## **Lyon's Crew** Jordan Silver

Colton Lyon is the tattooed, pierced leader of a bike crew, but there's a twist. Lyon comes from money, loads of it, so although he's a badass he does it with style. He plays hard and loves harder until the thirty two year old heart throb meets the young wounded friend of one of his crew members and the sparks begin to fly.

## From Reader Review Lyon's Crew for online ebook

### Emily says

Colton Lyon doesn't know what the story is behind Kat, but when one of his crew asks to give her a try as assistant in his shop he agrees. Kat is a bit of an enigma to Colton, one minute she is a timid breakable bird and the next the temper has arisen and she is putting a man in his place. Colton realizes Kat is the one for him and introduces her to a lifestyle she never could imagine, keeping her protected though is another matter especially when he learns about her past.

There were aspects I liked, but I did have a problem with her age. She comes off a bit immature in some spots, Colton is definitely pure dom and there is chemistry between the two. Would continue to read to see where the story goes from here.

---

### Stories in Review says

Great second time around. I loved this and I definitely loved the Hero. There is no doubting his love for the h. Safety: There is talk of rape of h's friend and attempted rape of the h. Not descriptive, but it's there. Little ow drama from an ex, but the H doesn't put up with it and it doesn't cause problems in the relationship. Great read. No epilogue as it continues in the series.

### Anna the Naughty Nun says

It had 4 stars, so I thought I'd give it a shot.

This was simply a hot mess. The story was there but it lacked any sort of structure and cohesiveness. POV changed so frequently that I kept having to re-read paragraphs to see if I could decipher who last spoke and who else was in the scene. The dialogue would actually jump from character to character with no introduction, no explanation. This made it extremely confusing and hard to follow.

The story as I mentioned was okay but it was also familiar. There were some strong similarities to Twilight. I'm usually a little more forgiving with commonalities between books since I read so many but...

- 1) Heroine moves into town to live with her dad, leaving mom behind.
- 2) Dad is sheriff of small town
- 3) H is from an uber wealthy family.
- 4) Dad is a doctor.
- 5) Younger sister who is all about becoming her bf and going shopping, etc.

There seems to be potential here but I will not be reading the rest of the series.

---

### **Jo says**

Ohh this book was bad on so many levels,,, First it hooked me in I like bad boy motorcycle stories, but this story was like the author had bullet points and then ticked them off with out rhyme or reason, hot guy - check, sieve victim girl - check, he is really a millionaire who was raised rich but for some reason talks hood - check. How does anyone not read this as a poser. We all know that rich white guy who talks street -- isn't he the joke in the movies. The sex scenes had me wanting to stage an intervention or laughing at the crude sex talk trust me laughter was not what the author should have been going for at that time. There are so many books I have read that others have labeled as abusive or controlling but I was like ehh its kinda hot in the right context but here I am telling you noooo, just noooo. And yet I read the whole book and I know you may ask why and here is the real reason I am frustrated because the formula was all there for a good book and so many people rated it highly so I kept thinking this is going to get better right, but isn't that what is said in every abusive relationship so run now run away do not go into the light....

---

### **Angela James says**

I don't think I've ever given a book one star on Goodreads before, because normally I'd just not rate it at all, but the extreme lack of editing in this book, along with some disturbing content, makes any potential this had overshadowed. And I honestly do believe this author's voice has a lot of potential, but this looks like it was written and published, without any in-between editing/self-editing steps. Normally I would just mark this as read and not rate or comment on it, but I think it's important that we as readers start letting authors know how important it is to invest in their product and business, and publish a polished work and that message can't be given via silence.

### **Chantal ❤? says**

Audio review here:

Well I finally Popped my Audiobook cherry here and it was ORGASMIC!

For me, I found the audio version of this book was way hotter than the ebook version.

I mean honestly, I was self fanning myself every few minutes and my kids thought I was batshit crazy as I stood before the air conditioner! (Don't worry I had on my earbuds)

Wow! Just WWWOOOWWW!

Now that guy's voice will be playing in my head for days.

The person playing Kat's voice was not as good. Frankly, I found her voice annoying at times.

(The way she said panties just agh!) But since most of the book happened from Lyons POV, I was very good with that!

The only problem is that I can never read-listen to this book for my original intended proposes (starting a new workout routine), as it was way too engaging!

I would recommend this audiobook to anyone enjoying BDSM/Dom/sub type of book!

---

Well that was different. I can't say I loved this book. It was way too disturbing to make for a great read. I should point out to all that my thoughts are mine and they are not the general consensus here. Again I am part of the unpopular opinion.

#### **SPOILERS HERE READ AT YOUR OWN RISK!**

Firstly,

I am trying to wrap my mind on how it's a good idea for a grown ass man of 32 to give a virgin girl (yes she is a girl at 18) two nipple and clit piercing her first time out of the gate!?

Secondly,

How could he be so cruel to her. He grabbed her by the hair and drags her to be punished for something she did not even do or had no clue she was doing. He did it for hours just to prove he was in control of his woman.

Wow I really don't get how that is hot!

Really he hurts her and gets off on it and wow that's romantic? I don't get the whole BDSM LIFE.

Sounds like he can do whatever he likes and she has to do what he says ( but he did not even tell her anything here). I am not judging here but shit he is a man of 32 he should have told her what his problem was. She can't read minds and this is her first relationship and she goes in the deep end having no clue how to swim.

Thirdly,

He should have introduced her slowly to his lifestyle of choice. Even if she is into it, she does not understand the rules if you don't lay them out for her. Again, she is not a mind reader here.

Ok so I give it a 3 stars because I can see they are both happy with their relationship and he is very alpha.

However, to me she just comes off as stupid and spineless! All the time it's yes sir!

It seems to me She has no thoughts of her own and no free will. She let's everyone decide for her. The only time she shows any spine is when she is beating the hell out of Colton's ex whores.

He slept with these "bitches" and I do mean that literally because that's what he calls them. It just demonstrates how little respect he has for anyone, not even her dad and or her mom. That is not right in my estimation. Her parents are giving and caring people who deserve more than the treatment they receive by the hero.

Now I am going to take a break from this series and read a sweet book.

---

Warning: explicit violence murder and secondhand account of group rape, BDSM sex, anal sex, brutal sex, and Dom/sub relationship.

---

#### **Sheryl says**

**I was really PISSED off with this.... this book started out GREAT!!! Like Colton was \*WOW\*... the man was seriously ALL THAT!!! But somehow the book kept getting worse for me... it felt like all about sex and not much of a story.... (and HECK, i LOVE sex) and then as i kept reading, a feeling of deja-vu came over me.... it REALLY started to remind me of Kristen Ashley's Dream Man series... AND THEN Colton said the word "golden" and \*BOOM\* that basically CONFIRMED it for me... and all i can say is;**

**WTF kind of ending is that? SERIOUSLY the book just stopped... does that mean that there's ANOTHER book to come... \*GRRR\*... NOT HAPPY!!!!!!**

**LOTS OF POTENTIAL for this book, but it fell WAY FLAT in my opinion... :(**

---

**B.E.Love says**

So I didn't finish this book, the editing is bad the story could be good but the characters and writing style are BAD. this book had the hero, heroin and heros mom's point of view. It felt like everyone was a teen including the mom then their personalities would switch completely. I also felt like the author was trying to make us believe the characters were one way then she wanted to add something and even though it didn't fit she still added it. The author tried to hard with the characters but it ended up feeling fake and forced.

---

**?Tonya? says**

audio reread

The male narrator was ok. The female, not so much. In my opinion, the voices didn't match the characters, especially Colton's parents.

---

**Sadie Bissett says**

I loved this book. It was raw and sexy, with the Uber-Alpha Colton Lyon leading the way. He knew what he wanted in his life, and he made no apologies for it. And what he wanted was Kat.

I loved that Kat knew she was kinky, even when she was still a virgin. I was the same way. I was extremely sheltered (home-schooled), but I longed to be tied up and rode hard. Kat had been assaulted and almost raped, which she was healing from, but that didn't change who she was. She needed and wanted someone to take charge, keep her safe, and feed her kink. Colton was that "someone". (Plus, that lovely piercing of his didn't hurt either.)

I don't understand why some people get so offended by these types of books. You may not want someone to come into your life and start making decisions for you, but that doesn't mean that it is wrong. If two people want and need this in their lives, it is an equal exchange of power, and as long as neither one abuses it, it can be beautiful.

I love what Jordan Silver says on her blog in her little mantra: "I Hate Angst, I Can't Read It, I Can't Write It." Thank you! I can't handle that from a book either. This book has no angst between the Lyon and the Kat. All angsty stuff is outside of their romance and love. I like that! I don't want to worry over whether there is going to be the big "miscommunication" or the cheating-when-he-got-drunk-and-the-break-up-that-lasts-10-years-till-she-finally-forgives-him or the "I'm so unsure of whether he'll ever love me as much as: his dead wife/lover/fiancee or his (god forbid) mother or the one who dumped him at the altar." That has been done to death and causes unnecessary stress on the reader. I love that her books have none of those situations.

AND, there is a second book coming soon. It is called Lyon's Angel, so quit complaining about the ending of the book already. It was clear that there was a part two coming out. Geez, people, it's like you have to complain about something.

---

## **Heather andrews says**

Nothing seems to get past Colton, and it's funny how her really never misses a beat, "something on my a\*\*?" Oh s\*\*\*, kill me now, the worlds hottest man had just caught me staring at his a\*\*." Colton doesn't hold things back the boy says what's on his mind, "the clothes, why the eff you been coming to my place looking like Broom Hilda, when you're walking around with the body of a effing bombshell. You trying to eff with my head?" He has a great way of telling Kat what his rules are, "it means you're mine, and it means when we ride you're on the back of my bike. It means when I climb into bed at night your a\*\* better be there." He's possessive as well, "please don't tell me you're one of those chicks that don't know how your man is supposed to treat you...listen up, if you're under me, that means you belong to me, and you're my responsibility, so it's my job to look out for you...are you getting this s\*\*\*, cause I'm not repeating myself,"

---

## **Mari?ina says**

WTF!!!

I seriously am out of words for this book!  
This will be a long review..with spoilers..

First things first.. The book starts out ok.. so your hopes are flourishing and then..

BAM the book shows it's true colors..

Rushed, stupid, poorly executed, unreal and so the list goes on..

Let me start with Colton, he is a billionaire who makes bikes and has his own crew.. With the way he acts i wouldn't trust him with a fish not a whole crew..He is just a rich pompous ass who thinks he is Robbin Hood..

On the other hand, Katarina acts innocent and all that, she hides a secret which we learn pretty fast..

As for his parents what can i say, they are supposed to be well educated and refined people coming from old money but they act like teenagers who smoke pot all the time and their best friend is also - guess what- a psychic..

The best thing though is the many similarities with the Twilight saga!!

Town Forks where her mother lives, names, her father is a cop his dad is a doctor, and many more, it really feels like the author tried to take pieces from books and make a new one..

And yet we are not even in the good part.. The sex!

Ok she is a virgin -of course- and her first time he takes the liberty to pierce her nipples -while having sex, always unprotected- and her clit.. YES, it's the right time to scream..

And don't get me started with his size!

Seriously? LAME! 11,5 inches??? Who writes those things?

But the worst part for me was when he lost his temper with no reason at all, drags her by her hair and hits, spanks(?) that was not spanking

her for hours without talking and he is just a f\*\*\*\*\* jerk..

The guy isn't an alpha male, he is clearly an abuser he is not jealous nor possessive, he is problematic with no manners and a huge idea for himself..

They even try the BDSM thing but he is just too scary..

He isn't attentive, he doesn't protect her, she is not safe with him..

She is reckless and stupid and she should run, run like the wind..

Colton is too abusive! She has to take a restraining order against him!ASAP!

And the end is coming now.. well Colton wants to teach a lesson to the one who tried to hurt Kat and got away with it, or so we think..

It scarred me for life.. He is not doing what my sweet Caleb does to those who abducted his kitten(reference to Dark Duet series).

No they -Colton and his crew- tie him -the bad guy- from his limbs with chains and they pull from different directions while ridding their bikes and \*SNAP\* Colton gets the head..

#### THOUGHTS ABOUT THE BOOK

- The editing was bad
- The writing was worse
- The sex scenes were disturbing mostly, but some were actually hot..
- The parents: Worst elite parents EVER!
- The kill, too messy..
- The references to his d\*\*\* LAME..
- The POV changes with no indication at all and leaves you wondering, who's head you 're in at the moment.
- The only positive thing is the name Colton..

DNF at 40%

---

#### **Shannon says**

I always read reviews before I consider picking up a new book and in this case this book has a ton of bad reviews but there was something about it that made me curious, so I took a chance and bought it and am so happy I did. There is nothing I love more than finding a great new book. Yes there were some spelling and grammar errors but was it enough to effect my reading or understanding of the book? Not at all. I also noticed a lot of comments about the switching of POV's, initially it confused me until I realized that when you see the line of asterisks you are switching POV's. The only thing I might recommend is possibly a header to show who's POV it is for those who aren't able to pick up on it on their own. But I really enjoyed this book and I am looking forward to the second book in this series and reading more from this author soon.

---

**axola says**

Ok, the punctuation in this book is horrible. Horrible as having the need to read some paragraphs twice to understand wtf the author wanted to say!

In addition Lyon is chauvinist, scary and I would say disgusting as well. Having the " heroine" to be a 18 year old virgin whereas the " hero" is a 32 year old biker was something I didn't like. Sorry, but trying to convince us that she is " mature" because she went through a trauma is laughable!

Then why I give it 3 stars? Well, because however bad I thought it was and although I rolled my eyes like every 2 seconds I read it non stop for 2 hours. Let's call it a guilty pleasure and leave it at that!

---
