Trance State

John Case

Trance State John Case

A promising young research fellow for a venerable think tank in Zurich has just filed his last report, as he is forced into a ghastly experiment. A seductive young woman travels to Florida and from her hotel room coolly sharpshoots a dying old man in a wheelchair. A psychologist who helps patients confront and dispel past trauma through hypnosis battles his own silent but emergent demons.

In *Trance State* John Case combines these elements into a pulse-pounding, mind-twisting new thriller. Just what is the connection between the research fellow, the young assassin and the psychologist? After the young woman kills herself, why should her sister trust anyone who might have been involved with her? When unknown assassins burst into the psychologist's office, who is their target - him or the young woman's sister? Where is the deadly trail into the CIA's mind-control experiments leading them? Could this be another trap? Or could they be about to unearth a great and secret conspiracy at the heart of the Intelligence communities around the world and the deadly, dangerous people they employ?

Trance State Details

Iain says

Very, very slow going. Not a bad story, but the weakest Case novel I've read.

Sandra Vilka says

7/10. Interesantu pav?rsien? un saistošu t?lu piedz?vojums mekl?jot ?st?s person?bas un laužoties caur maldinošiem ?aunajiem.

Darlene Ferland says

Anything the writers "John Case" writes is fabulous!

Gareth says

Another enjoyable romp which unfortunately ended with something of an anti-climax.

Miriam Smith says

An unpredictable page turner would highly recommend.

Shamshaad says

This is my first John Case novel, and I am now a fan.

When reaching the last line of a book makes you question everything you have ever been told about the way the world works and you start believing the conspiracy theorists, then you know it was a good read.

The pages never stop turning as we are introduced to Nikki, an assassin who kills herself; Adrienne Cope, Nikki's sister who sets out to investigate the cause of her sister's suicide that she believes may actually be murder and Dr Jeffery Duran, a clinical psychologist who does not actually exist and the man partially responsible for Nikki's suicide/murder.

As the plot is revealed, you become more wary as to how believable your surroundings really are. It deals with some of USA's 'letter Agencies' and their mind control experiments dating back to the end of WWII right up to current assassination attempts. Although the book is just over a decade old, it still has the ability

to keep you hooked to the very last page.

John Case, I look forward to meeting more of your characters.

Ipsita Roy mukherjee says

An awesome book that boggles your mind

Clyde says

Quite a good thriller, involving a sinister switching of personalities.

Kevin says

A very enjoyable, unpredictable thriller with a couple of likeable protagonists.
