## Twelve Celtic Bookmarks NOT A BOOK (Illustrator)

The elegant bookmarks in this collection reflect the distinctive aesthetics of Celtic design, especially the rich coloration and sinuous intertwining of geometric figures and organic forms. The designs, rendered here by noted illustrator Co Spinhoven, are reminiscent of medieval manuscript illumination and will add a touch of Celtic enchantment to any reading experience.

These are great to add to an Amazon.com order if you need just a couple of bucks added to your order to achieve "Super Saver Shipping Status". Wish they were a little longer, though. Measure 2" x 5 3/4".

Having gathered together and (sadly) sold hundreds of bookmarks over the years - and now am gathering a new collection - I just couldn't resist a book that contained nothing but bookmarks!

Co Spinhoven has produced 12 bookmarks with elaborate fretwork, interlacings and biomorphic forms, the designs of which are drawn from illuminated manuscripts, jewellery, stonework and other examples of Celtic art.

The result is a book of beautiful designs that would certainly grace any place within the book that one is reading. But who wants to 'simply fold along the perforations, [and] gently tear out the bookmarks'? I certainly don't and will retain the book as it is to enjoy every now and again - and it can sit as a book among my new bookmark collection.
