Brie Practices Her Oral Skills

Red Phoenix

Brie Practices Her Oral Skills Red Phoenix

Book #5 of the Brie Series

Brie's first full week of training is an exciting roller coaster ride! Although she receives a good review from Rytsar, Brie suffers from an underlying problem. It rears its ugly head and brings Brie to her knees - literally. She is thrilled when Sir offers to practice with her on stage. On Auction Day, the lucky little sub spends quality time with "Doctor" Harris.

This succulently hot novelette encompasses an entire week of Brie's submissive training, including her second Auction Day.

Extended Description:

Brie's first full week of training focuses on perfecting her oral skills. Not only does she learn the secrets of the mighty shaft, she also applies her tongue skills on a Domme or two. Unfortunately, Brie has a weakness that threatens her success as a submissive, but Sir refuses to let her fail. Time on stage provides the devoted sub a chance to express her true feelings for him. Brie's week ends with the auction, putting her in the care of a sexy but demanding doctor.

Adult Material (18+)

Lynn Mullan says

Another good read.
Few typos.

Shurrn says

This is a particularly tasty episode of the Brie Series...

"You were told that we would focus this week's training around your evaluations. After reading through them, it is quite obvious that you three are beginners when it comes to oral skills. This week we will have to start with the basics."

The curriculum for the week is set. Cunnilingus, fellatio, deep-throating, and face-fucking are all on the menu...

I'm Resisting the urge to make a 'hard to swallow' joke...

Brie even has the opportunity to show off her new found skills for Ms. Clark. So yeah, we get a fair amount of girl-on-girl action going on!

BRIE BENNETT

Brie actually sighed with relief. At least we all suck. Well... we suck, but not very well.

Outside of the training rooms we learn the details of Mary's dark past, the Good Samaritan is popping up on campus, and Brie is falling for Sir a little more each day...

This chapter of the Brie Series rolls into the following Saturday and another Auction. This time Brie is won by Master Harris who has a thing for medical kink.

Side note: During the BDSM Medical Kink scene, Brie's safe word was 'Apple' that got an audible laugh out of me...

It's cheeky little moments like that which make this series so much fun! It's highly erotic and a little intense sometimes, but it never takes itself too seriously...

And speaking of serious, by the end of this book Mary is starting to thaw a little toward her fellow subs...

Oh, that Brie... She always manages to cheer me up. Week two was full of new lessons and experiences. She was a little bit indisposed this week, but she managed to work around it and learn what she could. As the title says, she practiced her oral skills. Intensively. On Doms, Dommes and one Doctor. Even Ms. Clark admitted she did something right, which was a first. Brie, to her great joy, got to spend more time with Sir. And the week ended with another auction. Not with a Russian, but a Doctor, who gave her a thorough examination.

Great continuation of the series.

Though I enjoyed this book as much as the others, It felt like the tone had changed a bit into being more instructional. And the instructions were great. We learned how to give good oral to both male and females, and even Ms. Clarke is warming up to Brie (how could she not? Brie practiced her oral skills on her!). Brie

also lived out her Dom's Doctor fantasy, something she has an innate fear of. But it was a very hot scene, and I wouldn't mind being a patient.

This book also made me want to practice my oral skills more on my hubby.....I learned some new tricks! On to book 6!

Nikki "The Crazie Betty" V. says

I can't believe that this series is actually getting better and better the further through it I get! It isn't slowing down or losing pace it's actually becoming a much deeper story with A LOT of character development. I was actually quite excited that this volume was basically entirely "oral". I must say that although I knew all the "steps" that are mentioned in this story when pleasing either a man or a woman, I had no idea about all the terminology! I never expected to actually learn something from an erotica story, lol!

I very much appreciated that Ms. Clark finally got what was coming to her! Although I would say that part of this it is more pleasing to her than I would've liked but at least Brie gets to prove her Google search engine skills! Loved it! Put Clark right in her place. I was glad to see some f/f action however. I wondered if Red was going to include that I was pleasantly surprised when not only did our subs practice their oral skills on doms and dommes alike, a domme actually won Lea! Awesome. Mm I wonder where the red headed domme actually comes into the overall story or if we are going to hear anything about that?

I honestly had a hard time getting through Brie's entire experience with her 2nd auction. Although there were parts that were very hot and steamy for the most part I just couldn't get past the creep factor of a dude pretending to be a Dr. to get into a girl's panties. That's totally just me though, for anyone who is reading this review, it's just not my thing and I was glad when it was over. This is really the only reason I gave this volume 4 stars instead of 5. The story is great, we get to see more into Lea and Mary's characters, but this scene just didn't do it for me and since it consisted of so much of the story I couldn't quite give it the 5 star rating I would've liked to.

Disclaimer: Don't read if you have a problem with lots and lots of oral sex (both rough and sensual) on men and women alike, Doctor/Patient role playing, anal play, pain as pleasure, and as always intense domination/submission themes.

The Reviewer says

Wow.. How to give a proper BJ 101. LOL.

Even I thought I was good at it until I read Mr. Gallant's teaching Oral Skills 101 LOL LOL LOL

Is Sir going to give in to his desire for Brie ... :(???

Fani says

This book was not as good as the previous one but it was still good enough. The scene with Ms Clark was

my favorite and the way Doctor Harris tricked Brie with the syringe was very clever! I'm glad that i finally got to see the 3 girls bonding with each other and i want to see more of their friendship, while i'm hoping that these series end well for Brie.

?????????? says

4.25Brie Practices Her Oral Skills by Red Phoenix (Brie #5)

This is a BDSM erotica short coming in around 40 pages.

Week 2

This begins with Brie freaking out over getting her monthly friend. But the receptionist says, Miss Bennett, We have been doing this for 25 years, we know what we are doing. Get some rest we will see you at tomorrow's class.

This is an interesting point, that I've been pondering. Leave it to me. There has been a ton of activities going on, yet there has been no mention of prevention, there is defiantly no protection used, so when do we start Jerry Springer's round of Who's the Daddy? I'm just saying, with that much use as a receptacle, someone's getting knocked up, seriously.

The Dom's have turned in the evaluations of the scenes. Apparently, they all suck, since they have negative critiques, hmmm, but not well. So this week is all about oral presentations.

And for those of you that don't know, you will get a lesson in human anatomy. Lol. Get out your pen and paper and get ready to take notes.

This weeks auction has them acting out the Dom's fantasy scene. Brie is horrified to learn her bidder. His fantasy is one of her greatest fears. But he is a trained Dom, will he make her comfortable or will she safe word out. As the saying goes, "An apple a day keeps the doctor away."

CoffeeSiren TeaGoddess BookLover says

I also loved Brie's journey, I love the fact that you started it from no experience at all for her, the idea of the training school and other beginners was a wonderful journey to go on throughout the series, I love all the characters and their paths as well, each one is a vital part to the series and for Brie on her journey.

The journey was intended for Brie but I found myself falling in love with Sir and his own personal journey to realizing what he wants and needs.

I have read and re-read this series over and over. I would love any other novellas you may entice us with, even on the other characters lives. I look forward to your future musings.

Silviene says

wow I learned so much of oral sex that its beyond me, for Brie at first its easy than a problem arises and Sir has to help her with it. I got to say these auction doms are really intense and passionate and the way that Red Phoenix writes her stories are so enthralling that you want to keep reading till it doesn't stop.

Celsey Seivert says

2 week of training and Brie gets her report from her fantasy Dom and learn she is not great at giving oral sex...today she gets to learn all about the male shaft, very educational even if you think you are good or might want to rethink that lol. Anyways lol back to Brie she has made it her goal it finish this course and be the best submissive this school has ever seen! She is on a emotional roller coaster not knowing what she really wants and when her boundaries have been meet.

Yogi says

After the reviews from the auction come out, it's apparent that the three girls are lacking in the oral department. When I read the title of this, I had to laugh a bit. However, for those who are looking for simply instruction related to fellatio, this book really gives some great instructions. Deep-throating is a skill, and does not come to those who don't practice.

Kelly says

The latest installment in this series was erotic and,surprisingly, educational as Brie continues her pursuit to be the best submissive possible.

My favorite part of the story was after Brie used her newly acquired oral skills on the bitchy Domme and instructor Ms. Clark. When asked by another instructor how she, a novice, employed advanced cunnilingus techniques on Ms. Clark, Brie answers, "I googled it, Sir".(Too funny!)

The only part I didn't care for was when Brie acted out a doctor/patient scenario with Master Harris. I don't particularly care for reading about medical/sexual fantasies. The time she spent acting out a fantasy with Rystar in the last book was much more entertaining and erotic.

Overall, I enjoyed it and look forward to Brie's next adventure.

Ange says

It's week 2 in the submissive training course and there is a new lesson and many new skills to be learnt. Brie has a hard time with a few aspects and needs some further instruction. Her week ends with another out of school activity day.

My summary probably sounds dull, but I don't want to give anything away! These are stories where discoveries are best found by one's self so you are able to enjoy it yourself. It really was a quick and enjoyable read that was over too soon! Luckily I have the next story awaiting me!

carol says

Brie comes to the end of her first training week and following her exciting fantasy fulfillment with Rytsar the important Russian Dom, she now has to develop and practice her oral skills. I learnt a few things from this novelette, shows we are never too old to learn new skills;) Brie has another but public session with Sir which surprised me. I thought it was her fantasy unreciprocated once he'd had what he desired from her. I still don't know whether it will be a HEA for them or whether she is suited to another. Her experience with 'Dr' Harris is a must for all of you with doctor fetish and medical kink...which Brie doesn't seem to have. Again I considered this for 4 and 5 stars but go with 4 this time. Again good standard of English.
