### **Love Irons**

I really love this series. What Frankie & Jax's has to go thru it is refreshing to see that no matter what, no one will ever come between them. With trying to get Firefly and learning secrets and everyone trying to bring them down, I couldn't put my kindle down. I love the characters especially Shadow & Titan, and can't wait for Shadow's book.

Secrets! So many secrets! Jax just keeps finding out just how much his mother and father have kept hidden from him all these years. Things are not as they seem. No matter what, Jax knows he can only rely on himself and his closest circle of friends. Frankie and her family must be protected at all costs. He will not allow the manipulators to touch Frankie again.

Jax was raised with one purpose - political excellence and power. The powers that want to control our country seek to also control Jax and his family, just like they have done for generations. Marriages are arranged for political convenience and blackmail is a daily occurrence. They will stop at nothing to get their way. Murder has already happened ... and it still a threat to take seriously.

This is the conclusion of Jax and Frankie's struggle. It takes courage to do what Jax intends to do to play this game of politics. This is also a gamble his closest friends are willing to take with him. They were all committed to protect and serve the nation. They will not allow their rights to be usurped by this group of manipulators to dictate their future.

MJ Fields is now a seasoned erotic romance author. Her books are lustful, emotional, but most of all real. Her characters could be your neighbors down the street stripped of all protective masks, in the raw. These characters will tug at your hearts. Their love affair is fraught with danger and manipulation by people who will not allow them to simply live. I love that no matter what obstacles come their way, love finds its way. MJ you are the eternal romantic and I love your work!

4.5 Stars!

This is the third and final book in the Iron trilogy of the Norfolk Series by MJ Fields. We have been following the story of Jax Irons and Frankie Cruz-Irons as they battle strong political forces and find a love that will carry them through the tough times to come.

I have enjoyed watching Frankie become a strong confident woman. She is ready to fight for Jaxon and fight along-side of him no matter what he chooses to do with his life. Frankie is an excellent heroine and perfect

match for the sometimes stubborn and over bearing Jaxon. This story quickly became about the strength one finds in love. Whether that is love of a parent, love of a child or the passionate love of a mate, love is the glue that makes us all stronger. I was happy to see Jaxon blossom under the love he receives. He is a better man because he believes in the power of love verses the love of power that generations of his family have reinforced.

The author does an amazing job untangling all the lies and deceit we have seen through books 1 and 2. Ultimately, the bad guys are still bad and the reader champions the good guys to prevail. My only wish for the book is that it was a bit longer! I will miss this family and would like to see where they end up. There is a nice teaser for Shadows at the end of this story. I am sure we will see the Irons family through Shadow's eyes as the series moves in a different direction.

This is not a stand-alone novel. You will need to read Irons #1 and #2 first in order to understand the situations. Overall a good read!

I have loved each book in the series, but I think this one is my favorite so far. There was just something about the emotions in this book from Jax to Frankie to Lily and even from the other characters. There a few shocks in this one that I did not expect but they were all good. I love the way Jax loves Frankie so much and what her love means to him. I liked that Frankie started to grow more confident in their relationship even though she still had moments where she worried. I loved that Jax was always quick to comfort and reassure her that they are forever. Great book, great series!

This is the HEA I have been waiting for!!!!

Irons 3 is the final book in M.J. Fields Norfolk Series. This is the book with all the answers to the questions

that were raised in the first two books. I absolutely LOVED this book!!! This book was still mixed with some mystery but as the story all unfolds it all starts to make sense. I am truly happy with the way this series ended and that Jax and Frankie got everything they truly wanted and deserved.

M.J. Fields knows how to create a story that sucks you in and has you invested in all the characters. I have loved Jax from the very beginning but I also love all the characters she gave us. (with the exception of a few, Mimi, Jax's mom and Arthur) Ms. Fields truly knows how to write an Alpha Male!!! I felt many different emotions throughout this book and series. I felt sad, frustrated, angry, love, but in the end the overall feeling I had was happy. I finished reading this book with a huge smile on my face :) This like all the other books, is a fast paced book and moves really quick. Each of these books can be read in under a day. The writing in my opinion was great!!

Frankie and Jax truly had a lot of ups and downs throughout this series, but I was so glad to see everything work out for them. What I also liked was that even though this book gave us all the answers we needed, Ms. Fields was still able to keep us guessing and throw in some twists here and there.

I really don't know what else to say, except.... READ THIS SERIES!!! If you like a book that will keep you guessing and on the edge of your seat, then you'll want to read these books. Also if you are a fan of an Alpha Males, then you need to meet not only Jax, but Titan and Shadows ;) But not only do these books have great Heroes, Frankie was an amazing heroine. She was fragile without appearing overly weak, and she truly followed her heart and went after what she wanted....JAX!!!! She is truly one of my favorite heroines. I look forward to reading more books by M.J. Fields and I would love to read more about Titan and Shadows!!!! Fingers Crossed ;)

What a perfect conclusion!

I must say that I got hooked from the first page of the first book in this Series..Didn't sleep, didn't eat...and now I look like a zombie.

Well done! Love scenes, drama, intrigues, action....

So well developed story and perfect narration.

I wonder...will it be another story about Mary and Shadow? It would be more that perfect!

One of my favorite military, alpha man authors, Jessie Lane, recommended this series to me. I have to say that I didn't know for sure what to expect and was so happy that I could read this series in order, back-to-back.

M.J. Fields is an author that has it all together. She writes in a style that pulled me in, had me invested in the characters, and wanting to keep reading. Each book is part of an entire story. They have to be read in order

and I recommend one after another. They do not end in a cliffhanger, you know how that part of the story ends for the most part, yet they each pick up exactly where the other left off. There were twists and turns that kept me guessing and hoping that the characters would head the direction that I was sure they needed to go.

With each book, I loved watching Frankie get her life back. She was lost in book 1, book 2 she knew where she wanted to go, and book 3 had her being a strong female that knew what she deserved and wanted in life. The confidence she gains has her becoming a great wife, mother (great twist), and daughter.

I do wish there would be more to come in this series, but I am ready for Shadow's story.

Thank sweet baby Jesus that I read all three of these series one right after another. I would have probably drove MJ mad with desperate pleas for the third book. This book mended my battered heart. I am the type of ready that falls for the characters in a book and I fell hard for Frankie and Jax, hell I even loved Shadows and Titan through out the entire series. Everything seemed to just meld here. There is still danger around every corner, but the story built up so much in Irons 1 & 2 that I felt Jaxson's security radiate throughout this one. It's intense. Frankie has also come so far and the issues she had in the beginning are long gone and replaced with a fierce fighter. She knows what she has to do and how to keep her family intact. Jaxson is the Alpha and Frankie is his Beta. It's amazing and I love the family involvement. There are a few shocking twists that I did not see coming, but made my heart just melt that much more.

Definitely one of the best series by MJ. LOVE LOVE LOVE this series and cannot wait to read more. I WANT SHADOWS!!

I like these characters so much but I would love this story more if there was less political intrigue. It was a great conclusion to Irons story. But are we getting a Shadow and possible Titan stories I hope so!

5 Star Read

Another hot, steamy, passionate, sexy, and heartbreaking story from MJ. I got sucked into the story from the very first page.

If you have not read the below I would recommend reading those books(s) first

Irons (Norfolk, #1)

Irons 2 (Norfolk, #2)

Jaxson "Jax" Irons and Frankie are still in love with each other. But is he willing to go against his family to keep her? What happens when losses force you to step up and take over? Is the end goal still the same or are you more about protecting your family? Can you protect your family and still take on the bad guys? Are the bad guys even closer than you think? Secrets are revealed that will change the course of Jax and Frankie's lives. Is this the end or just the new better beginning for Jax and Frankie?

I recommend this story, this series, and anything this author writes.

5 Stars!

Ok so it is no secret that I love this author's books and this is at the top of my list. This was a fast, sexy, hot, emotional, heart wrenching read with a side of a delicious alpha male that can make your panties melt. This book will get you hot and bothered and leave you on edge of your seat, flipping the pages as fast as you can to see what is going to happen next. This book is another masterpiece!

This is the final piece of the puzzle for Jax and Frankie. Taken on a whirlwind of suspense and falling in love in books one and two, finally the author sets up straight and gives us a happy ending. It has not been easy for these two. They have faced battles and weathered storms. One thing that has stood the test is their love which seems unbreakable. But like any love story, they still have a few obstacles to face. Bonds will be questioned. Relationships will be tested. Get ready for one hell of a ride and one of the sweetest happy endings you will read.

I highly recommend this trilogy!
