## **Wild Irish Ride** Jennifer Saints

A couple's sensual journey from the strictures of their lives to explore the passion they left behind and discover a love they never thought they would have.

Twelve years ago wrong side of the tracks bad boy, Jesse Weldon, was framed for a crime he didn't commit by the blue-blooded Jordan family. Now he's back in Savannah with his highly successful security company to put the Weldon name on the right side of the tracks. Unfortunately, before he can even make a move in that direction, he runs into Alexandria Jordan and ends up making the same mistake he did before. He succumbs to her allure, but this time, he plans on getting her out of his system for good and walking away.

Except for a few wild moments with Jesse at seventeen, Lexi Jordan has followed the life expected of her. But a Wedding Day betrayal from her blue-blooded fiancé has her running from her life and right into the arms of the man she'd never forgotten, Jesse. Yet as she forges a new future for herself amid the scandal of her aborted wedding, Lexi finds herself the target of a twisted killer and both her and Jesse's days are now numbered.

Excerpt:

"Still a virgin on the run after all these years, Lexi?" he drawled. His voice, as steamy and seductive as Southern summer day, challenged her on an elemental level, a sensual one.

"Almost," Lexi said, letting the last illicit picture she had of Roger fall from her grasp to the ground. She'd only ever been with Roger and he didn't count. Not anymore. She sucked in air, latching onto Jesse's appeal. The reporters encircled them. Jesse lifted his hot gaze to her eyes and smiled.

"Almost?" Slow and sexual, his grin spread awareness over her. "Sounds frustrating. Interested in changing that?" He ran his finger under her chin and she caught her breath.

Yes, some part deep inside her shouted. Yes, she wanted to change that. Here was one situation her grandmother couldn't smooth over with a lie. With the cameras rolling, Roger and her grandmother would get a clear picture that Lexi meant it when she said she wasn't marrying Roger ever.

"Yes," Lexi said to Jesse, stepping closer to him. Waves of his sex appeal washed over her. Waves she had no trouble remembering, though she'd only been seventeen when she'd last dipped into them. His nearness and touch sparked something inside of her that wanted to rebel against everything that had just happened to her. "Kiss me," she demanded, loudly.

Jesse arched his brow and asked softly, "What's your game Lexi?" His slid an arm around her and pulled her flush to his chest, her breasts to his hard muscle. Then his mouth covered hers. She gasped at the desire shooting through her as his tongue entered her mouth, and his gaze dared her to respond.

She wound her arms around his neck, pressed closer to him, and met his tongue with hers. His eyes widened with surprise, telling her that he'd expected her to put him off rather than to take him up on his challenge. After that first moment, he didn't hesitate in delivering a four-alarm kiss. He bent her back over

his arm, inserted his leg between hers and had one hand cupping her butt. In one kiss he ravished her from the inside out and she burned for more. By delivering a message to her grandmother, what message had she delivered to herself?

He ended the kiss, but kept her captive in his embrace as he stared into her eyes. The cameras continued to flash and the world swirled crazily.

## From Reader Review Wild Irish Ride for online ebook

**Rose Boniello says**

**Oh wow- Jesse and Lexi!**

Great story - hot for each other at 17 then reunited years later. Jesse is Lexi's hero after her almost disastrous wedding day. They are both so hot for each other and it was a great journey to HEA,

---

**Celestine says**

In a flip-flop to a lot of romantic suspense tales, this book started out fast and furious between the sheets. Don't let all the S-E-X deter you from a decent suspense story that builds later in the book. Lots of clues lead to the culprit, but the story is exciting from beginning to end.

---

**Karla says**

**Free today on Amazon (07/12/13)...Great beach or couch read! If you're not hot enough, this will make you SIZZLE!**

**5 Sexy Stars!!** I really, really enjoyed this book!! It's not long, but I felt like I got so much out of it!

The romance heats up quickly, actually more like warped speed, but it worked. Alexi and Jesse have history, it was brief and many years ago, but the chemistry they had is still there. **EXPLOSIVE!!** They meet again when Alexi is running from her "almost" wedding. He swoops into rescue her and proceeds to console her like only he can, on the hood of his car!! Jesse, Jesse, Jesse what an insatiable dirty boy! He makes me tingle! Ting-a-ling-a-ling! Aside from the sex, was a fairly in-depth story. A mix of suspense, emotion, the healing of old wounds, and a believable relationship that develops between Alexi and Jesse outside of the bedroom, bathroom, hot tub, dining room table, in front of mirrors...oh you get the picture...it's been **BURNED** into my brain! These two couldn't keep their hands off each other!! I had just one issue where the villain's escape plan seemed highly unlikely, a little over the top, but it didn't detract from the story or my rating.

It was a fun, hot, emotional, sweet, sensual story that I won't soon forget. Bring on Jackson, brother #2!!

---

**D.G. says**

**\*\*2.5 stars\*\***

I love second chance plots - specially if they involve a poor boy, rich girl scenario - so I really didn't pay much attention to the description. If I would have known this involved a killer plot, I wouldn't have even taken the time to download this freebie.

This wasn't terrible but it was all over the place. Their past relationship wasn't developed and the wrong side of the tracks aspect of the hero story was stupid because he had a really nice family that loved him! It wasn't as if he was the outcast of the town or anything. The suspense plot was ridiculous with lots of stupid misunderstandings. And the heroine is the clingy type that starts demanding love after two days in the hero's bed. The love scenes were the best part of the story but I can say they were very imaginative.

Definitely not reading any more books in this series.

---

## **Carol S. Roeder says**

### **Great read**

I really enjoyed this book. It had lots of wonderfully hot sex. Lots of adventure, suspense and fun. The fantasy this author created was amazing. I could so visualize what she wrote happening. I would recommend this book to any mature reader that wants to take a walk on the wild side of romance.

---

## **MBR says**

Wild Irish is book one in the Weldon series which came to my attention when author Jennifer St. Giles tweeted about the availability of this book up on Smashwords for free. Always someone who loves a story that involves a proverbial bad boy with whom the heroine has a shared past with, I didn't hesitate to grab myself a copy and let myself be swept away on a journey that continually suprised me with just how different this novel turned out to be from Collateral Damage, the one novel that I have read to-date by the author.

Wild Irish written under the pseudonymn Jennifer Saints who also writes under the names of J.L. Saint and Jennifer St. Giles kick-starts this romance with 29 year old Alexandria Jordan, heiress to the Jordan's shipping empire in Savannah getting ready to say her I-do's with a man that she feels no burning passion for. With doubt clouding her mind on her last night as a bachelorette, Alexi is bombarded with the memories of a 19 year old Jesse Weldon who had rocked her world and broken her 17 year old heart in the span of one month.

When her fiances indiscretions come to light right before the wedding, Alexi knows that she won't be able to go through with a union strongly supported by her grandmother and father and runs, straight into the arms of the one man whom she has never forgotten in the span of the twelve years that has separated them.

19 year old Jesse with the proverbial bad boy chip on his shoulder had hesitated to take what was so freely offered to him when his and Alexi's lives had collided twelve years back. After spendng eight years in the army, mostly in the Special Forces and now owner of his own security company, Jesse is no longer naive enough to let his heart get involved, but wild horses wouldn't be able to drag him away from claiming the woman whose sinful mouth has haunted his dreams more times than he would like to recall.

Alexi is shocked to the bone when she lets Jesse sweep her away with the heady desire that has always burned strong between them, that makes her forget every proper thought in her head until she says yes to all the decadent ways in which Jesse can make her feel as the most desirable woman on Earth. Jesse who doesn't believe in love and soul mates nevertheless has a hard time defining how he feels about Alexi as just plain old lust raging inferno through his body as his possessive streak a mile wide comes out to play when Alexi's life becomes threatened by a mad man willing to through any lengths to make her his.

Filled with highly sensual content that just about took my breath away as Jesse tries his damndest to keep Alexi from leaving by binding her to him with the explosive passion they seem to share, Wild Irish is a book that I enjoyed immensely. Alexi has her work cut out for her with the stubborn Weldon genes that prevents Jesse from believing that the word permanent could be applied to their relationship. But at every turn, Jesse continually surprises her with just how right they are together, if only he would believe it for himself.

Jesse is the type of bad boy hero each woman dreams about, the type of hero that we wish would come up and drive us off into the sunset on his mean looking Harley with the wind whipping more than our hair into a frenzy. The man Jesse grows into is no less lethal, he is in fact more so with his ever abundant need to possess and keep Alexi at his mercy with every trick he has learnt in the art of seduction until now. But what makes the scenes of passion memorable is the fact that the tables turn so quickly on Jesse as Alexi assumes the role of the one in control who drives their mutual desire to a feverish pitch which makes each and every scene of passion between Alexi and Jesse unforgettable!

This is the only romance that I have heard of which came out as a graphic e-book with photos of the delicious Jesse himself with the beautiful Alexi to make things enticing. Because I couldn't help myself, I downloaded two chapters up on [betweenyoursheets.com](http://betweenyoursheets.com) that are available for free and I am beyond tempted to purchase the entire novel for the 10+ dollars its priced for, because seeing Jesse in all his glory is so very tempting!

Jennifer Saints has definitely surprised me - all in a good way with her ability to draw out mind numbing scenes of passion that in no way hinders the character development and the suspense potion of the novel that unfolds. I am now very much tempted to get a copy of the next book in the series that features the widowed and grieving older brother of Jesse who finds his happily ever after with Alexi's best friend. And believe me, the pictures available on the freely available chapters just about made me hyperventilate and I bet the heat factor in their story would drive me insane before I'm through!

Highly recommended for those who love stories of bad boys and rich heiresses and for those who love highly sensual romantic suspense novels.

### **Anne OK says**

Runaway bride runs straight into the arms of her long ago past. A reunion between the rich good girl and the poor bad boy. The bad boy is in the lead with the luck of the Irish and two good "saves" on the scoreboard. Toss in a little suspense and a whole lotta sex and you're mixed up in a wild sizzling contemporary romance that is sure to please.

---

## Splage says

4 Stars maybe more. I don't usually rate short stories very highly because basically there too short to have any meat or connection. I thought Wild Irish was wonderful and sexy, it had depth both in the story and characters and a family of hot Irish boys which leads to a promising series.

This is my first read from this author and I will be back for more. It did have a story line that I have seen before, West Side Story- esque. Bad boy saves good rich girl when they are young, have a brief affair and they fall madly for each other, but he knows he is no good for her so he doesn't take advantage of her innocence. He is framed and her family makes him go away, both the H&h thinks the other deserted them and there are many other assumptions and misunderstandings that come through out the story. In the beginning of the book they are reunited in **The Graduate** type of way, her running from the church from her groom and wedding directly into bad boy Jesse. The story starts smoking at that point, I mean with Jesse's 12 year absence let's just say he picked up quite a few tricks to teach Alexi and he doesn't pass on teaching her this time. Even though it was full of Jessie and Alexi getting it on wherever they were, there was actually a story wrapped around it too that had emotion, heartbreak, and a little predictable mystery/stalker thing.

---

## Beccie says

You'd think with a title like "Wild Irish" the setting would be Ireland or the character would be Irish. The only thing Irish was the bloodline that had no prescience. Had way too much sex for a contemporary romance. I only like that much sex if I'm reading an erotic novel and this one had a sex scene in every chapter. I will give the author props for being more adventurous in her sex scenes than most contemporary romances are. All in all I read it, but too much sex and not enough story

---

## Rochelle says

Whew! This one's a hot one!

There was about equal amounts sex and plot - *most* of the occurrences were believable and not just sex for sex's sake!

The only thing is it seemed like the author wrote great for 95% of the book, and then rushed to finish it up. Like "here's the *whodunnit*, face him, get the big bad ex-fiance, save the world, and wrap it up in a tidy bow!" Other than the hurried ending I thought the book was great!

---

## Hbeebti says

I love stories where the couple has a previous relationship. Jesse and Alexi were steaming in this book. I just loved how Jesse would whisper in Lexi's ear about a fantasy and would follow through. Yes there was a lot of sex. Poor Lexi was always getting caught or overheard, kinda embarrassing. It was kinda funny too. But there was more than sex, there was past issues to deal with and the mystery of who was after Lexi. Jesse seemed to have a commitment phobia and Lexi was wanting his love. Together they seemed like a mess. But

it all worked out in the end. Now I read that Jesse's brother Jackson has a book next and frankly his story will be really sad, but I can't wait to read it.

---

### **Jeanette says**

Not a big fan of how the book started. Got a bit better. Story is a teensy bit predictable.

---

### **Kathleen says**

I love the Weldon Brothers.. This is my first book by author Jennifer Saints, but it is not going to be my last. I have already downloaded book 2 in the Weldon Brothers.. I thought Jesse and Alexi were a match made in sinful heaven. This was a sexy, sizzling romance that if I had been reading it in paperback would have burned my fingers.. I thought my kindle was going to melt..

Jesse is the boy from the wrong side of the tracks, and Alexi was the rich Southern belle, who just wanted to be loved. Her grandmother was not going to let anyone or anything stop her from getting the best husband for Alexi, until Jesse comes back into town and Alexi finds out that her husband to be is a cheat and a pervert.. Jesse unknowingly come to Alexi rescue and the heat that was there many years ago is still sizzling hot.. But who is behind the pictures sent to Alexi just before her wedding to Rodger.. Can Security Specialist Jesse find out who is stalking and terrorizing the woman he can't seem to live without... and prove to her that she can trust him and his love for her.

### **Tina "IRead2Escape" says**

#### **Hotness Rating 3 out of 5**

Review to come...

---

### **Angie ~aka Reading Machine~ says**

Alexi Jordan is about to walk down the aisle but she's having serious doubts about what comes next with Roger. She's not sure she can get married for the sake of getting married. When an unexpected package arrives changes Alexi's mind about marrying Roger. Alexi's grandmother Katherine tries pushing Alexi into marrying Roger anyway. Alexi realizes that's not the kind of life she wants for herself. Jesse Weldon has returned home to set up securities business and hoping to bring respectability. Jesse has been trying to forget Alexi Jordan over these last 12 years. Yet he's not having any luck with it. When Jesse spies Alexi in her wedding gown chased by paparazzi. He's intrigued by Alexi's beauty. When Jesse and Alexi kiss they set the world on fire. Can Jesse rescue Alexi? What will Alexi do? Can either of them admit their feelings? Your answers await you in Wild Irish.

I always love a story with the ultimate bad boy. Jesse certainly fits the description of bad boy from the wrong side of the tracks. I was impressed with Alexi's vulnerability and strength. All parts of the story blended

together seamlessly. The author created well liked characters and hated characters too. What's a good story without them. I look forward to the next installment in this series.

---

### **LadyCalico says**

Golly, was this book awful. I enjoyed Mistress of Trevelyan so much that I checked my Kindle and found I had two more books by the same author. Unfortunately, this one totally lacked exactly what made "Mistress" such a great read--character and story. This book was just about two very unlikeable cardboard stock characters involved in one romance novel cliché after another and stupid sex scene after stupid sex scene after stupid sex scene, ad nauseum--okay, we get it already, they are two boring, immature horn dogs, nuff said, move on with the novel, such as it is, already! Don't bother looking for anything fresh, original, or entertaining here. The most enjoyable thing about this book was clearing it off of my Kindle. Gave it two-stars, because recently I actually read a book that was worse, as hard as that is to believe.

---

### **♥Sharon♥ says**

2.5-3 stars

So I decided to randomly pick a book that has been sitting on my Kindle for a while and this was it.

Well...this one did absolutely nothing for me. I probably should have just set it aside and not finished it but I kept at it.

There were a variety of things that was a turn off for me but the number one thing that really had my face scrunching up was when the words "**dewy moist**" was used to describe the arousal state of the female MC Alexi/Lexi/Lex (yeah that drove me nuts too...multiple names).

Dewy and Moist should never be used as a sexual reference EVER!

That's all I have to say. :)

---

### **? Sassy ~ Amy ? says**

I got this a long time ago... I didn't even know I had it until I read the 2nd book.

This was a great intro to a series. There are for black Irish brothers (Dark Hair with blue eyes), who make up a blue collar family. The dad worked in a shipyard & their mom works in the hospital cafeteria. They were raised in/or near Savannah, GA. Each one grows up & becomes something better than the parents. Each is trying to take the "wrong side of the tracks" stigma away from the family name.

Alexandria dates Jesse for a month when she's 17. He walks away from her & wakes up with police over him & an accusation of stealing the family pearls... He leaves town after that & joins the military instead of going to jail. Alexi has no idea. She just thinks he left.

12 years later, while Alexi is running away from a wedding she no longer wants to go through with... she runs smack dab into him & asks him to rescue her.

Alexi owns an art studio & Jesse runs a securities company comparing the greatness of it to Bill Gates & Microsoft. (whatever... just a tidbit of info.)

I read this second instead of first, which was no big deal, but this one was way better. There is an underlying mystery to this one & there is a hunt for a couple people. At the same time Alexi & Jesse are together for sure, almost instantly & it's all HOT... Enjoyable & I can't wait to read the third book, but it's in line!

---

### **Jen\_C says**

The dialogue during sexy times killed it for me

---

### **Saly says**

Wild Irish by Jennifer Saints was a decent book, a re-union story about two people who met twelve years ago, Lexie was seventeen and too young and from a wealthy family and Jesse was two years older with a bad reputation, who didn't want them to go all the way.

Now, Lexie runs a art gallery besides charities and is all set to marry a man from her own social class, someone acceptable but can't seem to stop thinking about Jesse. On her wedding day she realizes she can't go through with it when some pictures of her fiancée with other women are given to her, enraged she escapes with Jesse coming to her rescue once again and them doing the deed.

Jesse thinks her family framed him and ran him out of town into the marines twelve years ago. He doesn't mind the sexual affair between them. Most of the book was about these two getting it on and Lexie exploring her sexuality and a minor suspense plot thrown in.

The book was a short, quick read.
