## One Daring Night Mari Carr

Joni's had better birthdays. Catching her boyfriend at a fancy restaurant with some bimbo certainly wasn't what she'd wished for when she blew out the candles. Newly unattached, she's ready to embrace singlehood by going wild, being reckless, maybe even indulging in some meaningless sex.

Depressed with his shallow love life, Eric Bryant is commiserating with his friend, Alex Dare, over a meal at his favorite restaurant. He vows to marry the next woman he sleeps with—just before a firecracker confronts her cheating boyfriend at the next table. Intrigued, Eric offers to buy her a beer. Joni agrees on two conditions: She wants tequila, and complete honesty. Eric promises nothing but the truth.

After one daring night, what happens when two people with such similar hungers want such different futures?

A third into One Daring Night I posted a comment to the author's FB page: "Mari, I flove this couple and this book!"

And that pretty much sums up my feelings. The couple's complete candor with one another is refreshing and makes for hilarious banter. The hero's instant and utter captivation with the heroine is sweet and perfectly believable. And, because it's a Mari Carr book, the sex scenes are deliciously panty-melting.

I highly recommend this story. It's a standalone but also a great addition to Carly Phillips' Dare to Love Kindle Worlds for those familiar with her DARE series. And if this is your first Mari Carr book, lucky you. She has an extensive backlist you'll enjoy plowing through.

#### **Fun cute read!**

I am really enjoying this set of novellas for the Dare to Love series. These two were so cute right from the beginning. Normally such a quick love after break up doesn't feel right but this was written perfectly. The instant chemistry and emotional connection made sense and just worked. I love these two.

#### **Loved it!**

Joni is such a strong woman and when she finds out that instead of spending her thirtieth birthday with her,

her live-in boyfriend who claimed to be working late got an earful in the middle of a high class restaurant with his girlfriend. Eric was there with his friend Alex Dare because he was tired of the meaningless nights with women he couldn't remember the name of the next morning. After a bet with Alex, Eric follows Joni after witnessing her scene. You will definitely have to read this really cute and sexy read. I found it very enjoyable.

Another great book in the new Dare To Love series Kindle Worlds releases! Joni and Eric's complete honesty was awesome. So much having two characters so completely lay it all out on the table when they first meet. It was hilarious listening to them tell each other all kinds of crazy things. Eric's decision to marry the next woman he sleeps with didn't scare him one bit once he sees Joni storm in and eviscerate her now ex-boyfriend. Joni knows she made a good choice dumping her ex after she catches him cheating on her, but it doesn't stop her from feeling like she needs to shake things up. Once the tequila flows the night gets so much better. I just loved this book. There really aren't many other words I can give you. It satisfied my desire to laugh, made me smile, and of course got me hot under the collar. The epilogue satisfied my need for a happily ever after. One Daring Night was a wonderfully satisfying read. I let out a big sigh when I finished

and just sat and smiled for a while. It was great.

Slick's review posted on Guilty Pleasures Book Reviews

One Daring Night by Mari Carr is a book that left me with a big smile on my face. I loved the way this couple met, I loved the chance they took at getting to know one another, I loved that they were brutally honest from the start and didn't judge, and I flat out LOVED that they didn't "date" despite spending tons of time together in and out of bed. Refreshingly honest, sinfully sexy, and flat out fun I could not put down this book down.

Two people meet on a day their lives are changed forever; one because he realizes he wants more than the endless string of women he's indulged in and one because she finds her live in boyfriend cheating on her on the night of her 30th birthday. Eric Bryant knows the minute he sees Joni Allen that she's different but in a good way and he know that she has the potential to be the one he's looking for.

A night of truth talking, Tequila, and a heavy dose of lust these two figure out that they enjoy each other's company, have a lot in common, and an undeniable attraction, but Eric is determined to dedicate himself to one woman and Joni is determined to enjoy her single status yet somehow they make it work.

A fun and sexy story with one heck of an epilogue Mari Carr contribution to Carly Phillip's Dare World is fantastic!
