Book Of Thunder John Peel

Score, Helaine, and Pixel rush to the planet Dondar to rescue their unicorn friends. Thunder, the noble leader of a herd has lost his title-and almost his life-to Tychus, a rogue unicorn who has a "wrongness" about him that everyone senses. And Helaine notices that the herd is behaving oddly, as if under a spell, with Tychus in charge.

With help from their magical guide Oracle, the wizard Shanara and her sleepy red panda named Blink, and a unicorn named Darkstar, the trio learn more about the new leader of the unicorn herd and his devious scheme that will endanger the entire Diadem.

Jamie says

This one I feel had the best adversary so far in the series for the three to face. I hated how Thunder loses his herd through trickery and cheating! How infuriating! Especially to those who knew the truth. Unicorn laws are pretty absolute in this book and about drove me nuts, right along with Score and Helaine. I felt Pixel handled it the most level-headed of the group. It is interesting to watch the dynamics between the three shift. Especially now that Pixel knows he likes Helaine. Girl you got boy trouble ahead! And that ending....well eager for the next book now!

Diadem #4: Book of Thunder, by John Peel

Fresh from their defeat of Sarman, the evil magician who tried to take over the worlds of the Diadem, Score, Helaine, and Pixel are thrust into another adventure when their unicorn friends are targeted by a deadly enemy. For the first time, the powerful trio is split up, as Score and Pixel try to solve the puzzle of missing unicorn, and Helaine stays behind to spy on the herd.

Another good entry in the Diadem series, "Book of Thunder" continues the theme of evil being found on most of the worlds in the Diadem. As the most powerful magicians in the universe, Score, Helaine, and Pixel are the only ones strong enough to root out the different types of evil. Also present is how the power of friendship and loyalty, and the want to do the right thing, can triumph.

4/5.
