Bold School: Old School Wisdom + New School Technologies = Blended Learning That Works Weston Kieschnick

Endorsed by John Hattie: “Bold School...needs to be an essential part of every educator’s toolbox.”

Technology is awesome. Teachers are better. Blending new technologies into instruction is a non-negotiable if we are to help our students gain the skills they’ll need to thrive in careers. And so too is educators’ old school wisdom in planning intentional blended learning that *works*. Too often, sincere enthusiasm for technologies pushes proven instructional strategies to the wayside, all but guaranteeing blended learning that is all show and no go.

Bold School is a book that restores teachers to their rightful place in effective instruction. Bold School thinkers embrace **Blended** pedagogies and **Old** school wisdom. In Bold School, teachers are put back into the blended learning equation. Blended learning is demystified and distilled into the powerful, yet simple Bold School Framework for Strategic Blended Learning™—a methodology to help you meld purposeful technology use with your old school wisdom to enhance instruction and learning. After all, the goal of blended learning isn’t technology—it’s student achievement. With a Bold School mindset, every teacher is capable of finally delivering on the promise of blended learning.

From Reader Review Bold School: Old School Wisdom + New School Technologies = Blended Learning That Works for online ebook

Freddy says

I liked how he introduced the tech as a tool to implement the STRATEGY you chose first. He gives good examples of how to implement the tool as real blended learning rather than as a substitute. There are some things I'd struggle to implement.

Kris says

Great resource if you want to integrate more tech into your teaching. Great ideas and tech recommendations.

Nikki Baker says

Fantastic!!!

"Have clarity about your strengths. Double down on those strengths and work diligently to fill in the gaps."

"Learning is King. Growth is Queen. "Cool" is the court jester. The jester is technology. And the jester has value, but don't him in charge of the kingdom."

"Technology is awesome. Teachers are better."

Suzanne says

Weston has a wonderful style; reading his book is like having a conversation. And his comments make sense - concentrate on the teachers and what they do best, then see how to use technology to make those practices even more effective.

Amber says

Old school wisdom with new school technology. This is a must read pd for those who want to move teaching forward.

Kris Patrick says

Now I, too, can speak Hattie effect sizes!

Beth Borzone says

Enjoyable, easy to read, practical book on how to blend new technologies with traditional, yet effective techniques to create an even more empowering learning environment.
