The Change

T.W. Piperbrook

The Change T.W. Piperbrook
Survival is just the beginning...

Having escaped the hospital, Tom must face a new enemy: himself. New questions arise as he travels through the white wasteland. Will he survive the remainder of The Great Storm?

More importantly, does he want to?

Darla says

Loved this book, like the rest in the series I could not put it down, even when I knew I had to get up for work in the morning!!! I had to keep reading to see how our survivors were going to make it from one moment to the next with crazy blood thirsty werewolves lurking about wrecking havoc!

Kim says

Piperbrook can write

I've read all of TW Piperbrook now as well as his work with Bobby Adair and thoroughly enjoyed all of them, although they do cause me to have the occasional strange dreams! While werewolves are not my favorite character, this series was really a fun read and I flew through them. His writing is engaging and he draws you into the characters. He is also great at communicating with his customers!

Matthew Shileikis says

An awesome end to a great series. I highly recommend this to anyone who likes cold winter nights and werewolves. I hope he writes more books in this series.

Denise Montour says

The Outage Series!!!!

The Outage Series was Awesome, I wasn't ready for it to be over already! I loved everything about this book, and trust me when I say that just because I'm done reading this series doesn't mean that I won't be reading it again in the future!!!

Angel says

The best series ever.

I absolutely loved loved this series. It will be in my top 3 for sure. Looking forward to reading something else from this superb author. If u looking for horror this is it x10.

PJ Lea says

A brilliant final book in the Outage series, as Tom heads toward his final battle. The tension was immense, page by page my heart was pounding with the fear of what was going to occur. Mr Piperbrook is outstanding at keeping you guessing.

Without giving anything away; I thought the ending was a huge surprise and it was very fitting. Great series and I'm only sad that it has come to an end.

Eileen Black randall says

Outrage Serious

I thoroughly enjoyed the storyline and the series. Don't go by those negative reviews. Read the whole series for yourself.

Lorre says

Very nice ending to this amazing werewolf novella series!

The storyline over the 5 novellas is 3 nights of intense horror and suspense and I wish there was more!

Marie says

The fifth installment of this series takes you on the ride of your life with the unexpected twists and turns to finish out the series. Kept me wanting to keep on reading it and I finished it within two days.

Five stars all across the board on this five series!

David Dalton says

I enjoyed this last story in the Outage series. All five stories take place within a couple of days. The author sets up a perfectly isolated town and unleashes the horror upon the population. I wrote before that I felt this series reminded me in a good way of an early Stephen King novel. Only time will tell if T.W. raises up to King's level, but he is off to a great start.

I will have to branch off and check out some of his other stories. As a fan I came across a short story follow-up to this series. Have not read it yet, but suspect it could lead on to something else.

Right now the author has a triple pack combo of the first 3 books and then the last two stories by themselves. I suspect soon that all 5 will be collected into one thriller.

Laura Thomas says

The massacre at the hospital is over. Tom's survived another night. But with only one more night to feed, the wolves are more dangerous than ever. And Tom isn't feeling like himself anymore.

With each book I read in this series, I was left wondering what could be worse than this. And with each new book, the author showed me. So I came into this last book with open eyes, knowing it was going to be crazy. And Piperbrook gave me so much crazy. So much suspense. So many bloody werewolf scenes. And a protagonist I'd grown too fond of. That's not wise as the character's usually don't survive. And that ramped up the suspense for me.

The ending is violent. It's almost over and the wolves won't go gently into the night. And the epilogue is a hoot. Or should I say a howl.

If you like the sound of this one, be sure to start at the beginning of the series. Each books picks up right where the last leaves off.

Lahoma Robinson says

Thrilling

A little graphic but a must read. Keeps you on edge to see how the characters will or if they will survive. Some new challenge around every corner. Kind of leaves you hanging; thinking how did that happen. So you are left hoping for another book.

Nadine says

Excellent excellent books!!!! This is a true nail biter....when you like a character you never knew if they were going to survive or not. The last book was fantastic...loved how it ended but wish there were more books to read. You definitely need to read in order or you'll be totally lost. A MUST read if you want to sit on the edge of your seat!!!! Happy Reading :)

Dawn Taylor says

Awesomeness

Great story but I'm hoping the loose ends get tied up by a final to this series. I really hope it don't end here.

mary jenkins says

This kept me reading until I finished...could not put it down.
