## **The Bad Boys' Virgin Temptress** Sam Crescent

Cheryl Fisher is a virgin on a mission. She's spent the better part of her life caring for her sick mother. Her mother, on her death bed, made her promise to live life to the fullest and to never take one moment for granted. In order to fulfill her promise, she goes in search of the two men she can trust with her body.

Noah and Drew have had their eye on Cheryl for a while. Both men know they want to share her. When Noah learns the truth about her virginity, he's shocked by the possessive feelings he has towards her.

Together they must show Cheryl that there is more to them than their bad boy reputation. They want her with them forever and they will do everything in their power to fight for her.

The Bad Boy's Virgin Temptress

Cheryl has had a bad few years. Her mom, who has been sick of the last several years, has now has died. On her own, with her mom's words in her head, she wants to start to live and enjoy life. The first thing she wants to do is lose her virginity and she has someone in mind or 2 someones anyway. Noah and Drew, best friends who run the local car repair shop and members of the Bad Boy's club, have been watching and waiting for Cheryl. She would come in and just talk or get her mom's car repaired and they have both wanted her for a long time now. Now, how to convince her that they want to ditch their bad boy reputation for a more permanent place in their hearts and home.

This was an awesome menage book. Cheryl, after being care giver to her mom and not having much a teenager life, now wants to make up for lost time. Her mom had, had a loveless marriage and she knows she will not go the same route her mother had gone. She will have romance, love, lust and everything she dreams about. She doesn't know it yet but she is already in the sights of 2 gorgeous men. Adults only please...a menage!! Good read, love Cheryl. Can't wait to read more.

This book had an interesting theme. The Characters lived in a town MFM was the norm. Steamy.

Ok so now it's official I don't like ménage stories. I have tried some from a variety of different authors and I don't enjoy it. Except for a couple from Alexa Riley. (Her heroes are actually faithful). However, I have to say this book was an ok read in the beginning with her wanting to lose her v card to them.

They are hot manwhores that she has always wanted. After her mothers death she promised she would live it up.

The problem happens when the guys want more because they say they have always wanted her. Well their actions don't show that here as they continued to have ménage relations with other women. That's just cheating here. I don't enjoy that at all.

The heroes want to prove to the heroine that they can both be in a committed relationship with her but then keep going out to the bar and dancing with random chick and they even try picking one up after they have been together. (I know it was to get a raise out of her but mind games are not cool)

Yes these are really awesome committed guys here...not!

I am done with this type of story.

It will take a seriously well written book to change my mind here.

For me with two or more guys you have twice the possibility of diseases and twice as much manwhore behavior.

Conclusion, if you like ménage stories with two guys who are not that faithful to the heroine and try to play mind games then look no further! This is the book for you.

However, personally I will skip the mind f\*cking as it gives me a headache.

Safety: not really read at your own risk! 1.5 stars.

## **Daria says**

Virgin on a mission, there was no dating, no proms, no playing for Cheryl her young life was taking care of her ailing mother. She didn't feel bad about taking care of her, but now she intends on finding out what not being a virgin is all about. Everyone knows everyone in her small town, even sharing women was the norm in Law Castle. Who does Cheryl pick to give her virginity to? No one else but the towns most infamous bad boys Noah and Drew.

Noah and Drew lived as they wanted(mostly being man whores smiles), they honed their reputation and saw it as a badge of honor. That reputation may just be their undoing. They are best friends, and have shared everything including women. They've set their eyes on Cheryl, all three have no each other so its not like they are strangers.

Wonders which to think 1) its the male ego about how "big" he is, or 2) not knowing a woman's body well enough to know she was a virgin. \*Giggles\* Because of that the new non virgin flies the coup the next morning, when both of the men are still asleep. Cheryl knows they don't keep a girl over night, they don't do commitment, they do move on. She has decided to do the moving on herself. Of course since Noah and Drew are such connoisseurs of women's flesh, they wont mind in the least that Cheryl has taken herself out of the equation.

Hi five to the Author, there is nothing negative I could say about this book. The storyline flowed great, each character fit. A menage relationship can be difficult, the way Noah and Drew were already friends went

along way in tamping down jealousy. You can feel the passion, the care, the love that was developing between all three (even if the characters didn't – smiles) A hint of BDSM, that would have been fun to see expanded. Along with some yummie hot scenes, yeah Id recommend this book. Read and enjoy.

3.5-4 Stars!!!

---

### **Amber J. says**

Quick, easy and smoking hot!

---

### **Kaitlyn says**

Exactly what was expected. Wish it was a longer epilogue though! Loved Drew and Noah and Cheryl together.

### **Evgeny says**

Cheryl Fisher took care of her mother dying of cancer. Five years later her mother is dead, but Cheryl in the meantime committed the ultimate sin of the modern society by remaining a virgin. Her mother's last wish was for her daughter to move on, so one year later she decided the best way to do it would be to lose the said virginity. Luckily two guys Noah and Drew with reputation of being town's bad boys were always available and willing.

What follows is more innocent, cheesier, and fuzzier than you might think after reading the paragraph above. It actually looks like a love story between Noah, Cheryl, and Drew. The plot was decent enough, but only if you completely suspend your disbelief. Sufficient to say in a small town of Law Castle quite a few families consisted of three adults and nobody gave a damn.

Can anybody call this realistic and keep a straight face? I do not think so.

So unrealistic plot which gives you warm and cozy feeling nonetheless,

equally unrealistic characters that serve the plot in a decent way and the length of the book (less than 100 pages) result in 2 stars. Not exactly a classic, but if you have nothing else to read you can do worse.

### **Vashti says**

The more I read this author's books, the more I see a pattern and formula to her writing. I think I prefer her "sweeter" style over her more raunchy style heroines. This book had a "sweeter" heroine and the story itself was a nice one. I have to say that I do love her epilogues, I am a sucker for an epilogue as they wrap up the story's HEA nicely.

### **Sheryl says**

Welcome to Smutty McSmut-Smut, the land of Smut, this is Smut i'm talking about :)

Comprehende?

Hmmm... that Noah and Drew sure are yummy...

CAN'T WAIT for the next book in the Law Castle Bad Boys series!!

### **April says**

I really liked this story. I loved the characters and it had a good plotline. The end really slowed things down and kinda dragged. Otherwise steamy and well written. Hope see more of this series! Over all a nice start for Law Castle!! I am always a sucker for a possessive bad boy turned good!
