Snared by an old abandoned trap... Detained by the lure of her mates...

Emma is a wolf-shifter on the run from humans who killed her parents fifteen years ago. When she steps in an old trap in the Tennessee woods, she is truly screwed. Hungry and tired from weeks of running, she assumes she's going to die.

Liam and Jaden are also wolf-shifters. They're staying in a cabin in the wilderness for the summer to catalog the plant life in the area. Hoping to spend the summer enhancing their own relationship and escaping women altogether, they are surprised to find a trapped little female wolf on their first day at the cabin. Not only is she injured and mysteriously alone, but they realize she's their mate.

As Emma recovers from a broken leg, the three find themselves drawing closer and closer together. The pheromones filling the tiny cabin suffocate them with the need to mate.

But Emma has an agenda: run for her life and keep these two male shifters from succumbing to the same fate she is destined for—death. And Liam and Jaden have their own problems. Both are concerned about what will happen to their relationship if they claim the gorgeous female occupying their bed. Will she accept their need to be with each other as well as her? More urgently, can they trust her not to flee at the first opportunity, leaving Liam and Jaden with holes in their hearts wondering what could have been?

What do you get when you mix 2gay shifters and their mate? Hot freaking sex is what, oh boy hot panty wetting sex on a cracker!

Anna says

interest storylines

Ruth Hambley says

Although I enjoyed this one. I found it was a little rushed. If you enjoy reading menage shapeshifter and romance then this is a good one if you have a limited amount of time.

JAX R.V says

Cute m/m story!

Donna says

Great book

I enjoyed the storyline, it was an it different who h made it more interesting. Loved the ending. Has pretty good chemistry between characters. Hot sex.

Heather book whore & shifter slut extrordinaire says

I received a copy of this book from the author in exchange for an honest review.

This book is a sweet romance that happens to be between three people. I have read some ménage where one person falls hard for one of the couple and then slowly their feelings for the third in their group begin to go from like to some form of love. And you end up with an HFN or a "happy for now" ending between the three. but somehow you wonder if you were to go back in a couple years it might not be the same. This book gives you the feeling that these three will be together for the long haul.

Liam and Jaden are together and a couple in a committed relationship. They know they belong together. For a while now they have been searching for a woman - a third - to complete their family. Both are bisexual and

wolf shifters and realize that if they are ever to be truly happy they have to find a woman who could be a "mate" to them. I don't think they really believed they would ever actually find their wolf mate OR that she would be mate to both of them. But they did.

If only it was that easy! Emma has trust and relationship issues and did not grow up within a wolf shifter community so she is somewhat unaware of what all this means. She instantly realizes that they are both her mates and finds solace and comfort in that, but even then she really does not comprehend the bond that is created between mates once they are together.

In this hot, smexy, smoking, and funny book Becca Jameson uses her wolves to show us the courage and strength real love gives you. Emma is scared when she meets the men. The men are supposed to be taking the summer alone together in the woods to reconnect with each other after another failed relationship with a human woman. But these three come together and somehow each becomes exactly what the other needs; in that moment and in the rest of their life.

This book was a solid 4**** read for me. Another winner from Becca Jameson!

Interesting

First if you really dislike m/m this is a very mild introduction. It was not to my liking so I simply skipped those parts. Story was just, lacking. I prefer more active plots.

Great read!!

April says

Not worth the money

The writing was decent and the grammar fine but the overall story was anticlimactic and rather disappointing. Read strictly for smut rather than drama.
