Burning Desire by Vicki Green

Parker is steamy! He is rich and successful.

Riley is a nurse. She is stubborn.

Even as a short story, you can't help but be completely drawn in from the first page! It was sexy, hot and steamy. Some parts I felt my mouth hanging wide open. One part made me sad but it was also a bittersweet moment. do not think the hotness level wasn't high because of the story's length because it was hot! Whew!

Surrendering Innocence by Amalie Silver

Christine is mom of a teenage boy who is getting ready to graduate. He hasn't had a companion in a long time. She is part of the PTA and keeps to a strict daily routine.

I have to say that parts of this book had me laughing so bad that I had to stop reading in order to catch my breath! I will never look at a delivery guy or leather the same way ever again! Her friend Mona is a crazy chick! I don't care about the age difference at all. Watson was totally swoon worthy. I wanted to rip him out of the book for myself!

Dancing with desire By Kasey Millstead

Anna is a stripper. A very talented one at that. The club has very strict yet simple rules. She is intrigued by one of the men there. She is extremely attracted to him.

Ethan is hot and swoon worthy.

The 2 songs in the beginning are some of my favorites! I literally felt like I was in the book! Just when I thought the book was gonna go one way, I was completely blown away with how wrong I was! Even as a short story, I can't help but want this to be a full length novel!!

### What Mother Doesn't Know by Nikki Worrell

Gabby is almost 20 and lives at home with her drunk of a mother and step father. She has these feeling for him that she doesn't know what to do with.

This story was a little weird for me BC her step father was married to her mother for a few years, even tho they didn't have a relationship for awhile. Rick was romantic in his own way though! In the end, age is a number and you can't help who you love. Love conquers all.

### The Taste of Mr. Davenport by Jessica Ingro

Claire is in college and has the hots for her best friend, Elise's, dad. Carter can't get over how hot his daughters friend is.

Let me just tell you that from the very first page, its hot! I loved the sex scenes in this book! Super steamy! It kinda made me mad that Elise threw their friend ship away over what happened. Poor Brian! I really enjoyed all aspects of this book though. Its hot , hot , hot!!

### Duty of Care by Lisa Edward

Toni is a nurse at a hospital. Her first day she is warned of the patient in room ten who is a jerk. She doesn't mind and take him on as her patient. She never expected to have chemistry with him.

Harley is angry that he is in a hospital with two broken legs. He knows he's an ass, but doesn't care because he doesn't plan to ever see these people again. He feels like a invalid.

Their attraction to each other is undeniable!!!! Will lines be crossed and she lose her job? Is she just someone to pass the time? Read this hot as hell short story to find out!!!! I fell in love with this book, it had me laughing and blushing so bad!

When Avery gets a call from her best friend Beverly and is told she is having problems with her 19 year old teenage son they come up with a plan to send him to spend the summer with Avery to help her with restoring the cottage house.

What she didn't expect is for her and Tyson to be tempted by one another. What happens when you can no longer control yourself? The only thing i had a problem with was i wish it was longer because it was that good!!!!

The Taste of Mr. Davenport by Jessica Ingro

\*\*This is a novella included in the anthology Forbidden Fruits II\*\*

HOLYMOTHEROFALLTHATISSMUTTATSIC!

Jessica Ingro, you my dear, KILLED it with this one. When I saw that you wrote a novella for something called Forbidden Fruits all manner of horrors actually raced through my head and I was having vivid images of weird step-sibling relations and dirty old teachers hitting on students... but this... wow.

I had to make a NEW shelf on Goodreads just because this novella didn't fit under any of them. And the shelf "sofa king hot" was created.

Like I said before this is a novella, and it is about a taboo or forbidden kind of relationship. College girl in

lust with her best friends father. Not the old man with the beer gut and wife, but a younger, divorced man who happened to have his kid way too early. Oh and he is a HOT, dirty man. The things this man says will have you freakin' panting.

"That's right, baby girl. You have such a sweet little cunt."

Carter Davenport is a photographer and travels a lot for work. He is in his late thirties, and has a daughter who is almost through with college. His daughter's roommate comes home with her for the summer and the attraction between the two is so intense neither of them can deny.

I love that even though this is a novella length, and is a stand-alone I got a great feel for the characters, their lives, desires, and heartaches. It takes a strong author to not only paint the scene, but to make you feel for the characters in such a small amount of words. It's a true testament to how brilliant an author Jessica Ingro is.

I'm terribly sad that I was able to devour this one so quickly. I look forward to more of her smuttastic stories! I give this FIVE stars for storyline (really impressed with how much the author gave in a novella length) and FIVE PLUS drenched panties on our SMUT scale for an overall rating of FIVE stars!

Definitely a must read if you love smut like we do.

Parker is rich, successful and all kinds of Hot.

Riley is studying to be a nurse. With only six months of training, she's surprised when asked to go to assist a dying woman in her home. From there the story unravels beautifully making you wish for it to never end.

There's sad moments, but also steaming hot ones too.

If you are looking for a quick read that'll leave you panting... look no further because this is it!

Received an ARC of Dancing with Desire by Kasey Millstead

5 Stars

5 Stars

This book was HOT!! It had me wanting more. I wanted to know what happened with the couple.

Anna is a stripper at a high class gentleman's club. The biggest rule is no fucking the clients. That will get you fired. She enjoys her job and has never had the desire to fuck a client until Ethan. She can't get him out of her mind and pictures him when alone at night. Will she risk her job to be with him?

Ethan wants Anna and he has since the first time he watched her dancing. She is every mans wet dream. Can he get her to comply to his rules and break her rules at work?

This is an interesting story because it has a little twist in it I wasn't expecting!!

Received and ARC of Duty of Care by Lisa Edward for an honest review!!

5 Stars

This book was really HOT. It was a great fast, short read.

Toni is just starting her new job. She is a nurse and had been working at a nursing home and is now working at a hospital with patients of all ages. She is excited to get into a different environment. Her very first day she is warned of the patient in room ten being a jerk. She doesn't let that affect her and she offers to work with him. She never expected to have chemistry with him. With this crazy attraction will lines be crossed? Or will she keep it professional until he is no longer a patient?

Harley is very angry that he is holed up in a hospital with two broken legs. He wants to be home doing all he things he use to do. He knows he's an ass, but doesn't care because he doesn't plan to ever see these people again. Once Nurse Toni walks in his room he knows she is different. He can't keep his eyes off of her and he doesn't want to scare her off. Will he push her out of her comfort zone? Is she just a way to pass time?

I don't normally like erotica novellas because I usually want more story line. I think this book had just the right amount of story and sex. I loved Toni, Harley and her friend Casey. This is a definite must read especially if you're looking for a short, hot read!! I love Lisa's books and cannot wait for more of her work.

This review is only for the novella 'Her Secret Service' by Liv Morris

I was given an ARC of Her Secret Service by Liv Morris for an honest review! I received the ARC late last night, and finished it today! While the book wasn't too realistic, it was incredibly hot!! I'm not worried about the realistic part of it, because it's fiction. A lot of people don't read books for the realism of them! They read them to escape into a different life, a different world, even just for a little while! I found Jude to be DELICIOUS! A tough guy who loves to fuck hard? Yes. Please! If all of the novellas are this hot, I will most definitely be buying the whole book for the rest of them! I can't wait to read other stuff by Liv!!!

Perfect Modern Day Bedtime Story

Penny Reid provided a copy of Wicked Wicked Wicked Witch for review.

Being a huge Penny Reid fan and loving her sense of humor, I wasn't sure what to expect with her attempt to write erotica other than it would have a level of wit not normally associated with the genre.

WWW did not disappoint. From the very beginning, Maleficent's character showcased Penny's ability to take a difficult situation and inject her special brand of sparkle. The fact that the story revolves around the Happiest Place on Earth only adds to the keenness that Penny possesses

This is not your childhood fairytale. This is a grown up scenario of good versus evil where innocent people have been hurt as a result of as the villain puts it, not knowing their place.

Can love conquer all? Can a prince fall for a Wicked Wicked Wicked Witch? Find out when you cuddle up with this wonderful bedtime story.

**\*Note to readers: I'm only rating and evaluating Lisa Edward and Nikki Worrell's stories as those were the only parts of the anthology that I read to review\***

**\*\*Duty of Care by Lisa Edward\*\***

**3.5 stars!!**

In a nutshell, newbie healthcare nurse, Toni Masters, moves into small town and ends up finding her first charge to be the hell raising and most antagonizing patient on the entire hospital floor: Michael "Harley" Davidson.

As you can imagine, sparks go off between these two. Only with Harley still recovering from his motorcycle injury and with hospital rules and regulation, how far will these two go before they are potentially caught and Toni's job is at stake? Or Harley is discharged from hospital care? Will things work out between the couple? And "how far will Toni take her duty of care?"

Read and you will find out!

**My thoughts:** Wow, this was a steamy interlude to get me started! So sexy.

In a way, for some reason, this story brought me back to shows like Grey's Anatomy where stormy affairs happen within hospital walls only in this case it's between nurse and patient.

It makes me want to ask my sister and step-mom if they've ever known of anything like this to happen since they are both RN's and I'm curious to see if it's actually occurred.

I've heard of staff getting it on during work hours but always wondered if it was possible for a staff member and a patient. Sounds impossible really with crazy work schedules and a high risk of getting caught.

Sorry, I'm totally going off in my own world! My bad!

**So over all, a great short story packed with passionate thrill and an amorous hospital encounter!**

**\*\*What Mother Knows Best by Nikki Worrell\*\***

**3 stars!!**

Okay, so first thing's first: Normally I like to do a basic recap of the story but what can I really say about a story that is roughly around 50-60 pages without totally spoiling the story?

Basically, you have a pseudo step dad and daughter bordering the lines of something more with an evil stepmother in the midst. What will become of their taboo relationship? Will it work out? How will the jealous and malevolent troll (a.k.a mommy dearest) take the news?

Read and find out!

**My thoughts:** This story was not bad but what really do you expect from a short story that features a racy plot on forbidden fruit, right?

To me, *What Mother Doesn't Know* just sat in the "expected zone" of what I read in these types of prohibited romances. Nothing out of the ordinary.

That's not to say though that I am still a devout fan of Nikki Worrell nonetheless. I just prefer her other reads since they have more story line and depth.

However, I still wonder if there's going to be a sequel to this story? That's the impression I had gotten (or at least hope) and was left pretty depressed and unsatisfied with the ending.

Pretty please have a sequel!

*\*I received the stories, **What Mother Doesn't Know** and **Duty of Care**, courtesy of Nikki Worrell and Lisa Edward, in exchange for an honest review. Thank you to you both!!\**

The Taste of Mr. Davenport by Jessica Ingro

~~This is a novella included in the anthology Forbidden Fruits II~~

I just finished The Taste of Mr. Davenport and I loved it. It was hot and steamy and honestly what would you do if you had an attraction for your best friend's dad. Trust me, nothing like you imagine, sexy, built, a charmer. How would you feel if you found out he was attracted to you too? Your 19, hes 37. Big age difference but would you go for it? Hell yeah buddy! You know I would jump on that sexy train and NEVER EVER let go! What does Claire do? Will Carter be able to let go of his sense of wrong and see what can become of them? You will have to read and see.

I loved the story. It was hot and steamy and I kid you not melt your panties right off!! Carter is a hunk. He is sexy as hell and I can understand where he is coming from when he thinks about age but you cannot be so hung up on it when something more than a quick affair is intended, at least by Claire. She wants him bad. Yes she is 19 but is very mature for her age. The tension between them to is seriously on FIRE and their tension when they are not screwing each other left and right is high. This was one of the hottest sex scenes that I have read and I didn't want to even stop reading them.

One thing for me was the end. I thought that it was rushed and it took too long for the characters to come back together. For me that was unbelievable. Some things were left unsaid and I would have liked a little closure. However I still enjoyed the story and you will too. Go out and get this bad boy!!!

I received, 'Dancing with Desire' to review from Kasey Millstead so I haven't read the other stories in this anthology just her novella in the book. Let me just say that if the rest of the stories are as good as Kasey's then I'll be buying this book for a FULL REVIEW! Not much to highlight or note in this story, but what I did highlight will get your panties wet ladies, Ethan I just wanted to take him home, "I'm going to eff you, Anna. Here, in front of everyone, or in private. The choice is yours, but either way, I'm going to eff you." Then I found out something I didn't like about him, and it made me sad, but Ethan made it up to me with his naughtiness, "I shift off the guy when Ethan starts walking with a purpose toward me. Leaning down, he

whispers in my ear. "You're so effing sexy." I can't wait to see what the other authors bring to the table.

**Book** – Surrendering to Innocence

**Type** – Part of Anthology

**Genre** - Erotica

**Rating** – 4 1/2 out of 5 Stars

*Complimentary Copy provided by Author in exchange for an honest review.*

#### **Review**

HOLY SHIT!! When the author approached me to read her novella – she warned me it was erotica and that she was writing out of her normal genre....but MAN...I wasn't expecting this! I really should have looked at the name of the collection it is part of maybe I wouldn't have been so shocked.

Reading the Prologue – I didn't know if I was going to be able to do it....could I get through this story that others would label as “taboo”? Why does it bother me...reading it? Well, I guess you can say the story hit a little too close to home....\*wink

Now please Ms. Silver – never, ever again question your ability to write erotica because you nailed this sucker right on the head! Not only will this story have you squirming in your seat but it will have you practically rolling on the floor with the humor she incorporates into the story.

Oh My God how I loved Moan-a and the antics Christine got into – what a freaking hoot!!

So now I have to explain why I took a ½ star off....it was the ending...I know it had to end that way and it was for the best but shit....I would have loved to have read more about Watson and Christine!

#### **Re-Cap**

I can't tell you much about the story without giving away the whole book and ruining for you – but I will leave you with this....take a thirty something divorced Mom.....her teenage son.....her son's “hot”

friend.....and a sex craved old high school friend and mix them all together – oh and did I mention that “hot” friend is a virgin?

This was a fun read and it was really fast!! It left me wanting more. No NEEDING more.

Cammie has some serious daddy issues. Her dad is more concerned about becoming President than he is about his daughter. She just wants attention. Doesn't matter what kind. So when daddy sends her a personal guard to watch her she is livid. She doesn't need a babysitter. What will she do? Will she go off the deep end and rebel more? Or will she seduce the bodyguard?

Jude doesn't want to be a glorified babysitter. He is a war hero and is only stuck doing this because of a mess up that everyone wants to blame him for. Will he actually babysit her? Will he walk away and risk ruining his career?

You don't want to pass up reading this novella. It definitely keeps your interest and you won't put it down till you finish. I cannot wait to read more by Liv Morris!!
