHAOS?! You get to decide...

**Author's Note:** This story was written AND illustrated in 14 days. (14 sleepless, zombie-shuffling, caffeine-powered days). Lance and I wrote and illustrated it for fans of The Legend of ZERO who wanted to donate money to help with the repurchase of the rights to Outer Bounds because we felt we needed to create something fun and entertaining in return for their amazing support. Flea, Agent of Chaos is shorter than the standard ZERO novels (about 60,000 words) but contains over 45 different images detailing Flea's crazy misadventures, with a link to the wallpaper-sized images in the back of the book, in case you fall in love with a particular scene. It's fun, snarky, and you'll probably find yourself reading it several times before you can put it down. Thanks again, and please enjoy the mindscrew you are about to endure. :)

**WARNING:** THIS IS NOT BOOK 4 OF THE LEGEND OF ZERO SERIES. The Misadventures of Flea, Agent of Chaos is a mind-bendingly complex stand-alone novella featuring the Baga character of Flea from ZERO 2. It contains lots of hints as to what's to come in ZERO 4, so it is best read after Book 2, but before Book 4. It is best classified as ZERO 3.5, but since the publishing system doesn't recognize decimal places, it is ZERO4. :)

# From Reader Review The Legend of ZERO: The Many Misadventures of Flea, Agent of Chaos for online ebook

## Maciek says

The book is special project for fans of ZERO and Outer Bounds, created in limited time.

We get an adventure of Flea, funny Baga from Zero's ground team. Flea is a true agent of chaos wherever he goes and whatever he does.

The additions in book format allows us more to feel like we're adventuring with the Flea.

## Anita says

This is a choose-your-own adventure story about a very funny military recruit who happens to look like a large bug. He's a nearly indestructible, self-proclaimed agent of chaos with a short attention span and no comprehension of numbers about 6. He's also obsessed with dungeons and dragons. He gets sent on a mission to a mining colony with only a small chance of success. His failures are epic and funny and usually fatal, but if you make it to the right end, he does win in the end. I don't like the Legend of ZERO series, but I still loved this book, and I was happy to buy it to help the author fund her buy-back of another series.

## Phil Kozel says

I do not think I have ever called a book cute in a review, but it applies here. If you are a fan of the Legend of ZERO series, you will enjoy this! 3.5 stars.

## Kurt says

Funny side story to the main series.

This is what happens when you crap excellence. Apparently this whole project came together in two weeks, but it's as good or better than the majority of what you see out there these days. Sure, I found at least two typos, and certainly some parts of the story are probably revealing too much about whatever's coming in the next book, or could have been fine tuned to squeeze a little more emotion here or there. Overall the story feels short, like an introduction or a space-filler, but that's exactly what this is. King needed to raise money to buy back the rights for one of her other series, so she rushed this story together. That doesn't mean it's not an enjoyable little adventure.

Speaking of adventures, I was amused to find that this was a nicely functional choose-your-own-adventure story, which fit in perfectly with the plot in a number of ways. I always hated cyoa books as a kid, probably

because of my inability to keep track of where I was, and compulsive need to go back and change my mind after every few decisions. This book manages to make all that pretty easy.

**Flea, savior of the universe.**

If you've read the first three (or four?) Zero books proceed! Fun and funny. If you have not read at least 2 Zero books, STOP. Find them and read them first!

### **Patrick Barnes says**

**Fun**

The book is a silly book but fun. It keeps the personality of Flea and others in line with the other books in the series and it is funny.

### **Pablo Giambelluca says**

This book is quite a fun ride, it really goes off the way to be different than previous books with a multiple choice scheme (a la Chose Your Own Adventure) but baked in such a way that it feels quite natural and makes an excellent match with Flea's personality.

The story in itself is a side adventure but it sets apart some main characters that I feel are or will be important like the female Baga Click. Rat participation sets some precedents too and the D&D references are fun and functional, so much so that it makes understanding the mind of the Baga a little easier (being they usually don't take things too seriously).

Overall a fun an excellent read while waiting for the next Legend of ZERO book! :)

**Not for me.**

Maybe I'm too old for this style of book. It's written with links to multiple outcomes so you can skip all over the place tracking down the story or maybe just customizing the story based on your choices. But my brain is too linear for that. I don't like choice when I read a book. I like narrative that goes steadily along from beginning to end. So while I suppose this is quite creative, it's also a pain in the neck to read. Normally I thoroughly enjoy Sara King's work, but this time I have to make an exception.

Did you like Flea from The Legend of Zero #2? Do you like Dungeons and Dragons? (Hell, you don't even have to like D&D, you just need to know what it is.) If so, then buckle up because this is going to be a wild ride. This book is 100% Flea, doing nothing but being Flea, which is to say that it is hilarious, and wild, and absolutely insane. Oh, and its a **CHOOSE YOUR OWN ADVENTURE BOOK**.

Sara King wrote this in 14 days to help fund the buy back of a series she sold long ago. Despite this incredibly small time frame, she churned out a book with only a single error that I found. It fit into the Zeroverse (I'm calling it the Zeroverse now) perfectly, and allowed King to have the kind of fun that only a character like Flea really could. This book is all fun, all the time, and actually hints at some plot toward the next full installment of the Zero series, which I will not reveal because Sara said not to and I'm a good little minion.

Was \$7 a lot for a book this size? Yeah, probably. Was it worth it? Oh my God YES.

Finished September 17, 2017. Readability 6. Rating 5. I will take it for what it is - a bit of a throw away tale, intended for fans to get a little Flea fix and have fun with the flexibility of ebooks and the limitations of the Baga mind (with Forgotten thrown in to spice things up). Good enough.

## Leather says

The best "chose your own adventure" book ever written !  
Totally crazy, hilarious, a must read for Zero's universe fans.  
The Pepsi artefact is great. I want one !

## John Crenshaw says

Gotta love a book that stars Flea. The book is a bit of a chaotic read as you are given options as to what decisions Flea may make. Even as I reached the end of the book, I wasn't totally certain that I was at the end of the book. I am now digging through all of the alternatives, just to make sure that I dug out every Flea gem.

## Daniel Havens says

This was fun. Definitely not the same as the others in the series, but it was a welcome change and like I said. This was fun.

Sara King is a monster talent. So far I've given her ZERO books five stars (with one volume yet to be read). This volume is the first interactive ebook I have read and I found it frustrating and awesome at the same time---make the wrong choice and you might get sent backwards in your page count by a huge amount, with no way to jump back. Ms. King must be a slave to her imagination to churn out so many books. But be fore warned there is nothing lady-like about her writing, she's as tough as they come. And humorous, to boot. What a great combination!
