Welcome back to Pelican Pointe.

The mystery of the past, the present, the future collide ... the answers can be found in the dunes.

Archaeologist River Amandez is drawn to Pelican Pointe to excavate and catalogue a long-buried Chumash settlement. She brings with her a not-so-pretty past and only one man in town can help.

Together the two will lean on each other for strength and courage. And soon discover that the dunes hold answers to more than just the past.

Kate's Corner says

I have to admit that usually after the fifth book in a series I get tired of the same ol' same ol'. But Starlight Dunes is one of my favorites by Ms. McKeehan. 5 starlight Dunes.

Brent Cody has the County Sheriff for a while now on arriving at home and surviving a bombing in his own home he goes back to Pelican Pointe to recuperate. Someone is out to see Brent Cody dead.

Through a storm that happened 3 weeks ago the exact same night as when Brent was injured a Native Indian site has been found enter River Amandez there to lead the site with her expertise after gallivanting throughout the world. She only stays Stateside now and her story isn't sad it's a sob, heart wrenching story. To loose your child for the life of me I cam't imagine (but it all works out) I loved the Native American aspect and that River also had her own gift.

In Pelican Pointe they cross paths and a beautiful story enfolds. Vickie is a spectacular writer. There is love, sex, emotion and mystery all wrapped up in to one beautiful book. The resident ghost of Pelican Pointe (Scott) is funny and brings the wrongs of this world to being just they should and that is right.

I see a new book on the horizon I also see Ryder (a friend of Cord's) working at the farm from Philly and Julie has been offered a job. Julie who constantly tries to get set up by Brent's Mum.

Great books to relax with

I am so happy to have found this series. Just starting #6. The characters are so easy to know and the different themes of each book really capture my attention. I hope you never stop writing this series. I will really miss everyone! Thank you!

Great Read

When archaeologist River Amandez and County Sheriff Brent Cody meet, the electric energy is palpable. Between the search for River's son Luke, who was kidnapped by her ex, and the lunatic who blames Brent for her brother's suicide there's plenty of action in the quiet little seaside town named Pelican Point.

Interesting read

I like these stories that are romantic and have some mystery to them too. These characters are pretty believable. The setting is described beautifully.

An incredibly heart warming story, great characterisation, you couldn't help but feel for each of the characters Got a great feel for the town, people and sense of community (even jumping in at book 5).

Highly recommended... looks like I'll have to go back to start this series from the beginning even though I'm keen to know what's next...

Great writing, no spelling or punctuation mistakes, a definite full set of stars for me!

Possibly a little in love with Pelican Pointe. Thank you

Another great read

This time life or death !matters. Will Brent be able to survive long enough to romance River? Read and find out

Joan says

I was getting tired of the interminable infodumps and 'buzz' words when... bam. A character suffering from Bloody effing Alzheimer's again.

FFS! Stop it! Why? I mean... WHY? Do authors think its romantic? Or enjoyable? Or is it just that its the 'fashionable' disease? Let me tell you - it sure as hell isn't. There is NO CURE. NO magical way to make it any better.

Crap. I'm done here.

Fun light read with great twists

I just finished reading Starlight Dunes by Vickie McKeehan. I have to admit I typically lean toward historical fiction, which tend to be pretty heavy reads. I chose this book as a quick distraction, something to lighten up before returning to my next big selection.

I expected the typical romance formula 'strong independent woman meets man with a past, sparks fly, fall head over heels until a misunderstanding drives them apart, miserable til minor tragedy brings them back together. Happily ever after.' And this story didn't disappoint. But.... toss in snipers, car bombs, kidnapping, and not least of all - the friendly neighborhood ghost - and this quickly turned into a page turner I thoroughly enjoyed.

When choosing this book I had noticed it was #5 in a series called Pelican Pointe Novels and was not sure if it would work as a stand alone read, but decided to give it a shot. I am happy to say it was a complete story on it's own. And I'm surprised to say I'm hooked, will definitely seek out the other 11 books in the 12 book Pelican Pointe series.

Whether you are into contemporary romance type novels or just wanting to take a break with a light fun read, I recommend Starlight Dunes.

I did enjoy this book. Learned about a Native American Tribe I was not familiar with. The Tribe is the Chumash. Fascinating people. First of this series I have read. Characters were very lifelike and easy to like. Would recommend reading Pelican Pointe in order. That would be a great way to be introduced to the people of Pelican Pointe.

Suzanne Lavine says**Well written and enjoyable**

Stephanie Herron says**Very interesting read**

I found this to be a a riveting story. It starts with River coming to town to excavate a native American sure that was discovered after a storm. The residents have mixed feelings and she has to work to assure them she will treat the discoveries with respect. She meets Brent who is on leave from the sheriff's department after an injury. He comes to find out she is hiding that her ex husband stole her son Like and she is still looking for him. So Brent uses his resources to try and find him. Then you have the story of who is trying to kill him. Somehow all these stories work together and make for a great read.
