## **Chased** Kristina Weaver

*This is a standalone, full length novel. Another full length novel, UNSCRIPTED, is included as a bonus.*

Chase Alexander Marshall has come a long way from the nerdy shadow he was in high school and he's gotten to where he is by working hard and focusing on every goal he'd set himself. All but one.

The only thing left to make his life perfect is Remy.

Unfortunately Remy Harrow is not free to pursue - well, not technically anyway - but that will not stop the determined mogul from taking what he considers his.

# From Reader Review Chased for online ebook

## Susan says

Hot & domineering male. Erotic scenes. Too many misunderstandings, frustrated me. Other than that, good story.

---

## Cari says

The story was ok but REALLY needed a proofreader.

---

## Leticia says

Cheap Monte Cristo on sexwas fun.

---

## Saami Celada says

I loved this book! Amazing story and super dramatic and romantic moments that made it one of the best book I ever read. The love and passion between Remy and Chase are just amazingly perfect. I loved the part where you put the puzzles of the events and it was just mind blowing. Highly recommended.

---

## I.Heart.Romance says

I really, really wanted to like this one. It sounded so promising with an OTT obsessed H, but as I read my rating just kept dropping.

Desperately needs to be edited, the plot is a mess and totally unbelievable, the writing isn't very good, the H turns into an unredeemable jerky assface halfway through and the h...ugh, I can't even.

So disappointed.

---

## Jules says

Poor Remy--she surrounded by complete and total assholes. Even her family consists of absolute pieces of shit. Luckily, Chase Marshall, billionaire and super-hottie, is there to love and support her....sorta.

Honestly, I'm not sure how I feel about this book. It had potential, but I felt like it got off track and headed in some weird directions occasionally. It started out well enough (if you ignore the poor editing and the random British slang/spelling), but it just didn't seem to improve. I was all good and fine with Chase being obsessive about Remy because it was in a loving and protective sort of way...but then he just started doing some real

jackass kind of shit...things that made him almost as bad as her horrid family (ALMOST), things I wasn't sure he could come back from. His 'redemption' came in a pretty half-assed sort of way. Actually, it was more like they kinda glossed over it and just kissed and made up. The ending seemed this way too--quick, almost as if the author were anxious to just finish the book. I wanted a little more detail/closure.

So while I didn't love it, I wouldn't say that I hated it either. It was just sort of a 'meh'. I DID, however, like the hot military bodyguards that her and Chase had, and kinda hope they appear in a series of their own. I MIGHT be willing to give Kristina Weaver another chance if I get to see Gabe, Dec and the others get some action ;)

#### **Good**

If I take the time to review a book then i finished it and liked it enough to review it.

---

### **? One Click Romance ? says**

WOW! this book surprised me completely.

*It's 2:46 am (Color me EMOTIONAL)*

There's some parts that are a little so-so but wow! the storyline, plot and characters are deep. I cannot even begin to describe my emotions right now. I was angry, I was sad, I cried, I was happy. I shared in their love, their pain, their fear. Though the Hero kept getting on my nerves with his, sometimes, senseless rage and psychosis, I couldn't help but fall in love with him. He's everything a woman looks for in a man (good or bad) and still made room for more. Now, the heroine, she was amazing, whiny, had a backbone and was stronger. She is what many women hope to be. Specially after surviving what she did. Sometimes you've got to go through hell to find the one that's meant for you, right?

---

### **Julz says**

2.5 stars. While the story was safe. The hero came across like a teen rather than a wealthy competent adult. The language he used was just juvenile. Really put me off.

The second bonus story is NOT SAFE!! Contains cheating!!

---

### **Irene Marshall says**

#### **Okay read**

The storyline in this is interesting with revenge being the main plot and a few twists along the way. All the characters are key players in the plot and add extra depth to the story. The one thing that was really annoying

was the amount of type errors pretty poor proof reading and editing. The bonus book was also a fairly good read all in all worth reading.

---

### **Melissa Carnahan says**

I loved Chase and Remy together. He has loved her from afar for it seems like forever. Remy at times seems a little weak but all in all definitely an author I would read again.

---

### **Linda Walters says**

I liked this book, it had some depth. OK, I'll admit it was a bit raw, with some of the language and the sex scenes but this story is deeper than it looks at first. It actually had a lot of surprises to it and the major surprise near the end, made me gasp. I never saw it coming and in some ways I didn't like it but it was a good one! I really won't say anything more about that because "Come on, why should I ruin it for the next reader?" Chase and Remy each really drew me in and the author made me care about them. Chase and Remy both have gone through some horrific things. Chase is so afraid that he's going to lose Remy after all this and because he did some stupid "man things" almost does. Some readers might not appreciate some of the manipulative things he did and some of his controlling ways. He was also trying to protect her, from others and sometimes from himself. Chase's best friend, Gabe is smart, handsome and tough. He also is a loyal friend, who has Chase's back. Chase also has several other "kick butt" friends that figure into the story. All in all a well written story, that kept my attention.

---

### **Melissa Hinton says**

Chase came across as a teenage boy. Not really impressed with his character.

---

### **Katherine says**

4 Stars-Great (had my attention and enjoyed it),

I truly enjoyed this read. Very endearing and filled with action and suspense (not only in the bedroom). A story of love that is never forgotten even when time passes us by. It can only grow in ways you can never imagine and flourish into something new and unexpected.

Vengeance can be a scary thing and it could backfire but if planned correctly you might see the light at the end of the tunnel. This story isn't about the man kind of vengeance but of righting a wrong. Making sure the bad guy doesn't get a way with it.

If you are into extreme Alpha-Males who never quit and always get what they want, than this is a book for you. Dual POV, romance, surprises and action tied up in a beautiful ALPHA-MALE bow. Full story, no cliffhanger. HEA. Lots of twists, so be prepared to get whiplash. If you feel confused at first or lost as I did, don't give up, it will clear up soon enough.
