[Siren Classic ManLove: Erotic Alternative Futuristic Sci-Fi Romance, M/M, vampires, bondage, HEA]

General Vedic Merrick is being hunted. Someone wants him dead. Being kidnapped by the crew of the Lady Blue actually saves his life. But once on board the outlawed spaceship, the rigid life Merrick knew before fades into the background, especially when he discovers his mate on board.

Shane Miller is excited to be in outer space. Saved from certain death by his brother and then flown through a wormhole to the future, he has every intention of living his life to the fullest. That includes claiming the sexy general that fights so hard to keep his distance. But Shane is determined to make the general see him as someone special.

General Merrick has his reasons for not claiming his mate, the least of which is the Elite Force, which is still chasing them through space. But the general has a secret that could kill not only him but Shane as well. Only by denying his mate does he have a chance of keeping the man safe.

When circumstances beyond his control rip Merrick's choices away from him, he has to enlist the aid of the Lady Blue crew to keep his mate alive and gamble on the craziest scheme he can think of to save not only Shane, but everyone they care for.

## Ter says

Sad to see this series end.. Really enjoyed this series.  
Hopefully we might see the Lady Blue Crew again..

According to Stormy's website in "work in progress" she has down  
"Elite Force - Book 1(M/M, Scifi, Futuristic, Erotic Romance)" A new series!!  
Maybe this will be a spin off from this series and we will visit the guys from Lady Blue...

### **A good ending**

This was a solid ending to a very fun series. I'm not big on futuristic stories, but somehow I still ended up reading this one.

The title of this eighth book in the Lady Blue Crew is very apt as this book really was Simply Perfect.

Shane Miller is Mo's little brother who, in an unusual set of circumstances, is saved from likely death and brought to the future through a wormhole. Shane is thrilled! He's been a Trekkie his whole life and always dreamed of being on a spaceship flying through the stars. And, lucky for him, there is a very sexy general on board that Shane is really attracted to.

General Vedic Merrick is rescued from potential death by the Elite Forces when the Lady Blue Crew kidnaps him. Now he's onboard and so is his mate. A human man whom Merrick can never claim or risk both his and Shane's deaths if anyone finds out Merrick's secret. Of course, this is the Lady Blue Crew, and vows of celibacy don't seem to last very long here!

The exciting finale of this book resolves the issues with the Elite Forces and the Federation of United Planets. It also leaves the men and their mates in good, happy places. A series that I really liked!

## **LynW says**

This review is for all the books after #1.

What can I say. I was ADDICTED to this series. To me, this last one was the best but in general they were all enjoyable. I even choked up a touch at the end of this one.

### **Simply Perfect [Lady Blue Crew 8]**

As some loved the whole series wish there was more I will be wondering what happens next with the crew  
.....

## **Robin says**

I've been waiting to see how these talented ladies would wrap up this series and I must say that I am thrilled with it. The entire series held me captive and I fell in love with each and every member of the Lady Blue Crew. Simply Perfect is definitely well named as this is a simply perfect way to tie up loose ends and give the last new members of the crew a happily ever after. Don't miss this book - heck, don't miss this entire series!

## **Serena Yates says**

This eighth volume in the series takes a step into the unknown, in the sense that the mating that causes all the emotional upheaval in this one is between two guests aboard the Lady Blue. But that, as intense as it was, isn't all. Several revelations about some of the players in this space-drama later, I am now beginning to understand what is behind the hunt for the crew of the Lady Blue. The authors have been very good at keeping enough secrets each time, not to mention adding new ones, to keep me interested in the series.

Shane has a very tough life aboard the Lady Blue,, even though he is physically safe – most of the time. After having been rescued from Old Earth by his brother Mo, Shane finds himself in a future that is beyond his comprehension, attracted to a general who doesn't seem to want him, and stuck with the knowledge that pizza is no longer a dish anyone is familiar with. That last one is easy to fix for him (since, at least, ovens still exist), but his unwavering attraction to the general gets him into a lot of trouble. Not that he lets that stop him. For once in his life, or so he has decided, he will not let others tell him what he needs. And that includes not only his brother, but the general himself.

Vedic Merrick, the insufferably arrogant general who now suddenly finds himself hunted by the same people who are after the crew of the Lady Blue finds his match in Shane. I had no idea what type of creature he would turn out to be, but let me tell you, it was a surprise well worth waiting for. Didn't see it coming at all, but then, the general has always been a man who plays his cards close to his chest. I loved the way he ended up taking care of Shane – even though I am still somewhat upset that it took him so long!

This book almost feels as if it kicks off a new phase of the adventure, and one that, from the looks of it so far, will be at least as interesting as this series. The bigger picture that emerged will delight the conspiracy addicts amongst you, while the sizzling hot physical attraction between each of the couples that each story focuses on makes things even more interesting. If you like space adventures, crews that discover they may

not be as perfectly supportive as they thought they were, and if you're looking for between the sheets, or rather in-the-bunk, action, you may like this book.
