Some quite heavy stuff there. Abuse, neglect, mental illness, debts... Not something usually seen in a yaoi manga.

Leigha's Life says

I was a major fangirl for this 3 manga series, I admit when I was younger. I thought it was cute. It might be cliché, but past me probably did not realize or care. Sometimes a little cheese/cliché is good, though. I can't

remember much about the content now, though. Rated purely on vague memories.
