Mr. Darkness

Hilary Storm

Mr. Darkness Hilary Storm

My name is Camille Richards. I'm a simple woman and I love my quiet life and work hard to keep it that way. I write romance stories, the kind where the man crashes into her life and completes her world while they fall madly in love with each other.

Damon Deverick is the epitome of complicated. What this man does to me is unlike anything I've ever dealt with and I think that's my problem. I don't know how to respond to him. He's powerful even when he stands completely still, not saying a word... but when he touches me it's as if everything before that very moment was minuscule in comparison.

Who knew I'd be this intrigued after a single day with him? It's supposed to be easy... but there's just one problem, to him this is work and I'm not sure I can separate business from pleasure because it seems to be one in the same when it involves him.

Lindap says

3 Stars

After a break up with her boyfriend Camille finds she's content with staying home and leaving the outside world behind. She's not interested in venturing out. Cami enjoys staying home, watching Netflix and writing smutty stories.

Damon is a strong, confident, in control kind of guy. Looks great in a suit and has a smoooooth mannerism. He intrigues Cami when she sees him at a lingerie store. (A store her sister takes her to because the sister is getting sexy outfits for her honeymoon.) He propositions her to be part of a film he wants to do, but doesn't give her details. Basically wants to "show" her to see if she can handle it.

This is where the recluse is to be turned into a submissive. What I like about the story is Camil doesn't just fall into the submissive role. She's independent and strong willed and has a few choice words to say about what's expected of her....even walks away a couple of times. I didn't like that Damon doesn't tell her the true reason he sought her out...only in the end does she know. Although the person who puts her up to this does play into her determination to see it through. The BDSM was pretty basic....nothing wild and crazy.

The other reason I didn't rate the book higher is because the ending was so abrupt. What about Brock (the ex-boyfriend) and his reaction to it all. What about dinner with the couple that offered it at the end of the contest? What about her sister's reaction to all this? I don't know....I just feel the author could have taken a little more time to wrap things up better.

Please tell me where I can get my own Mr. Darkness lol. Hilary gave us a story like she never has before. I went into Mr. Darkness blind and did not know what to expect, and honestly what I did read was so unexpected. I was waiting for my Kindle to catch on fire with how hot this story is. The chemistry between Cami and Damon is off the charts hot. Kudos to you Hilary for another great story.

DNF 36% - boring

Krystle Able says

Oh Mr. Darkness. I loved Cami's nickname for Damon. The cover model for this book, Jonny James, is the perfect physical embodiment of this man who has Elijah, from the CW show The Originals demeanor and refinement. I was torn between giving this book 3 or 4 stars because there were a few parts of the storyline that I didn't really enjoy as much.

Spoiler Alert *

1 was the competition aspect of the story that Cami was not made aware of until the end. Damon makes her sign an NDA and deposits a ridiculous amount of money into her account but doesn't fully disclose the intentions of the reality show that ends up being more about a game then television at the end. The fact that these men were also competing over these women for money also rubbed me the wrong way. Although Damon did give Cami 1 million dollars, he was going to make 6 million off of her if they won.

****end Spoilers****

Damon does redeem himself by the end however, and I loved seeing Cami, who is a strong, independent female, and a little bit of a prude, explore and discover her sexuality. Even though she was a romance writer, she had her own limitations to what she would do in the real world and I think this is important for people to read because so many people think that romance writers live what is in their books and that is hardly ever actually the case for most.

Overall, I thought Cami's character development was great and the sexy scenes were sooooo sexy, although they weren't much different than what I have read in other BDSM and fetish books. The writing was so good though it had me a little worked up myself, not gonna lie. I do hope that we get to see more of these characters. I would love to know more about what happened between Cami and her ex, Brock, and also see more of Damon and Cami's relationship.

This book was a solid three star read for me in terms of content, but I bumped it up to 4 stars because as an erotic romance novel, this book will definitely do it for you!

Natrina Felan says

I started this book expecting it to be kind of cheesy but couldn't put it down. I thoroughly enjoyed the turn of events. This was my first Hilary Storm book and I'll def be reading more!

Debbie says

Camille is a romance writer who prefers to stay at home and get lost in her writing. She meets Damon and finds herself suddenly thrown into a world she never saw herself being a part of.

Cami's character is fun for the first part of the book, but becomes a little judgmental after visiting the cave. I'd expect a romance author would be a lot more open minded, especially regarding sex. Damon had the bossy, sexy and mysterious thing going on. There's a twist regarding a competition that felt a little out of place and rushed at the end.

A sexy short read.

Sandy says

This book started off so good but throughout, made me cringe at times and even a little angry, and almost didn't finish. Felt too much coercion, manipulation and dishonesty. Shame, i did love Cami and Damon (for the most part) but some of the book just made me wonder WTF?!?!

Erin McCoy says

I'm really on the fence whether to give this 3 or 4 stars. The writing was well done and I liked Cami's character. I loved the intensity of Damon and the chemistry between the two of them. These are the only reasons I'd consider giving it 4 stars.

possible spoilage below

Unfortunately, the story itself left me very disappointed and even disgusted. First half of the book was great and the basis of all those positives, but at 55% it suddenly just became another dom/sub story. There were several elements of the storyline that I seriously disliked: the fact that this competition was done without knowledge by the women involved (at least Cami wasn't told it was a contest); the doms were going to receive money (potentially over 6 million) for all this and the subs would get nothing; people with ulterior and negative motives can put forth the women's names for this contest. The whole concept that these women were to be found and persuaded to partake in something they weren't even fully told about is distasteful.

I loved the fact that Cami pulled out of the dom/sub scenario and even more that Damon walked away from it to stay with her. I was again disappointed when, after finding out about the contest, she went ahead with it and ended up on her knees participating in the "f*ed up mind games" that she had earlier refused to be a part of.

Charity says

I am so on the fence on how to rate this story. I almost didn't finish it. There were plot holes that distracted

me in the beginning, then towards the middle when everything was starting to happen I felt mildly disgusted. I was waiting for something to happen that would make this story more.....just more. I didn't feel any connection, there was no relationship between the characters so it came off soooo...almost clinical in nature, and that is not a turn on for me.

I absolutely did not like how Damon and Cami's story got started. The ending tied some things up and helped me give this a 3 star rating, but it still isn't something I think I would recommend. I think my biggest complaint is that I didn't feel like she enjoyed anything, I feel like she was emotionally forced. This is not a lifestyle for her, but all of the sudden "she could do it to get back at someone" which is not a reason to subject yourself to abuse.

Cathy says

Wow...this was such a great book.

This author really draws you into the story and has you attach yourself to a character from the very beginning. Therefore you must finish it as soon as possible to make sure everything turns out okay in the end.

Cami is an author and in a lot of ways a hermit...yet, her sister never gives up on her and gets her out of the house. When they are out she meets a man who she calls Mr. Darkness, and let me tell you I love that name and like that she called him that at times even after she finds out his real name.

This book has some BDSM in it, but I don't feel it is overdone at all, so that was a huge plus.

Cami never changes her personality while I loved, she just got more comfortable with herself. She needed Mr. Darkness to kindof bring her out of her shell and really out into the "light". But she was never afraid to try something but would say no when she was uncomfortable and she didn't just continue just because it would make HIM happy. I really love a character who can stay true to herself and knows when something isn't working instead of forcing it.

The slight twists were things I never saw coming and only added to the awesomeness of this book!

Jenn's Book Obsession says

Hilary Storm knows how to deliver one hell of a sexy story. This was full of hot damn moments and the chemistry between Damon and Cami was scorching hot!! I love the characters. Mr. Darkness was sexy, dominant and had that allure of mystery to him that draws you in. Cami was strong and independent but still has that level of insecurity which I think most woman can relate to. I loved her determination.

I couldn't wait to read this book. First off, the cover itself is sexy AF! Second, this author was throwing out those teasers that had me chompin at the bits waiting for it to release. This book was full of the unexpected. So many things I did not see coming that had me sitting at the edge of my seat. I read this in one sitting because I just couldn't put it down. This author did a great job delivering a story with great sex scenes,

passion and mystery that instantly has you pulled in from beginning to end. If you BDSM elements, a feisty "submissive", a sexy dominate with a dirty mouth and add some surprise twist and turns then this is definitely one you will not want to miss.

Melinda Parker says

Lights Out!

Although this was a fairly quick read, Storm was able to give us an incredible back story to work with.

Camille is hiding from herself and her past. Her ex has literally caused her to close herself off from everyone and everything. Until Mr. Darkness ignites a spark.

Damon inflicts himself into Camille's life at first through a mysterious email and then when he literally consumes her time and headspace. He offers her financial freedom beyond compare. But for what?

As the couple begin their journey and working relationship together, Camille understands she can't be a part of his world. (No spoiler info.) It's dark, overpowering, and not possible. But she's drawn to Damon.

She takes a chance and fails. But her Mr. Darkness follows her. Is he invested as well?

Pain and pleasure, hurt and revenge are players in this game. But trust is the victor.

Solid characters, insight into different lifestyles, and a bit of steam and fantasy. Highly recommend this read!

OKbook Hoarder says

One HOTT Book!!

Mr. Darkness is my new book boyfriend. Definitely #1 sexy romance of 2017 for my list. Top 5 over all of 2017. Hilary Storm is a phenomenal writer. She never disappoints me in her books. This one you will need a cold shower after reading.

Sue says

This was just what I needed to read when I wanted a sexy as hell steamy book that would take me away from everything and just be a fun distraction. Damon was MEGA-hot and the kind of man who just takes the control over everything...while Camille got way more than she bargained for when Mr. Darkness came into her life.

Can we please talk about that cover for a minute?? OMG Jonny James nailed the character with that smolder...and I was smitten before I even read the first page. Loved it!

***** 4.5 ***** "you can walk me on a leash any day" stars
