## **Five Mornings** Elizabeth Hunter

One morning can change everything. Five mornings can change a life.

Friends. Lovers. Enemies. Allies.

Alex McCann and Teodora ‘Ted’ Vasquez never had a simple relationship. But you couldn’t call it a boring one, either. Five mornings in their past shape who they will become to each other. To their families. And to the mysterious town they call home.

“Five Mornings” is a short story of approximately 36 pages set in the Cambio Springs universe. Also included is an exclusive first look at Alex and Ted’s full-length novel, DESERT BOUND, coming Fall 2014. From Elizabeth Hunter, bestselling author of the Elemental Mysteries and the Irin Chronicles.

### Sarah says

This is a middle novella. Be sure to read book one first. This will help explain a bit for book 2.

Five mornings out of Alex & Ted's life. 5 mornings that give so much insight into their turbulent relationship. Wow! I'm so glad I read this as I now feel more prepared for their full story in Desert Bound. I now have a better idea of what's kept these two meant-to-be mates apart for so many years. Five Mornings may be a short story, but but there's nothing short about the impact it delivers - intense, passionate, & heartbreaking. A Must Read!

Teaser. Frustrating teaser just gets you all wound up wanting the rest of the story.... If I could do it again, I'd wait to read this until their full length book is ready so I could move straight into it.

On the other hand, how incredibly annoying is this relationship? Really. Annoying. She takes him for granted, is profoundly self-centered and doesn't even bother to ask about what he does for a living (and they are living together). And he mooches along feeling badly because he stuck to his guns, rightfully, and didn't give her even more of what she wanted. Plus, he could explain himself to her and clear things up, but no. No, he keeps close mouthed for no good reason at all.

The whole thing just made me want to slap both of them. Condemned to be yearning yet apart due to their own self centered idiocy...until the next book presumably.

So, now that I've thought about it, maybe I don't want to bother to read the next book at all.

Ha! Who am I kidding? It's Elizabeth Hunter. Like I have a choice. Yeah, I'm gonna read it.

The history between Alex and Ted in five distinct, important mornings.

Sweet and heartbreaking at times, it leaves the readers wanting more, and I'm looking forward to reading their book, Desert Bound.

Honestly this is a biased rating for this short read because I've got feels for this series. What can I say Cambio Springs has really grown on me.

As for Teodora Vasquez and Alex McCann? Well who doesn't like wishing and hoping that a pair of mismatched lovers find their happily ever after.

Kind of glad I read this after their book as it is a bit heartbreaking. It shows 5 pivotal mornings in Ted and Alex's relationship and how focused they are on their own individual goals.

### **Kathleen says**

I read this knowing it was a short, short glimpse into Alex and Ted's struggles and knowing that I have Desert Bound (the continuation of this short) in my Kindle waiting for me so I didn't feel the frustration other felt because it is at my fingertips and not months away.

I loved this! In Shifting Dreams (Cambio Springs #1) I loved Ted and knew there was a great story behind her tough image but Alex... I couldn't figure him out... he seemed such a jerk but this story has me wanting to jump into Desert Bound to know what happens now that I know more about him!

Excellent start to a new series! Emotional without being overly dramatic.

I may have liked this more if I had read it before I started on book #2 in the Cambio Springs series.

I can't wait to read their story. My heart breaks for Alex & Tea.

This was ok. I wanted to know Ted and Alex's history and now that I do, I want to shake some sense into them!
