Sometimes the one you never got over is just a friend request away ...

There were no cell phones or internet or google when she left me and I never knew why she walked away from our relationship. I loved her, like head-over-heels crazy loved her. And when she walked out on me at the end of our freshman year, without even a goodbye, she broke my heart.

So, I got a surprise gift the other night at my birthday party, an old college friend casually mentioned he saw her on Facebook. Best present I've received in over twenty years. Now, I'm finally going to get my answer. She owes me an explanation as to why she left ... Damn, I loved her.

---

I was having such a crappy morning at work and then his email arrived. It was a friend request and to say I was shocked would be an understatement. A lifetime has passed since we were last in contact. But just seeing his name on my computer screen, made me react in a way I thought I was no longer capable of, you see, I have never gotten over loving him, even though he betrayed me.

And so begins the saga of Schooner Moore and Mia Silver, lovers separated after their first year of college and not reunited again for over twenty years. But two decades was not long enough for their flame to be extinguished and reuniting could cost them everything.

### **Taryn Garcia says**

This series will forever hold my hearts number one book spot. I can't even begin to explain all of the reason why. It takes your heart on a roller coaster ride and you never ever want to get off! Just read it and you'll understand why as soon as you start. Love. Love. Love! Did I mention that already???

---

### **Erica S. says**

#### **Love will find its way...**

I absolutely love this series. I laughed, cried and feel in love. This is the first book/series I've read from Julie Richman and it will not be my last!

---

### **Lisa Hershaw says**

Each book showed how true love never dies.

Schooner & Mia where miserable apart and a brilliantly hot team together. The story teaches you sometimes you never get over your first love, no matter how hard you try. However, Sometimes you get back what you thought you might have lost forever.

This box set has a bit of everything and Moore!

---

### **Dawn Nicole Costiera says**

I just finished The Moore Series by Julie Richman. 5+++ stars. Totally brilliant & epic love story! I just spent the past 9 days... Falling madly in love with each and every character in these books. Julie Richman just doesn't write, she transports your mind, heart and soul into her world within her books. I felt every emotion possible while reading. I was overwhelmed with my love for this journey..... Thank you Julie for giving us, Schooner, Mia and the gang..

---

### **L. Sommers says**

I had "Searching for Moore" in my online library for a couple of months and for some reason never got around to reading it. Boy did I kick myself once I finally started it. I immediately fell in love with Mia and Schooner. I finished book one in like two nights. I immediately purchased the box set that night just so I could read more that instant.

I laughed and cried so many times through this series. I absolutely love the banter between Mia and Schooner. The characters are well developed and I felt drawn into their lives.

I hate to give away plots and story lines, so trust me when I say this book was absolutely wonderful. It was well-written and every page was begging to be turned. I couldn't get enough. Well done, Ms. Julie Richman!

### **Dawn Rafferty fleuret says**

loved loved loved

---

### **Nicky says**

OMG - This was one of the best stories I have ever read. I totally fell in love with the characters and the storyline was incredible. It is one of those series that captivates you from the first page and keeps you enthralled until the very end. Unfortunately when a series is that phenomenal, you don't want it to end. Way to go Julie! I can't wait to read more from you.

---

### **Renee says**

#### **SHOWTIME!!**

I love it when a great friend recommends a new author to me. When that new author knocks my socks off with an incredible trilogy of love lost and found again?! I am going to tell every friend I have that they MUST read the books. I am in that zone now and if they only read one series the entire year it has got to be this one. The emotion that fills these 250,000+ words will wrap around your heart and stay with you long after you read the last words. Thank you Julie Richman for giving us Pretty Boy and Baby Girl. They will be inside my soul forever more. You are amazing and IT'S SMOOCHAL.

---

### **Jeannette says**

This is the best book series that I've read! If you want to read about a love that lasts decades, this is your book. If you want a book about a broken heart, this is your book. If you want a book on second chances, this is your book. If you want a book about mature people still making stupid mistakes & still wanting to make things work, this is your book! Julie Richman has encompassed that & "Moore" in this series. There are so many characters that you will fall in love with & never want to leave. In fact, there are 2 spin offs for this series that you will want to read after. Beautiful characters, beautifully written. Thank you for this love story that I can not stop thinking of, EVER!

---

### **Nikki says**

I have read these books 4 times and I know I will read them again! This is the best series out there! I cannot say enough great things about it. I loved that the main characters were in their 40's. Yes, we go back to their college days, but the main part of their love story happens when they are older. That was very refreshing. I also loved that he (Schooner) was never hesitant when he finally found her (Mia) again. You could tell he was all-in. It is so beautifully written. I promise, you will fall in love with their love, you will hope, you will laugh, you will be heartbroken, you will get pissed, and you will cry (I mean ugly cry). You cannot read these books and not be effected by them.

---

### **Sarahann Tiner says**

#### **Emotional rollercoaster!!!!**

I laughed, I cried, I got angry and sad. This was by far one of the best series I have read. Schooner and Mia's story is romantic, heart wrenching, and they way a love story should be written. I was sad to see it end but am looking forward to spin of books possibly :) Zac and Hollys stories especially!!!

---

### **Jacqueline Adams says**

LOVED IT

---

### **Cheri Morningstar says**

#### **In the unforgettable category.**

Some books and series will be remembered forever. This series belongs there.

Excellent writing, original story line and full rich characters. I loved Schooner Moore and Mis Silver. I was in the story with them and all their friends and family.

My heart was filled with love and my eyes with tears. This series touched my heart on so many levels and I felt happy in my life while reading. Some stories just don't give those good feelings.

Another book will be out soon that picks up with one of the most intriguing characters from this story. I so can't wait.

I'm now on the hunt for any more books by Julie.

Thank you for the top reads ever, and I read hundreds of books.

### **Tpagirl says**

Needing More series was the three part series by Julie Richman. It was written as three books. However, I bought the set and read it as one; therefore, I've reviewed it as one.

### **Book One: Searching for Moore**

Part One: Schooner Moore's version of his freshman year at college when he fell in love with Mia Silver and then she just left without a trace. I knew I would hate it - not because it wasn't well written - but because it was all about heart ache. I hurt when he hurt and at the end, even though I didn't know the rest of the story, I knew CJ had destroyed his happiness. I hated her from the moment he laid eyes on her and it only got worse as the story developed. Part one started off in the present, then took us back to fill in the details. It ended with Schooner sending a Facebook invite to Mia.

Part Two: Mia's version but it stayed in the present. She accepted Schooner's friend request and the long journey of discovery after two decades began. They were together but CJ didn't make it easy and they had some challenges to overcome. Book one ended with a semi-tragedy and left the readers wondering if they could actually make it work.

### **Book Two: Moore to Lose**

More to Lose had three parts with Part One as the most significant. It was Mia's version. It started in the present, then moved to the past. This time, however, it started with the semester after she left Schooner. Richman began catching us up on the years in between. To say it was an emotional ride was an understatement.

Parts two and three were short versions and appeared to be more of a bridge to Book three, Moore Than Forever. Richman left us with a cliff hanger and wondering how Mia and Schooner could possibly make life work in the long term.

### **Book Three: Moore Than Forever**

More Than Forever started where the last book left off and remained in the present until the conclusion. It was a really long story but I enjoyed it and felt it was the perfect conclusion to the series. Rather than end the series with them getting together and showing a quick HEA; Richman took us through several years in detail, which included adjustments, healing, growth, expansion and fulfilling their realized purpose. Although there were challenges, it was a sweet story, my emotions were still overworked, but it was a pleasant experience taking the journey to the end in unexpected ways.

### **Overall Summary**

I thoroughly enjoyed this series. It was well written, well developed, had very few editing errors, and had a fabulous supporting cast of characters. Zac's story in Bad Son Rising is next for me and I can't wait!

---

### **Mom to 2 cuties says**

#### **5 deserving stars**

I absolutely loved this series. It has the perfect mix of heat, passion, love, and heartbreak. It is beautifully written.

---
