**It's not exactly Alice's typical morning commute...**

When Alice Calliope finds herself on the newly re-opened Oregon Express train at the same time as a local business owner is shot, she finds herself in the middle of a murder investigation once more.

Knowing tongues in town are beginning to wag about the newcomer to town who's been around for both murders, Alice recruits Cat to help her figure out exactly which one of the train passengers committed the crime.

Between Alice finding herself meeting with police chief Chase Griffin for all the wrong reasons, magic lessons with Grandma Cee that can politely be called unorthodox, and the discovery of a new ghost in town, Alice quickly realizes her life in Sapphire Village is far from the quiet, uneventful life she'd imagined when moving here.

But as Alice comes closer to finding the murderer, she also discovers there's a new, different threat in Sapphire Village. Will Alice be able to solve the murder and save her reputation before it's too late?

*Murder on the Oregon Express is a full-length novel and the second book in the Magical Bookshop Mystery series of paranormal cozy mysteries.*

Not a long read, just got distracted by other books

#### **Good of kind**

This is the second in the series of cozy mysteries of the "girl finds out she's a witch and inherits" variety. Although there is nothing unique about the plot, they are well written and fun to read.

There editing failures in this book that are similar to the type of errors in book one. Our heroine is talking to Cat and then she explains to "Sophie" who becomes Cat again. Again they are entering the accountant's office and we are with Cat who suddenly is Sophie and then Cat again. Who is Sophie? I assume Cat underwent name changes during the writing of the book or maybe her name is Sophie and Cat is a nickname and I'm supposed to remember from book one. This type of error drives me as mad as a hatter. Please, please get an editor or at least a GOOD beta reader.

#### **Another great book**

Flying, the Others and a dead body. How is Alice going to get out of that. Another great read and it would have got a 5\* rating but for the ending (why did it stop so abruptly) and the editing. Seriously please get the editing sorted as it does detract from the story.

So, I'm giving this book a three star rating.

You see, I thoroughly enjoyed this book(and it's predecessor), until a certain point. I laughed, I was intrigued. And then, I started noticing errors. Sentence structure, spelling, grammar. Instead of writing "an avalanche of boulders" she wrote "a boulder of avalanches." Also, the main characters name is Alice, yet the author kept having her called Angela. I thought, ok, fine. I've read poorly edited books before, while annoying, it's tolerable to finish the mystery. But then things got really weird/bad. Chapter 18 ended up abruptly with this exact sentence: (insert stuff about Alice solving the mystery here) and jumped right into chapter 19 with Alice at the house of the murderer, which was a person never mentioned as a suspect, which never was explained how she deduced that this person was the killer. Furthermore, the book ended all of a sudden in the middle of a conversation.

I'd like to read the 3rd installment, but I'm kinda nervous. If it's as poorly written and edited as this, I won't enjoy it.

#### **Excellent mystery!**

First I have to say I wish I had a Grandma Cee. She is so crazy and cool! Alice is a great character, she is confident and I think she would be a great friend. She gets involved in another mystery, when a loyal is shot on the train. Since this is her second murder since coming to the town, she knows everyone is talking about it. She jumps right in to solve it!

### **Jeannie and Louis Rigo says**

Alice Calliope joins her cousin on the Oregon Express train to view another cousin's artwork in a gallery. Coming back home, Alice overhears a heated discussion of two passengers. However, the train suddenly stops...one of the passengers has been murdered.

Alice is worried that the small town is beginning to think how there were never any bodies until she moved into town.

This story has some magical aspects which I think should have been more employed in this tale.

Still enjoyable.

### **Alexandra Adams says**

I wanted to like these first two books, but gave up on #2, *Murder on the Oregon Express*. The books read like very rough first drafts from one of my grad writing students & desperately need editing. There are many plot errors, grammar errors, repetitive words & phrasing, and a clear lack of more sophisticated vocabulary. The books are over-written with lots of unnecessary verbiage & passages that contribute nothing to the plot. And seriously, since when do grown women constantly stick their tongues out at other??? The concept is clever, the characters have the potential to be engaging, but the author needs to understand that a good editor is every author's best friend. The numerous errors were both distracting and annoying. I have unfollowed this author & won't be reading her again until revised editions are released. There are too many good reads out there and never enough time.

### **Kate says**

I enjoy the characters and the story but I find some of their, the mc and her relations, actions highly questionable. I felt like sometimes logic was handwaved in favor of moving the plot along.

### **Robin says**

#### **Cute**

This is a fun little series. I like the heroine, she's got good balance in terms of her knowledge and skills -- she's not a bumbling idiot, but she's also not the end-all-be-all. There's good humor, a decently crafted mystery --a lot of threads woven together nicely. The writing is solid, some minor editing issues, but overall nothing that impacts readability.

#### **Clever Book Titles**

A bookselling witch deals with solving murders, 2 resident ghosts, a supernatural threat, getting to know long lost family and learning about the reality of magic.

### **Beth Hirschenbein says**

#### **Excellent**

I really enjoy Alice and her family. I love the portals showing up in places and all the rest of the magical

community. Hope that a relationship is building between Alice and Chase. Please keep this going for a long time.
