Hot Cop Next Door

Mia Madison

Hot Cop Next Door Mia Madison

The innocent Jessa Evans working in an adult toy shop? It sounded like the start of a bad joke to me.

I took the job to avoid moving back in with my parents, even though I did miss having my longtime crush as a neighbor.

Aaron Wells. The most handsome man I've ever seen. The star of my embarrassingly tame fantasies.

None of those fantasies included him being the officer to respond after I accidentally trip the security system while closing up.

I don't know how to handle him knowing about my new job. I *definitely* don't know how to handle him coming back on his night off to flirt with me.

Despite his reservations and my lack of experience, I'm determined to get closer. To find out if my crush is just a crush... or something more.

But our age difference isn't the biggest obstacle we have to overcome. Not even close.

It's his friendship with my father.

**** Hot Cop Next Door is a steamy, standalone romance novella with no cheating and a happy ending.**

Kinky Girls says

Hot Sexy Cop Next Dooooor FTW

Hot Sexy Cop Next Dooooor FTW. Hottoe next door is a good friend of the family. Loved the friendship between them and then their chemistry. Super hot read.

Andi Isack says

Cute....

A quick and cute read. A sexy cover, an interesting title, some things to learn about, an easy and sexy storyline, but Not the most original.

Lani says

I wish I had a hard copy of this, so I could chuck it out the window!

I was actually excited for this one, yes it had the stereotypical hot cop who comes to the rescue only to be surprised it's the girl he's been gaga-ing over, but it also had a woman working in a sex shop!

Which I realize is also just the stereotypical register job, before prince charming comes and saves her from her boring life, but it was the fact that an author thought to let their female character be confident in their sexuality!

...but alas, the heroine was a meek and mild girl and not the hellfire sister I was imagining, like her friend working with her in the shop.

First bummer.

Second bummer was when I realized the poor writing in the beginning wasn't just a reader's hump I had to get over in order to get to the good part of the story.

It was just crap writing.

...and so ends my excitement...DNF @ 35%

T Van says

Hard Characters For This Reader to Love

Neither Jessa nor Aaron did much for me...I found both slightly distasteful, slightly unlikeable. Their attraction didn't come across as completely believable... just not my favorite next-door story.

April says

No speeding ticket required for this cop

The quiet neighbor girl has a crush on the hot cop! Sounds good right, it totally is a must read! Great characters and it makes you want to speed through town just to see if there are any hot cops???

Angie Wade says

Aaron and Jessa are my new favorite couple. Mia has written another swoony sexy tale!

Jessa is a virgin. She is definitely a late bloomer. She gets a job at a sex shop and it is almost comical how totally out of her element she is.

Enter Aaron a sexy police officer who also happens to be her parents neighbor. She has had a crush on him for years. When he seems to be interested in her she falls harder.

Can they overcome all their obstacles to find their HEA?

Emily says

Jessa Evans cant believe she is working at an adult fantasy shop, but when her parents neighbor and cop Aaron Wells answers the call after she inadvertently sets off the alarm. Aaron has been Jessa's secret crush but she has always known it would go nowhere as he is friends with her dad.

Aaron knows Jessa should be off limits but he cant seem to stay away. When Aaron makes a decision that Jessa is worth it, the begin to explore what is between him. How can he convince Jessa he is long term material particularly when Jessa's parents might object?

I liked the concept of this one but felt like Jessa as an adult was still a bit of a kid in some ways. I think if the book had been longer and you could get to know them as a couple it would have been phenomenal, that being said I was looking for a quick read and something just fun and it fit the bill.

Yvette says

Love it!!!!!!

I must say I loved this book. I have read a lot of Mia Maddison's books. I think this is hands down my favorite. It was funny and cute. It's a quick read but, full of what needed be in it.

Stacy says

Love Mia Madison's books

I love these books by Mia Madison. They are quick and dirty, I can read them in one sitting, they give me just the right amount of dirty and taboo that I like. I

I have a crush on one of my parents friends (no he was married and Lord knows is never do that) but I understand the appeal of older men. They are wickedly hot!

Raine says

Not bad

This book wasn't too bad, but I've read better. This one was about a hot older cop and a younger innocent woman. The sticky part is the fact that he's her father's best friend.

Kristhia says

This had a lot of the taboo tropes

*May-Dec romance

*Older man younger women

*First time

It was a fun sexy erotica but there really wasn't much of any sort of story line. I wouldn't read it again.

The story is about a 22 year old woman who is working in a sex shop (not only does she work there but she is also a virgin) on her off time while going to college and one night while closing up she sets off the security alarm which alerts any local police to answer the call and she sees Aaron, the police officer (her long time crush.)

The fight there feeling for each other because not only is Aaron older he is also her father neighbor and friend.

Lynsey A says

This book was just ok for me. Nothing too exciting.

Tonya Sims harper-dixie says

This book was just OK, young woman works in an adult toy store, but she is a virgin, can you picture that,

red face all the time, not knowing what some items were. It was kind of funny. So one night she is closing up the store and puts in the wrong alarm code which triggers the police to come, and who shows up, her parents next door neighbor the police officer whom she has had a crush on for years..
Not going to spoil the story for you just read the book, it is worth the price.

Lauren says

I really really really enjoyed this book. I would go as far as saying that this is my favourite book of Mia Madison's in a long time. I read this book in one sitting and wasn't once bored. From page one I was hooked. I loved this entire story and was left satisfied with the ending.

I adored Jessa's shyness. I liked the fact that she was a virgin working in a sex shop. I liked that as the story progressed she slightly came out of her shell. I liked Aaron. I liked that he tried to resist Jessa. He was attracted to her but he didn't want to upset his best friend and neighbour who was also Jessa's father. I liked the chemistry between Jessa and Aaron. I liked them together and thought they matched perfectly.
The storyline for this book is easy to follow and an enjoyable read.

Seepurple06 says

Arrest me officer!

I have to say this was cute and sexy. I love the ending which means you'll have to read it to find out why. Jesse was sweet, innocent and very naive. Yet, she got a job working in a sex toy store. When she messes up the alarm she didn't expect to see Aaron. He's a cop and her dad's best friend. She has always had a crush on him and somewhere along the line he started to have a crush on her. Love the handcuff use...hot!
