Mickey Taniss had a difficult time trusting men--of any species. And she knew she'd never be able to trust one who'd turned her from a human woman into a vampire! Or a Dardaptoan--whatever he'd called her.

She knew the truth--he'd kidnapped her and taken her from the very world she knew. And now he wanted her to believe some goddess she'd never heard of had preordained them being together?

He was absolutely crazy.

Theodoric Sebastos had spent the long centuries waiting for and longing for his mate, and when he found her he would do whatever he had to in order to convince her that they belonged together and that she could trust him.

But how was he to do that?

### **Missyb says**

The beginning is just a rehash of the first half of book 1, but expanded and from Theo's point. This one is about Theo & Mickey. Too short, especially when the beginning is a rehash of the previous book. Not much more happens than what was told in book one except it's about Theo & Mickey, and barely moves the story along.

### **Michele bookloverforever says**

Part of a series. Decent characters. Not enough plot.

### **Shelley Chastagner says**

This is one of my favorites of the series. Theo's gentleness and efforts to make Mickey feel safe and loved went a long way for me. All of Theo's actions spoke of how much he longed for her to be his. Mickey may seem meek but she has great inner strength that impressed me. The ending is nicely done.
