## MischaS\_ says

Arriane & Roland are just the best ones. I just don't understand why she choose Luce and Daniel instead. I mean, they are so boring! :D Love Arriane & Roland

## Sara says

It was so sweet to see Arriane and her excitement over Luce. I never realised just how much she actually cared and liked her until now. Great!

"Wide load! Coming through!"

That was the first sentence and i knew i won't be putting this down until i finish. Well it was a short one so it didn't matter. But the point being it caught my attention the very first line.

A refreshing plot involving my favorite character in the Fallen series - Arriane!! Absolutely love her! The part with the tutu..... imagining her with the pink tutu was...hilarious and sweet.Roland was her partner in this plot but as the name says it all..Arriane remained the highlight.

Loved it and was fun to read. Recommend to all Fallen and Arriane fans!

This is a short story to Lauren Kate's Fallen series. This story had Arriane and Roland in a store, buying things to get ready for Luce's return. This takes place right before Luce shows up at Sword and Cross. It told a little about Arriane's feelings toward Luce. And as always told a little about Luce and Daniel. I like these short stories. They fill in the blanks of the story, give it more detail. If you've been reading the Fallen series, I recommend you read the short stories. Most can be found on the Fallen series Facebook page.

I love this short story. I always love Arriane and Roland. I have wished for them to be together. They have good chemistry in this story. And it also tells us that Daniel, no matter how devastated he was by his punishment, never turned Luce down, no matter how he painfully tried to.

Excellent story!

Arriane is one of my favorite characters and I love this little story about her and Roland. I enjoy her character and although she or Roland don't talk about anything that you not already know if you have read the books it still is fun to read just because it is Arriane.

I like this short story!!! I think this happened before Daniel's First Sighting...

I like Arriane and Roland...are they friends or a couple? I'm just asking this because of the phrase in the story that indicated the only love that Arriane knew is what she saw in Daniel and Luce. I would love the idea of Arriane and Roland to be together.

So Roland, Daniel, Cam, Arriane and Gabbe are all angels and friends? Gabbe is Luce's guardian angel. Arriane is also Luce's guardian angel? Why and how did Arriane and Roland know that Luce is coming to

Sword and Cross in two days?

Daniel is a fallen angel in-love with Luce who is a nephilim. Cam is an angel - guardian or fallen? - and is also in-love with Luce? Roland is helping both Daniel and Cam with their love for Luce. Why because they're friends or because he must fulfill his role? Why do Daniel and Luce have to fall in love in a continuous cycle?

Roland is definitely not on the same side as Arriane. Daniel has no side at all - neutral - in my opinion. What side is Cam? Gabbe is with the heaven's side. Is Gabbe and Arriane on the same side?

I love this!!! Arriane is great...I love all these shorts that are explaining how it is for each of them whenever Lucinda dies. It also explains how they each help bring them together and the roles they play in this punishment for Luce and Daniel

### **Joti says**

Arriane and Roland are out at the store, buying things to prepare for Luce's arrival. And Roland talks about how Daniel may try to break the cycle this time - that he may try to resist falling in love with Luce. Arriane says that's not possible but she realizes that every time Luce died, for them, it was like missing a friend for awhile before she came back but for Daniel - it broke his heart every time. For how long could he stand it? Losing the girl he loved over and over again? It's a bit serious but they leave the store, needing to finish the preparations.

This was so cute. At first I thought it was a short story that came after the second book, but as I read further, realized that it does in fact show some of the props that are used in Fallen as well as some of the banter between Ariane and Roland.

A cute little Fallen short. So glad I can still read a little more about this book even though the series ended a while ago. This truly is one of my favorite series.  
Plus, Arriane is one of my favorite characters. She's so fun, funny, and quirky, and it's nice to read about her, even if it's just a short story.
