Lauren says

I loved all of the Sabrina tales full of magic. Every story was a different adventure and some new and exciting challenge to overcome. These books made me want to have magical powers too but the ending results were hilarious.

Jerry says

An enjoyable tie-in novel.

Lena Nieke says

good

Bhargavi Bunny v says

Good one! :)

Sella Malin says

I used to love this T.V. show, along with the books.. now I don't care for both much anymore.

I don't exactly remember if this was from an episode or not. It seemed familiar but also not. Harvey is kind of annoying in the novels. It was pretty neat to get some different perspectives and learn more about some of the characters, especially Mr. Pool which no surprise is really into science fiction.

Dana says

A good read. I kept getting frustrated with Sabrina every time the charm lips and sometimes it so got on ma nerves that I felt like slamming the book. But ultimately, yeah, the book completed it mission to get the reader engrossed in it. A simple silly fun read. Sabrina cartoons and comics are still a hit with ma younger siblings. I admit, I too get engrossed sometimes with Sabrina and this book surely is laudable.

I think this book was very influential in my childhood, after reading it I couldn't walk under a ladder.
