Diane says

A young Apache girl is taken from her Arizona village by the man who helped slaughter most of her people. As she grow older, she learns the truth about her adopted father and yearns to know more about her own people. Then she meets the Chief who also survived that day many years ago. Amidst their adventures, they fall in love and marry and start a family of their own in Canada.

Nikki Jones says

I usually really enjoy her books, but this one I didn't even want to finish. It seemed like the story line was rushed and the two main characters were in love right off the bat, which is silly. Just seemed like it was a first time book.

Julia says
