## Miss Matched Milly Taiden

Carly Toblan had a little too much wine at her best friend's wedding. Now she's found herself flirting with a hunky shifter who's bent on showing her how much he wants her. She's never been with a shifter but suddenly this curvy girl is hearing the call of the wild up close and personal.

Bear-shifter, Bastien Auberon, knows two things for sure. 1. Carly is his mate and 2. She doesn't want to want him. Too bad because she does. And he'll use that unquenchable desire to get her to be his. He'd never used sex to keep a woman before, but in love and war, anything goes.

With her father sending eligible men her way, and someone trying to take his mate from him, Bastien's ready to roar in frustration. He has a lot to figure out before he can get Carly into a forever state of mind. Claiming a woman had never been this difficult. Good thing he's so persistent and will let nothing stand in his way.

Reader Note: I hope you're ready for more panty-dropping sexiness. There's hot, sweaty, naughty sex, adult language, lots of violence and blood, a BBW heroine with an attitude and a roaring bear ready to claim his girl. If this is not the kind of stuff you like to read, skip this book. However, if you're a fan of all things naughty and humor, this is perfect for you. Enjoy!

by Milly Taiden  
????????

This is book 2 in Raging Falls series. I have read most of Milly Taiden books. After reading this Fantastic book I know I am excited and anxious to read the next book Milly writes. She has created a captivating storyline with fascinating characters that had my attention from page one all the way through the book. This is one of those books that I was up late reading because I could not put it down. My eyes were crossing as I was reading but I couldn't put it down until I finish it. I love reading Milly Taiden books, I have even had the opportunity to read and act out her books that was the most fun I ever had. I really enjoyed this is a awesome addition to the Raging Falls series. This one is so Spectacular, I couldn't putting it down. I am already in love with all of the characters in this series. The characters are developed and well written. The dialogue is creative, you will like the interaction between the main characters, they leap off the page with love. I would have paid a lot more than .99 cents I enjoyed this so much.

Carly Toblan is the Maid of Honor at her best friend Kira's wedding. Carly is a very funny BBW she loves her curves but she hadn't always because of her father's comments while she was growing up. Carley had lost her mother when she was a baby. But now she was happy for her Bff who was also her boss. She was happy that Kira was getting a mother-in-law she could love and her mate for life Luke.

Oh no it's time for Kira to throw the bouquet, Carly and another friend Toni lines up in back because she didn't want to catch the bouquet. What hits her on her head and falls in her hands the bouquet. Now she has a problem who get the garter.

Bastien Auberon is a bear shifter and Luke's BFF since they were little boys and now his Best Man. Wow he's so happy that Carly caught the bouquet his mate. Now he knows he is the tallest but he has no intention to let any one else to put their hands on Carly, so he made sure he snagged it. LOL

Bastien is thankful to Luna Luke's Mom and his surrogate Mom for her advice that he doesn't let his mate get away. So a bottle champagne, a hot tub and Oh yeah a phone what do you get when a tipsy woman talks to a sexy bear shifter. It's on and Carly will enjoy herself a lot. But someone is trying to Kidnapped Carly, is the Cartel back? I love Carly's nicknames for Bastien I'm loved when a book makes smile and laugh.

This is a Fantastic Read. If you are looking for a Spectacular paranormal book then you need to read this book and the entire series. You can't miss this awesome book or series! This is also a magnificent book to add to your TBR list. I'm felt so good about this series that I'm excited and anxious to read the next book this series. I highly recommend this book and series.

If you believe in the world of paranormal romance, the possibilities are endless and fascinating!

## Book Binge says

\*\*\*MINOR SPOILERS\*\*\*

I thought this book was generally good, I just hate it when characters are serial daters. It really seemed like the heroine spent a lot of time leading several guys on (without telling them about her dates with the others). I just think she should have given the guy she was first involved (who was the only one that she actually liked) with a real chance before agreeing to dates with other guys that she knew were interested in her. Dating people that you don't have a real interest in romantically is another pet peeve of mine in writing. She also seemed to get angry a lot, and I sometimes had trouble following her logic so it seemed like she was throwing fits over nothing making her more bitchy than no-nonsense. I did enjoy the storyline and Bastien's character, it just seemed like Carly wasn't happy with anything he did for the majority of the book and then was claiming to love him all of a sudden after only showing hostility.

I do so love me a bear shifter and Milly definitely knows how to write a super sexy, possessive, and charming one.

I adored Bastien. He's so sweet, and sexy, and such a dirty talker. He was very endearing worrying so much about making the perfect date for Carly and him.

I love the humor and sexiness of this series. Plus the few surprises thrown in. This is a great cast of characters and I can't wait to read more in this series.

~ 4 Miss Matched Stars ~

*Miss Matched* is book two in the **Raging Falls** series by Milly Taiden. We are given no shortage of mind-boggling, heartfelt and hot and steamy moments.

This was one hot, sexy and steamy read. Carly is pretty much done with men. Bastien on the other hand knows that Carly is his. He takes her on one extraordinary heartfelt date that will change everything. These two Oh Baby! Light the sheets on fire. They were a sweet couple and worked well together.

Beside our sexy bear trying to romance his mate, we are given a few surprises in regards to who is out to kidnap Carly and one big bombshell about Luna. The author does not short change us in the sexy department or with some thunderstruck moments that leave you going *OMG* and *AWW*!

*This was a delightful addition to the Raging Falls series and I can't wait to see who's next on finding their one and only.*

### **Chantelle Bouffanie says**

Amazing! I've volunteered to review this book for the author. This is the second book in the Raging Falls Series. I love reading stories from Milly Taiden. Anything she writes I jump in them because they are amazing and so unique. This book was no different. Toni was headstrong and at times stubborn but it worked for her. Garrett was cocky but at the same time very down to earth. Danger is lurking and strange things are happening and Toni seems to be in the middle. Will Garrett be able to keep his mate safe and win his mate over? I can't wait to read more in this series.

#### **Two Wonderful Stories in One Book**

I loved both stories. Wonderful characters, great storylines, full of suspense, action, and some sexy times. Both are part of two different series. Both series I look forward to reading more of.

Didn't read the sassy mates story included but I might later. I love that Milly is diversifying her characters! Black, brown, and honey girls want shifters of our own!

### **Kathryn says**

For some reason, this book was not as fun as most of Milly's books are. Carly kind of got on my nerves. I didn't like how she kept going out with other men, especially since she had already mentioned how her father kept sending men to date her. I don't like women who play games, and I felt that's all that she was doing. The fact that she had just witnessed her best friend marry a shifter and I'll assume they talked she knew the deal with Bastien, yet she continued to try and make him "prove" himself. That got a little old pretty quickly for me. I also thought the whole kidnapping scenario was a little too out there for me.

#### **4 out of 5 stars**

I like this story and although a short read, it is well rounded and has depth. It has a little of every category of

drama. I took off a star because it ended a little abruptly for me and there were some distracting grammar errors.

### **Gwendolyn Thaggard says**

Carly Toblan is basking in the glow of her best friend's wedding day. Carly plays her role of maid of honor to the letter. When she ends up catching the bouquet, the tables turn when Luke's best man and friend, Bastien catches the garter and has to place it on Carly. There is an attraction that has been building ever since Carly arrived to pick up Kira and all the craziness in book 1 imploded. Bastien is a handsome bear shifter, the shifter part is the issue b/c Carly's father has been forever spouting how dangerous and uncivilized shifters are. Carly knows her father would flip his lid if he thought she had any interest in a shifter. Carly also has some strong opinions about men being the perfect gentleman and treating her accordingly, and she doesn't think Bastien can live up to this standard, especially when a former flame comes back into the picture in full pursuit.

Bastien doesn't agree, b/c he knows that Carly is his fated mate. He just needs to show and convince her of it. When a man from Carly's past adds some competition, Bastien must plan the perfect date to woo his mate. Things get even hairier, when someone tries to abduct Carly. There is a lot going on in this book. Carly does have feelings for Bastien, but she is resisting. Bastien is unsure of how to tell Carly that she is his mate. Carly has a father that strongly dislikes shifters and tries to control her life. Carly seems to be juggling men and not sure of who she wants. There is danger coming after Carly, but from who?

### **Salma Al Far says**

okay so this book was okay. I did not enjoy at all, I was forced to finish it because I never leave a book unfinished.

I did not like any of the characters. Carly kept saying how she does not care about her size and that she cannot find a man to love her just for herself and not because of her father. Also she said that no guy likes her because of her weight. I get that but when Bastien starts wooing her and showing her attention, she rejects him.

WTH!!! a really hot sexy guy actually wants you and he is offering you everything that you ever wanted but somehow she ignores him.

Bastien is just weird and growly. I don't know what to say about him.

I don't recommend this book to anyone

### **Sandra Aaron says**

#### **OK shifter romance**

This is an OK shifter romance, but the H was too controlling for my taste. I get that his attitude is supposed to be a shifter thing, but it would bother any independent woman. I did like him better once they got together, as the H seemed to somehow soften his hard edges.

I actually liked the extra book, Scent of a Mate, more than Miss Matched. It was sweet, but with plenty of steam. I loved how Aric chose Jordan years before, but waited to pursue her till she was old enough. He was

a sexy sweetheart, and he was perfect for Jordan. This story did have quite a bit of violence, so you should skip it if that bothers you.

An excellent and sexy read.

### **Leo (Queen of the Rants and the Crazy) says**

What the fuck was wrong with this woman the H was good enough to have sex with but he wasn't good enough for him to be your mate? The H is amazing he knows she's his mate and chases her but this bitch goes on a date with om "her friend" whom she had a crush on the H sees them he gets jealous I totally agree with the H how would she feel if he does the same with ow? The H ends up apologizing because he was jealous then she's goes out with the same guy and om to get drinks this om asked her on a date and she goes I don't know and thinking as much she disliked admitting it she didn't want anyone but the H! WTF!! Then why the fuck are you on a date not with one but two men? But she fucking end up accepting the date and she ask herself if she's easy yes bitch you're a ho because you just slept with the H and then you go out with two oms Poor H he doesn't deserve this woman.

I hate hate hate this bitch.

DNF!! An I'm giving this shit 2 stars not because of the h but because of the H who was amazing at least from the little bit that I read.

### **Ivy Deluca says**

I read this as a quick little in-between book and it's a good thing I didn't expect much - it ends at a little over 50% (it's more of a novella with another novella, Scent of a Mate). I was disappointed, to be honest.

The h is defensive, irrational at times, and dating other men (though she insisted they were friends, she knew the men were interested in her romantically and it just felt disingenuous). The H is a sweet guy but not the strongest of heroes, and there's a twist that came out of left field, and was done unsatisfactorily. I appreciate that the h is trying to be body positive, but she's kind of her own worst enemy and the constant preaching about being happy with yourself was contradicted over and over by the way she acted.

I didn't expect alot, but it just wasn't a well done story. It's probably my least favorite Taiden book ever.
