Falling in Love Again Barbara Conklin

Mariah's not one of those girls who's never been kissed. Once. It seems like a thousand years ago. But Paul died, and Mariah thinks she'll never find anyone as special again.

She hadn't counted on the school play, though. Somehow her crazy friend Amy ropes her into working on the props. Before she knows it, Mariah's the understudy for the female lead! And she can't help but notice Dan Gordon, the male lead.

When Dan asks her out, Mariah doesn't know what to think. He's sweet and funny and understanding - but she can't forget Paul. His memory seems to always be between them.

Then Dan tires of being second best, and Mariah knows she must choose - between Dan who loves her now, and Paul who loved her first...

Bernadette says

i still read it once in a while. love it. my ps i love you got lost. someone borrowed and never returned. i think that was the last print of it.

Ays says

I loved that Mariah found love again.I think this is the perfect follow-up to p.s. i love you!

Mariana López says

Lo único bueno del libro es que solamente me salió \$10...

Diana says

I read this as a teen and it is still on my bookshelf. :) Sequel to: P.S. I Love You.

Yolanda Sfetsos says

I'm pretty sure this was the sequel to P.S. I Love You, and I enjoyed it just as much! :)

Patricia says

This was the sequel to PS I Love You (which was the very first romance novel I ever read!)

KylieAtkinson says

A nice Sweet Dreams book with likeable characters. Nothing groundbreaking and not quite as good as PS I Love You but I liked seeing Mariah move on after tragically losing her first love.

Andrea says

While not as good as it's predecessor, PS I Love You, it was still really good and did a good job of showing how people can move on even after losing someone so tragically.

SouthWestZippy says

Wonderful story. Not too mushy. Young Adult. I read these books in high school and now own them and yes I reread now and then. Quick and easy read. Not normally my kind of book.

Angie says

Another book I read in my teen years. This is the sequel to "P.S. I love you" and is pretty good. It continues the story of Mariah and how she learns to love again after Paul's death. I am always a sucker for a sequel, so I enjoyed it. I didn't read it as many times as the others I listed on here, but since it went with another book, I decided to add it anyway!

♥ Susan says

Sequel to "P.s. I love you".. my favorite book as a teen (or, more accurately, probably a "tween")
