Season of the Witch Addison Moore

1692 Salem, Massachusetts

Heathcliff O'Hare has always had a heart for Ezrina MacHatter. When hundreds of young girls from the Celestra faction are snatched up by the magistrate as witches, Ezrina realizes that the Nephilim are in grave danger. Someone, or some other faction, is bent on destroying her people. As obnoxious as Ezrina finds Heathcliff, his help is needed to infiltrate the wicked Counts to uncover their sinister plans. But when Ezrina starts having feelings for him, she realizes that giving her heart to Heathcliff could put her family in peril in ways that she could never imagine. Ezrina is determined to put her people, her faction, and her heart first. This is the season of her retribution.

I am a huge fan of all things Addison Moore. She has yet to ever write a book that I haven't fallen in love with. When I think I have found my favorite book by her she goes and releases another one that's even better. I loved how she went back to share the story behind Heathcliff and Ezrina. She shows that in each place of time there is one very evil and self absorbed person that is behind all the bad in Celestra it was Chloe who we all loved to hate. In Ezrina time it was her cousin Clara who you want to peel the skin from and burn her alive. She was such a mean and despicable person who couldn't let anyone take or have anything she couldn't have. Heathcliff and Ezrina truly was a love story that was wronged throughout history by many. And their only crime was true love. Bravo Mrs. Moore on another hot book that certainly was a grand slam out of the ballpark. I highly recommend starting the Celestra series and going through each and every spin off along with reading her new adult books she will never disappoint you. I received a copy in exchange for a honest and unbiased opinion.

Season of the Witch

Season of the Witch is a compelling story - or perhaps it is the setting of Salem that appeals to me. It is the scene of horrifying American history, a history worthy of fantasy. I would have awarded five stars but poor word choices really bothered me, indications of limited reading and perhaps faulty hearing, as well. Lady of the manner is one example. It, if course, should be lady of the manor. There were several instances. Get a proof reader.

Having read all of Addison's Celestra series, I loved learning the back story of Ezrina. The more I discovered of her trials & tribulations, her small victories, the person she was before Celestra, the fonder I grew. Ezrina & Heathcliff give a tug at your emotions. Season of the Witch is a love story that rivals the likes of Shakespeare, with a touch of paranormal thrown in of course.

*You do not have to read Celestra to read this book but those of you have read it, understand my reference to the series. Ezrina is a bit of a secondary character in the Celestra books, for those who are unfamiliar with them.

SO WORTH THE WAIT!!! LOVED IT!!!!

I am so excited the author decided to write this novel. I'm a huge Celestra fan and I just loved reading Ezrina's story. You do not have to have read the Celestra series to enjoy this book, BUT, for those of you that

have, you are really in for a treat!

It was really great to learn more about Ezrina and why she is the way she is now. How she and Heathcliff got where they are today.

Even though Season of the Witch takes place in 1692, it is NOT A HISTORICAL ROMANCE...maybe in a way, but it's sooo much more than that! This book puts a new spin on what we've dubbed the "Witch Trial" days.

Ezrina MacHatter is a young woman who is strong, fierce and loyal. Her family means the world to her. She is protective of those she loves, but is reluctant to show her true feelings for the one she loves most, Heathcliff O'Hare. Her cousin, Clara, on the other hand, is obsessed with Mr. O'Hare and is threatening to tear Ezrina's world apart. She will stop at nothing to get what she wants, even if she has to take out the whole town, and she will make sure Ezrina does not stand in her way! Clara has her eyes set on Heathcliff, but Ezrina has already stolen his heart. And even though she doesn't want to admit it, Heathcliff has always had hers. But with Clara looming over them, their love seems destined for failure from the beginning.

Will Ezrina and Heathcliff survive this battle? Will true love prosper? Or are they destined to spend their lives loving from afar? Find out in Season of the Witch!

This book roped me in with the first paragraph and it held me till the very last word. I absolutely loved every second of it!

Addison Moore has done it again! She never disappoints!

I have and will always love the Celestra Series. The characters speak to you, and I am always affected with what is happening to them. Ezrina is no different. I have always wondered what her story was. Now, I know. What she and Heathcliff have is the right love at the wrong time. Though it is prophesized (is that a word?) that they will be together in the future, it is heartbreaking that they cannot have the HEA until after a number of centuries.

Ms. Moore has a way of bringing you in the story with her writing. All of the books I have read of her give me the same reaction. I am always affected! She definitely has a way with words.

If you have read the Celestra Series, this is a must read! If not, you can start with this if you prefer since it makes everything clear how everything started.

I was gifted an ARC for an honest review.

Loved the backstory

I've always wondered about Ezrina, and this is a superbly written tale of how she and her true love ended up

where they did in the other books. Really well-told story!

I was in love with this story from the first chapter.. If you have never read any of the Celestra Series or Countenance Trilogy, don't worry, you will still be amazed. Be prepared to be taken back in time to when Love was pure yet forbidden between two lovers.

Set in the 1600's where times are very different, and where Witches are feared, and vampires are real. You have the Celestra and the Counts trying to live together peacefully yet at the same time the Counts are trying to eliminate them secretly by accusing them of witchcraft. One girl in particular, Clara, feels the most threatened and will try her best to rid them all for the one man she feels is hers and hers alone. Heathcliff O'Hare.

Meet Ezrina MacHatter, Celestra and is trying to find out what is happening to all of the pure blood Celestra people. Where are they and what have the Counts done to them? She is stubborn as the day is long and secretly

pines away for the handsome Heathcliff. Ezrina, Clara and Heathcliff have all grown up together and when Clara tell Rina that Heathcliff will be hers, no matter what, Rina must hold her emotions in check. She must not let Clara know how she feels. And yet how does Heathcliff feel? Whom does he pine away for?

When Ezrina's family is taken, her mother and sister accused of witchcraft, her father and brother taken to the tunnels, where no one ever returns. Ezrina will go against everyone and thru anyone who tries to get in her way to rescue her family.

Will Ezrina find her family? Will Heathcliff tell Ezrina that he has always loved her? Or will the powers that be forever change their lives forever??

This is one AMAZING BOOK that will have you feeling like you were right there, feeling everything in the story, the pain, the heartache, the uneasiness and the Love..

If I could give this a 10 star I would.. Addison Moore is one truly amazing author and this book is no exception.

A Must Read for anyone who believes in True Love and how nothing can stop it, not thru time or space.

Be still my heart!! I have been waiting for this story since I read the Celestra Series and could feel the story between Ezrina and Heathcliff. Addison Moore definitely did not disappoint. She has an amazing gift of storytelling and making you feel like you're right there in the story and you feel what the characters feel. This story is an incredible addition to the Celestra Series and I can't wait to see what else Addison will release in the future.

Great story of love and loss. With betrayal coming from those around her and jealousy leading the war against her she finds love. What that may cost her may be brutal. A great story well written read as part of the Angels boxset. I love this first taste of this author. I do love the characters and the story and this author's way of writing a strong story with strong female characters, it's refreshing although a little more for the over 18 crowd.

Addison Moore's *Celestra* series was probably my biggest book binge of all time. I stayed up and read the first six books in a 23 hour period, because I simply could not put them down... So, two days ago, I'm minding my business, scrolling through my Facebook newsfeed, when I see that Addison Moore has a new book out entitled *Season of the Witch*. I was intrigued, as anything witchy surely counts as one of my "October reads", but I didn't realize at first that this had anything to do with *Celestra* until I went to purchase it on Amazon... *Ohhhhh happy day!!!*

Season of the Witch is a *Celestra* companion novel. While I think it would still be an enjoyable book as a standalone, I **highly recommend** (okay, I demand) that you read the rest of the series before reading this one. While the events of *Season of the Witch* come before the series chronologically, this book will mean so much more if you've already been introduced to Ezrina and Heathcliff.

I've always found Ezrina and Heathcliff's story to be tragic. While Ezrina is not exactly always portrayed as a good character in the *Celestra* series, she has certainly always been an intriguing one. *Season of the Witch* actually takes place during the Salem Witch Trials of 1692. In this tale, instead of innocent humans being tried, convicted, and executed due to unfounded accusations of witchcraft, it is the Celestra faction. Even 300+ years ago, the Countenance faction was meeting in secret, aiming to take down the most powerful of the Nephilim. I loved the little trip down memory lane I experienced while reading this... The Tenebrous Woods... My favorite hunky sector, Marshall (I love him more than ever due to the kindness he shows in this book)... Celestra, Counts, Levatio, Deorsum, Noster... creepy Fems...

So much love for this series!

Witch trials - and just plain abduction of anyone with a hint of *Celestra* connections ... People are dying tragically because of one misguided individual. Ezrina won't let it continue.

I have a soft spot for Addison Moore and have always enjoyed reading her work. This was a fun piece but around the end, it went super slow and I wanted to stop all together.
