T.A. Grey

Take Me T.A. Grey

A new paranormal erotic romance series. Available now at online retailers: Amazon, Barnes & Noble, Smashwords, All Romance eBooks.

SHE MAKES HIS BLOOD BURN

Dominic Blackmoore meets the woman who captures his mind and body with a look and he's instantly taken with her. When he was ordered to take another mate quickly after separating from his ex, he loathed the idea. However, after catching sight of his bruid he quickly changes his mind. He finds her utterly captivating, sensually erotic, and yearns to learn everything about her.

BUT SHE'S NOT HIS BRUID

The woman he's mistaken as his bruid is none other than the event planner, Felicity Shaw, for his mating ceremony. Now Dominic will do everything it takes, even lie to the woman he craves, to keep her at his side. He needs to mate with his bruid in order to win his political campaign but he finds himself falling in love with Felicity Shaw. In the end he must choose between work or love. He may make the right decision, but is it too late to save his lies from hurting Felicity?

HE TAKES HER BREATH AWAY

Felicity Shaw wants more in life. She'll even lie to get it, which is exactly how she lands a job with the illustrious Blackmoore family. However, it's the head of the vampire household, Dominic Blackmoore, that has her heart racing and breath catching. The man consumes her unlike anyone ever has before. She can't resist him though she tries. As she's forced to work with Dominic she tries to keep away from him but he doesn't make things easy.

She may want him with a passion she's never experienced before, but she will not be with him when he's mating to another woman. It's either her or no one. But one terrible lie seals their fates together in ways neither of them imagined, threatening their love and the very fabric of their relationship.

*****J*** says**

I loved this book!!!

Dominic is a possessive vampire who refuses to take no for an answer when it comes to Felicity. Most of the time I didn't know what I was feeling about Dominic. From one chapter to the next it was, I hate him, he's a cheater, I love him, what the hell is he doing, liar liar pants on fire, aww he's sweet, back to asshole, yum Mr Sex me up. Dominic kept me so riled up I'm rambling just trying to find the words to describe his character. Now Felicity, she's a sweet, talented, and ambitious event planner in need of a job even if it means doing a bit of resume lying to get it.

The story starts with Dominic mistaking Felicity as his future bruid. When he realizes she is the event planner it's too late. In his mind she is already his. Now he just has to convince Felicity of this, deal with his real bruid, win a political race against the crazed alpha Zeke, and all will be fine....or will it?

I am eagerly awaiting the next addition to this series.

FYI....Maybe I'm a little crazy, but I'm a bit taken with the insane Alpha Zeke. Poor Zeke, can't find his mate to help quench his sexual needs. I bet when he finds her, that will be some more sex a-thon. Hopefully Ms Gray will write him in the series.

Carmen says

"Yes we can and yes we are. I'm not waiting any longer." His voice held no room for argument. He'd finally decided. This was really going to happen. Could she stop it even if she really wanted to?

BOOK #12 in Carmen-Downloads-20-Free-Ebooks-Onto-Her-Kindle-Day. More widely known as March 3rd, 2015.

Poor 75-year-old vampire Felicity Shaw is an event planner who is hired to plan rich, 600-year-old vampire billionaire Dominic Blackmoore's wedding. The only trouble is that he ends up more enamored with the mouthy Felicity than his own blueblood bride-to-be.

...

Sigh. This is just not my type of book at all. Let's break it down.

1.) I am not attracted to rich, suit-wearing assholes. I know this kind of hero is very popular right now, especially after Fifty Shades, but it turns me off. Always a rich, sneering guy comes and sweeps a poor, struggling woman off her feet.

I don't trust rich people. My reactions towards a very rich man in tailored Armani is not lust and awe, but instead wariness and caution. Add on top of this the smirking, sneering, commanding, domineering side these heroes always have and what you end up with is an asshole.

Everything about him screamed money as surely as if he wore a red neon sign with flashing dollar signs on it. To me, this is someone to avoid, not someone I see as sexy.

Instead of thinking Dominic was a strong, capable man - I saw him as an entitled, spoiled little boy who couldn't stand not getting everything he wants RIGHT NOW. To me, this is not sexy.

His nostrils flared; a bead of sweat rolled down his spine. "When I want something, I get it. I always win."

He sounds like a spoiled child.

He expects her to be at his beck and call, he comes to her house without permission, into her bedroom while she's sleeping - uninvited, etc. etc. He hangs up on her on the phone, even when she's in the middle of a sentence - I mean, what the fuck is wrong with this guy?

2.) The sex. This isn't really what I'm into. Orgasm denial, punishing a woman sexually, etc. etc. I know this BDSM-lite or BDSM-flavored is so very popular right now but a lot of the fun of reading erotica is reading about sex that you - the reader - enjoy. So this was a loser for me. The sex portrayed here was overall not appealing to me.

Also, the two main characters are vampires and I think biting someone and sucking their blood is a disgusting - not erotic - activity. At one point, Felicity licks a wound Dominic has on his stomach. Blergh, OMG. So icky. This whole idea is really a turn-off and they do erotic blood-sucking in every single sex scene.

I'm not into men who are possessive, controlling, and punishing. He's abusive.

The 'dirty talk' is terrible. o.O

3.) I'm pretty sure Grey named Dominic that just so Felicity could call him "Dom" all the time.

4.) The whole crux of the novel is that Dominic is engaged to a woman and wants Felicity to agree to be his mistress. This man has no honor. He's totally fine with being married and having a woman on the side, and he seems baffled by Felicity's reluctance to agree to this arrangement. He can't seem to wrap his head around the fact that Felicity wants him to be exclusive with her. Of course his fiancée is in the dark about this whole thing. What an immoral, dishonorable sleazebag. Not attractive.

At 18%, we see Dominic saying to himself

He knew then he'd do anything for her. He'd kill and fight. He'd lay down his life for her. He'd take his people to war for her.

ANYTHING for her.

Clearly, "anything" does not include breaking off his engagement with a woman he has absolutely no feelings for and is only marrying for political reasons. What a scumbag. Seriously, he was pissing me off.

He lies to her (really big lie) in order to trick her into having sex with him... He's scum. Even though lying to her is apparently de rigueur, he gets really angry and violent when he thinks she's lying or keeping something from him. More abusive behavior.

5.) He never listens to Felicity, takes her wants or needs seriously, he ignores her questions and requests, he orders her around, commands her to do stuff. If she doesn't listen to him or obey him, he simply picks her up and puts her where he wants her - in the car, to his house, etc., effectively kidnapping her. She is basically given all the respect one would give a four-year-old child. Less respect. More abusive behavior.

Every time she tries to protest something, or tell him to stop what he's doing, he just kisses her to shut her up and never takes her 'no's or protests seriously. Abuse, abuse.

He never answers her questions (I guess she doesn't have a right to know anything, and he thinks she should blindly trust him at all times or something).

His own anger surged. She would not ignore him. Something was wrong and he'd be damned if she'd disobeyed him.

This kind of stuff is rampant throughout.

"Because you're coming to stay with me."

She laughed, took a step back. "I don't think so."

Dom turned the handle of the front door. "You don't have a choice."

That basically sums up the whole novel: she has no choice.

"One day I'll stop asking so nicely."

She laughed at that. "And you'll what? Attack me?"

He leaned in close, his eyes blazing with anger. "No, I won't back off every time I touch you. I've been doing you a kindness. I could have had you many times before and we both know it."

Rape threats are beyond disgusting, not sexy. I'd say call the cops on him, but of course - they're vampires and outside the law.

That's it. He'd had enough. He was through with her attitude. Her "attitude" being refusing to have sex with him while he's engaged to another woman. An intense panic had swelled inside him and was about to burst. She'd leave him and he'd never truly know her. Pure male, animal instincts took over.

Stalking after her, Dom halted in front of her, grabbed her hair in a fist and crushed her body against his.

"You're not leaving me. And if you leave today it's because I let you go. Now I'm going to finally do what I've wanted to do since I first saw you, sweets." Her eyes flashed and inside he danced a small victory. "That's right, baby. I'm going to finally make you mine in the only way a man can really know a woman. Are you ready for that?"

I just can't with this.

...

IS THERE ANYTHING POSITIVE TO SAY ABOUT THIS BOOK?

1.) Yes. I like the friendship between Felicity and her best friend Beth.

2.) I always like hearing about vampire mythos, I wish I could have heard more about this and less about Dom's throbbing member. o.O It's ironic that I'm asking for more world-building and less sex from Grey, when I'm always imploring Sherrilyn Kenyon to stop going on and on about her mythos and write more sex. But that's because I actually like Kenyon's sex scenes.

3.) Secondary story/couple. The secondary story involving Felicity's best friend Beth Hamilton - Iraq war veteran with a bum leg - and Lucas Blackmoore (Dominic's brother), rock star with a possible drug problem - was 10x more interesting to me than the main Felicity/Dominic romance. I enjoyed what little of this we caught in our peripheral vision.

...

Tl;dr - I'm sure lots of people out there will sigh in happiness over this book, but this kind of hero and this kind of sex just isn't for me - it turns me off. If upon reading this review you think this book is wonderful, then great! Go for it. But it's a no-go for me. I'd rather have a hero who wants the heroine's opinion, earns her trust, listens to her when she's talking, understands the word 'no,' and respects her. I'm just crazy like that. ;)

No matter what happened, he'd find her and when he brought her back, whether kicking and screaming or calm and docile, she was going to be punished.

1 REAL STAR, 1 ROMANCE STAR

I got this for free on my Kindle by just browsing through Amazon, they were having a special. This was entry #12 in Carmen-Downloads-20-Free-Ebooks-Onto-Her-Kindle-Day. More widely known as March 3rd, 2015.

Bex 'n' Books says

'Take Me', by T.A Grey, left me torn. There were moments that I completely loved this story and the characters, while at other times, I growled very audibly and became seriously frustrated by the characters reactions and developments.

Did it win me over in the end? Hell yes!

The characters, Dominic and Felicity, are an intriguing creation of T.A. grey's, as is the world the author creates. The storyline's concept is creative and enjoyable. I liked it a lot, especially considering the author successfully followed through in creating a fantasy paranormal world that offered an element of realism. This is always a winner for me. I like feeling as though a story could happen. Could become reality. It helps to successfully draw in my imagination and keeps my attention.

Dominic is a growling, sexy aristocratic vampire. He's also the epitome of a domineering vampire. This made the sex scenes so unbelievably hot. And I do mean, seriously, in need of a cold shower hot, but at the other time, the confident, take-no-nonsense woman in me, became seriously pee'd off at this. The same relates to Felicity's reaction of his dominance. As I said early, it left me feeling torn.

Felicity presented an interesting character too. She had moments of being super feisty. the sort of vamp that

any woman could aspire to be like, then on the flip side, she'd react in ways that were a little too 'dumb' and thoughtless, and maybe even a little weak. She's something of an enigma.

The plot develops at good pace, with lots of action, of all kinds, plus there are many moments where the author produces interesting descriptive chapters to develop and draw out characters and the plot. The ending is exactly what I hoped for. I was particularly fond of how the author allowed Felicity to step up to the challenge before her.

This is a series that I could happily get hooked on.

Alpha Possessive Heroes says

“I want your bite,” he growled

I'm very picky with paranormal books. It's not really my cup of tea. So when I read this kind of genre, it's either a missed or a hit and **TAKE ME** is definitely a big HIT!

Dominic is one powerful sexy hot vampire! I think if I google the word ALPHA, Dominic will be in the list! He was frustrating at first. All these political shit and responsibility drove me crazy! And don't get me started the way he treated Felicity.. *ugh*.. the hot and cold treatment was fascinating but frustrating at the same time. *lol*. But despite all these, it was hard to stay too angry with him. He's very possessive.. the way he growled and when he command something it's uber sexy! Seriously.. I creamed myself.

“Come back here,” he growled.

She shook her head.

His eyes narrowed.

Felicity is a likeable heroine. She started off as a very strong character but throughout the story, she became a little weak specially when it comes to Dominic. But hey, I'm not judging here. If I were in her shoes, I'll probably do the same thing. :)

“I’m a Blackmoore, Felicity. I get what I want.”

The chemistry and sexual tension was right on my face I couldn't help but get so frustrated but at the same time feel tingly! lol. Does that make any sense? The sex scenes are fuckin' hot it's scorching! You know when you read a sexy scenes and you kinda curl and clench your toes while reading it? Yeah, it was that bloody hot! He can bite me all day everyday! *lol*

In this book, we met Dom's brothers..

Lucas- the hot sexy singer.. rawr~ can't wait for him and Beth.

Grayson- the protector.. omg.. I feel sorry for this guy!

Vas.. the scarred one.. I have a feeling who he will get paired up with.. *hehe!*

Oh.. and let's not forget Zeke.. the alpha crazy werewolf.

eeeeek! I cannot wait to read their own story!

Omo.. I loved this book! Love the story, love Dom, love Felicity, love the other characters, love the sexual tension, love the sex, love the twist and turn- and Oh! LOVE THE SEX!

This is going to be an epic series!!

Highly recommend this to anyone who loves paranormal with a bunch of hot possessive men!

Cocktails and Books says

T.A. Grey is fast becoming one of my favorite authors! Her books are meticulously detailed and her characters are well-developed. I wondered if this book would wow me like her previous books I've read, and I was not disappointed!

I love the ill-fated story between Dominic and Felicity. When they first meet, their instant connection is explosive, until Dominic, Dom for short, realizes he has mistaken her for his betrothed. As the two work to try and ignore what's between them, the flames are constantly fanned by Dom's insistence that Felicity is his. However, he needs a blue-blooded mate to help him secure his electoral hopes and Felicity's blood just isn't enough.

Felicity struggles through most of the book for loving a man who belongs to someone else. She is thoroughly disgusted when Dom proposes the brilliant idea of becoming his mistress. As she struggles to remember that Dom is off limits, she constantly weakens at his touch. Is there a way for Dom and Felicity to be together on their terms?

I really enjoyed this book. So many obstacles kept getting in the way of Dom and Felicity's love and I had to force myself not to skip to the end to find out if they really were able to have their HEA. Did it happen? You'll have to read for yourself to find out! I enjoyed reading about the secondary characters, especially all of Dom's brothers. Each brother introduced had his own demons and I am hoping they will be featured in future books so we can find out more. A great start to a promising series!

Reviewed by Elizabeth for Cocktails and Books

Samantha says

Dominic Blackmoore remember that name because believe me after reading this book you won't forget it.

I'm a big fan of T.A.Grey i have read everything she has written so when i knew this book was coming out i couldn't wait to read it.

And it has Vampires and Weres my two favourite things well add a third thing to that as it also has loads of sex scenes.

And Oh my giddy heart is this book Hot the sex scenes are raw and sexy and i loved every minute of it, i can feel a cold shower coming on. ;)

We have one very sexy Alpha Vampire (Dominic) who is a Blue blood and after losing his father he is trying to be elected for a seat on the council to keep the seats even and not let the Weres take over.

Then we have Felicity who scrapes by just making it by trying to pay her bills,she has to ask her friend for blood because she is so poor.

So when a job interview for a event planner lands her in lap she will do anything to land that job.

When Dominic and Felicity first meet Wow something just clicks and the sexual tension between them is hot and this carries on through the book.But yeah you guessed it always a but, Dominic is to be mated to another women (Julianna) whom he has no feelings for he just needs her to get his seat.

As their feeling grow and Dominic being your typical Alpha he wont leave Felicity alone so Felicity tells him he has to choose.

While all this is going on we do meet some of Dominic's brothers. Lucas is a singer and it turns out Felicity best friend Beth has a big crush on him.I wont say to much about that as i have a feeling their story will be told in another book.

We also meet Vas and i have my own sneaky little feeling about him and someone else.There is also Grayson my heart hurts for Grayson he puts up with alot from his Bruid and I'm keeping my Fingers crossed for him.

We also meet Helena who is Dominic's ex bruid and she is a cold hearted bitch who likes nothing more then to stir it up and get to Felicity but oh my she gets her comeuppance at the end.And i was shouting at those scenes and cheering Felicity on.

And then theres Zeke the Alpha Were i did find him sexy in a weird kind of way.He is running for the same seat as Dominic and will do anything to get it,including attempted murder and kidnapping.

Zeke does come around a little bit at the end but i also have bad feeling about that but once again I'm hoping to find answers to that in the next book.

Will Dominic mate with Julianna? Will Felicity and Dominic mate? Will Dominic be mine? lol oh i wish.This is such a great read and i can't wait to find out more about the other brothers especially one brother

who has found a spot in my heart. I highly recommend this book.

Oriana says

Asshat hero & doormat heroine. I'm really speechless ! Most of times I just wanted to kill them.

Amy Pro says

OH TAKE ME!!!!

T.A. has outdone herself with this book, the first installment of The Untouchables. I'm becoming a bigger and bigger fan with every book of hers I read and am honored to be a part of her Alpha Squad. Dominic Blackmoore is one hot, sexy vamp with a walking you know what for Felicity! Felicity is a hard ass with a burning desire for Dom! Their chemistry is to die for! What they go through in this book, their fight against each other and for each other, against all odds and ultimatums to come through it all at the end with the greatest love of all left me with goosebumps and ready for the next installment! <3 T.A. and her books!!!

Sadie Forsythe says

OK, so I'm not claiming this isn't a quality book but there was very little in it that appealed to me. I simply didn't like it. More often than not, the characters reacted to stimuli in ways that made me cringe and/or ignored the things I thought would be important in those same circumstances. My frustration level remained high for almost all of it.

To start with, Dom was a straight up dick. He kept spouting off about how he loved Felicity and would do anything for her, when he very clearly wouldn't...didn't. Even the change of circumstances that finally allowed them to be together wasn't at his impetus and it's pretty obvious that he would never have done it if things were left to him. Then when that change did occur it wasn't at all clear that it wasn't just another political machination. (What it was however was predictable.)

Further, he spoke disparagingly of his father's tendency to keep mistresses while **SIMULTANEOUSLY** trying make the same arrangement with Felicity. He gave not one thought to the fact that if he got his way he would be selfishly consigning his mate to an eternity married to a man who refused her even the barest emotional (let alone physical) connection. Asshat! Asshat. Asshat. Asshat. And if I can't bring myself to like, let alone sympathise with the hero there isn't much chance of me liking the book.

Felicity wasn't much better. I found her to be a weak-willed pushover with poor decision making skills. But even worse, she said repeatedly that she wouldn't be with Dom until he was no longer with Julianna. Note, not I won't be with you **BECAUSE** you're with Julianna, but until you're not, which substantively isn't much of a moral improvement over just being the mistress. It's still destroying someone else's relationship. The only real difference would be to **HER** pride and if in the long run, she has to play first or second fiddle. Bitch! Bitch. Bitch. Bitch. And if I can't bring myself to like, let alone sympathise with the heroine there isn't much chance of me liking the book.

I'm afraid my dislike began on page one, when it started with a dubiously consensual sex scene between two unknown characters (and I mean paragraph one, page one starting). I almost didn't make it past that first chapter before tossing this on the DNF pile. I just didn't care about the characters yet. Heck, I didn't know the characters, circumstance, history, etc. So how exactly was I supposed to care? This was also problematic because since it was stated in this anchorless sex scene that it was their first time having sex together, in all of the subsequent almost sex scenes I knew it wouldn't come to fruition. Totally ruined the sense of suspense.

I also had trouble with the writing. Again, I'm not saying it was bad, just didn't appeal to me. I found the onomatopoeias (thump, boom, thwack) annoying, even more so since they were sometimes italicised and sometime capitalised. Either way I found they broke the flow of the narrative.

There were a lot of editing mistakes—typo-type/grammar mistakes, but also the more annoying content errors. For example, Felicity was said at one point to be 75 years old, at another she was said to be 118. She's said to be short at one point and then tall for a woman at another, etc.

I also found it repetitive, in terms of using the same phrases again and again (I thought I might gag if I read "the look" one more time), using the same word more than once in a short amount of time (often in the same sentence) and telling the reader the same information numerous times.

Lastly, and I'm not sure how to make this make any more sense here than it did in the book, I had a lot of trouble with the use of the word 'were' as an abbreviation for werewolf. The problem was that when stranded in a sentence it was read as were (like were you there). Which means I often read it as the past subjunctive of the word be, then finished the sentence only to then have to go back and read it again once I realised it was supposed to be werewolf. Even after that I was stricken to hear it pronounced in my head as were instead of where, as if said by some strongly accented person. IMO, it would have worked better if the author had used the full term, werewolf, or if an abbreviation was necessary, wolf, thereby avoiding the confusion of terms.

I know people like this book. I've seen all the good reviews. I'll even admit that the world it presented was an interesting one and I did appreciate that the author broke away from the norm by letting her hero fail on occasion. Unfortunately, I found myself procrastinating about picking up my kindle, while normally I'm picking up my kindle to procrastinate about other things. Almost nothing about the story or the characters made me happy. It's mostly all personal preferences, but I'm happy to be finished with it.

Monty Cupcake ? Queen of Bloodshed ? says

I thought this series was going to be similar to The Bellum Sisters series by this author, but it wasn't. There was no death and destruction and lots of action with crazy demon beasts. This book is mainly about Dom and Felicity fighting their crazy attraction to each other. Well, she fights it because he's engaged, it's a political match and he doesn't like his fiancée, but Felicity still refuses him. She's not into being the mistress or other woman. That's basically the whole book - Felicity going about planning his wedding to Julianna while resisting this advances and Dom trying to figure out how to win the election for council president and keep Felicity. It's mainly all romantic drama and sexy times. I prefer there to be more adventure type action.

Guilty Pleasures Book Reviews says

Asher's review posted on Guilty Pleasures Book Reviews

5 Stars

What's a vamp to do when she falls on tough times and can barely "feed" herself. Well....Try landing "The" decorating job of the century by fibbing on her resume for starters!

But having the most irresistible and dominating male on the planet mistake one for their future bruid? Yeah that wasn't in the plans, nor was falling head over fang for him either.

Thus begins Felicity Shaw's whirl wind, roller coaster ride when she meets the indomitable Dominic Blackmoore. Not only is she chosen to plan the mating ceremony of the century, but she has to battle her fierce attraction to him as well. She is after all not that kind of vamp.

On top of battling her own attraction she must also battle Dom and his "If I want it, I will get it" attitude, and what he wants is Ms. Felicity Shaw. Add to this a crazy Alpha were, and a run for the presidency of the were's and vamps....Wow can we say recipe for disaster! LOL!

From page one this book sizzled with the heat that the two of them put off! Everything kept you on your toes, with the clashing of wills, the rivalry between Dom and the Alpha were, and the scorching love scenes. Although I have to admit I wanted to throttle a certain male vampire because of his uncaring attitude at first, then the rascal grew on me. By the end of the story I was so in love with him I wanted to switch places with Felicity.

Over all I can't wait to read more in this series and see what happens with the other brother's, and perhaps Beth as well.(At least I hope we get to read her story.) HINT HINT...to Ms. Grey.

Adrian says

I don't even know where to begin.

Let me start by saying i liked the main, basic plot of this story.

Near the end of this book though, I decided to come and read some reviews because surely I wasn't the only one having problems with this book. Imagine my surprise when I saw that it has four stars! I just don't understand....

There was nothing likable about Dominic Blackmoore If I were Felicity, my butt would have had a restraining order against him. There were so many times I thought he was going to rape her. His line about "I always get what I want" made me want to scream. It really aggravated me that he didn't seem to care about what she wanted.

"The look" was another thing that made me roll my eyes.

Character development was lacking in places. The main character I noticed this with was Felicity's friend,

Beth.

We were told numerous times that the Alpha Zeke was insane but yet we never heard a story or saw anything that supports the insanity.

There were also several things that happened that made me say "huh?! That makes no sense! No sense at all!!" Decisions that were made, things that were said, things that were done...

World building details seemed to be thrown into odd places in order to make scenes work. Near the end of the book, something happens and an ability concerning blood is mentioned. I wanted to throw the book at that point and I asked my Nook, out loud, why we are just now hearing of this ability. So so aggravating.

Well I read the next book? Eh, probably not.

✿kawehi.reviews says

FREE TODAY AT AMAZON HERE!!

"I'm a Blackmoore, Felicity. I get what I want."

I freaking loved this book!! I was a big fan of the Katagan Alphas [especially books 4 & 6] so I'm not surprised that yet again T.A. Grey has sucked me into the world of another great read.

I have one request though: for the next book in the series to be on Lucas Blackmoore and Felicity's human friend Beth? I was so unbelievably curious as to the deal with them and why Lucas f*&*ed it up or so it seemed anyway with those two groupie girls.

I'm looking forward to the next book in this series but it looks like the next work according to Ms. Grey is the MacKellen Alpha series as stated at the end of "Take Me". Can't wait to read that series too now!

ZARIA (Sheldon Cooper lover) says

I hated the hero, what an asshole..

Patricia says

oh t.a. grey how do i love thee???? let me count the ways...1 roman, 2 jeron, 3 cade, 4 telal, 5 lyonis and now 6. dom!

i absolutely loved this book, and can't wait for more of the series to come!

a great read, couldn't put it down once i started reading it,lol.

great story, great characters, and i'm sure you have some more wonderful pairings to come from this series.

in a word you are simply brilliant! keep writing my friend, and i promise to keep reading and re-reading.

i find it amazing that you write characters who are (for lack of a better word) d-bags,lol, but yet you write them so well, that we can begin to actually care about them, because i admit, when i started the book, dom was not high on my list, but once again (much like alric) you won me over with him ;)
