Loved the series, loved the characters ! Wanted to kill them but still loved them. Loved the men! That being said... Need a new proof reader. Lots of errors in spelling however the book was still great. I'm going to miss these girls. Maybe spin off for Hannah ; )

Book 4 of the Star Series - Falling Stars:

Great book and amazing conclusion to the series. I must say that the title had me thinking totally differently about how the story was going to go however I supposed that depends upon how you look at it. But I love the story all the same. I was pleasantly surprised and loved the ending. Here's my take on it.

Hailey has finally realized she has a drinking problem and decides to do something with it. With the help of Dexter she has decided to take that step. And keep in mind, Dexter and Hailey weren't exactly friends originally because of what he did to her but now they've developed some type of relationship. The real question though is will Hailey accept the help and do what needs to be done? And what about Chris. Where does he play into all of this? Will Hailey continue her relationship or will she finally really let him go?

All of the events that occur up to whether or not Hailey decides to handle her drinking problem or not does not prepare you for what happens next and I must say I was not at all expecting it.

It's a beautiful love story that's more real than your usual love stories. There are real life type events and occurrences in this book and I love it. It makes it that much easier for someone to relate if they have been through something similar. It was definitely one of the best stories I've read in a while. Loved it.

This book is only recommended for mature audiences due to sexual content along with drug and alcohol use.

Falling Stars was the perfect ending to an amazing trilogy. I honestly don't know why I waited so long to read these stories (thanks Meg) Go, Go, Go and read this trilogy NOW.

Reading book one and book two I had so many questions that I wanted answers and I am happy to say I feel like my dreams were answered. Hailey and Allie are back with more exciting twists and turns in both their personal and professional lives. I was so excited to start this book and it kept me up half the night wanting to power through to the finale. The character development in this last installment was magnificent!! I loved to see Allie going from a 17year old up and coming actress/party girl into a grown woman with a goal in life and a real sense of family. Hailey surprised me with her commitment to life and love and friendship.

I was so glad to be given a direction for all the characters. Jettie gave just enough to let the readers know where not only Hailey and Allie's lives are headed, but also Peyton and Kay and Addison and of course their men.

Thank you Jettie!!!

### **Synopsis:**

You've met these two separately, now read on to find out what happens as they meet and travel down the road to stardom together. Can they handle it? I am doubtful, but who knows. Just when you thought these two couldn't possibly get into anything else, they undoubtedly can and do.

I hope you enjoyed the first two books in this series and stay tuned to find out what situations Hailey and Alley find themselves in next.

### **Meg's Review:**

Oh Jettie. Why must you torture me with another MIND BLOWING book! I don't know how I am going to

say goodbye to these girls. I fell in love with them, in love with their families, and Their World. This is definitely a book I will not soon forget. It was the third and last installment of the Star Sequence following Hailey and Ally <3 and we were not let down in the slightest. (Not that I had any doubts we would be.)

This book is about battling our demons, or well Ally and Hailey battling their own and each others. It tore my heart out at some points and had my stomach in knots laughing at others. You dive deep into the girls addictions in this book. Be it drugs, men, alcohol, or life. We experience it all. This book is the tell all.

I could not get enough of my men in this book! Chris and Trevas were MY shining stars. Even though Ally and Hailey are our main dish here, these men are their other half. Sometimes I felt the need to reach through the book and slap the girls, but alas we had the men to keep them in line and on the right track. Not that they needed the men, but really? Who wouldn't want one of those boys at their side <3

I was very sad to see this book end. :( I am in love with them. All the characters. I think I am having some separation anxiety and must go re-read the book after this review. It's a wonderful world to get lost in. I hope you have read the first two book, because this one drops some major bombs on us and keeps you reeling till the very last page. (No really, I read it twice it was so good) Go buy the book. & the first & the second if you haven't already done so <3

## **Natalie Townson says**

For me this was the best of the three books, we see Allie and Hailey come together as they have been cast in a movie, soon they are firm friends although Allie is living in Utah with Trevas she is soon thrust into the spotlight again and the paps are worse than ever, they want to know where she has been.

Hailey is still struggling to deal with her issues she doesn't understand why she can not let Chris go why he is her Addiction but for the first time in her life she has someone she can lean on without being judged, her friendship with Allie is her Life Saver.

These two together is so good, their personalities bounce of each other when one is down the other pulls them back up and the bond their share is unbreakable

I loved how these books all tie together and I was more than satisfied with how they ended. There are so many twists and turns from the beginning of book one right through to book three

## **Marla Landry says**

Star Sequence is a MUST read! First you have Starburst. This book tells you all about little Ms. Allie and her wonderful 'evil princess' ways. In the second book, Stardust, you learn about Hailey and her fight with all her little addictions...Then you have Falling Stars. When you put Allie and Hailey together you know you are in for a good time. Loved watching these two grow from being 17 year old girls to grown women. They both had struggles along the way, but managed to come out on top. Looking forward to more from these two and their amazing family...Great job Jettie!
