From Reader Review Queen of the Dawn for online ebook

Beverly Laude says

A satisfying ending to a great series! Zwaantie never wanted to be Queen, but when you are royalty, you do what you have to do. Now, she finds herself becoming Queen not just in one kingdom, but over the entire world!

Through this series, Zwaantie has been an annoying "heroine", often whiny & very immature. This book sees her finally become the leader she is meant to be.

Kimberly Loth is a great writer, building worlds & characters like a great architect. Everything she writes is awesome & I look forward to many, many more adventures from her.

Allie Arana says

As always, Kimberly Loth does not disappoint. This final installment of the wonderful world of Stella and Sol was the closure all fans of the books deserve. Yes, Ari was killed in the last book and that was Loth being an adventurous author, but she did give Leo the happy ending he deserved. Though the reconciling between Zwaantie and Leo was a bit rushed, I guess in the interest of keeping the reader focused on defeating all evil The Voice, we did not get to savor all the nuances of Zwaantie as she dealt with death and love. All in all, it was a great book and even better series. I am a very demanding reader and there are very few book series that have really met my demand when it comes to creating spectacular finales. I still think book 3 was the best book, filled with all the ingredients of a great story.

Rabid Reader says

This final book in the Sella and Sol series is an exciting finish to a great story. We have seen Zawantee go from a whiny teenager, to a Queen responsible for the safety of two kingdoms. She puts her aching heart to one side and does what is best for the kingdoms and their people. This story leads you on a journey full of twists, betrayal, sorrow, action, forgiveness and love. It wraps up all the story threads set down in the previous books and leaves you with a satisfying ending.

Seraphia says

Queen of the Dawn by Kimberly Loth is book four in her Stella and Sol series and is the final book that brings to an end to our time in Stella and Sol. This book picks right up where things left off in book three. Ari is dead, murdered by Raaf, in his attempt to kill his sister to thwart a prophecy that he himself will die. Zwaantie wishes to mourn the loss of the man she loved and the life she will never have with him but she cannot. The changes have already begun in the kingdoms and she must rise to face them or be destroyed. The magic in Stella recognizes the change that has occurred and now Zwaantie must step up and shoulder what is going on. Her brother goes on the run and into hiding but the fight is far from over. The Voice will never

stop until it has accomplished its goals. Secrets will be revealed, lies will be told and the truth will come out but how many will suffer before it is all over?

Queen of the Dawn is literally a roller coaster ride. I started and finished the book in the same day that I started it and didn't put it down once. Zwaantie and Leo are thrust back together after the death of Ari but they must come together if they are to make it. Zwaantie has a secret and she needs for Leo to help her hide it but will he even be willing after all the times that she has hurt him? In this book we really get to see Leo's bitterness towards Zwaantie show itself time and again. But then we also see that he truly loves her becomes in the innocent moments he shows his love is deeper than anything. They both have lost so much in their attempts to bring the two kingdoms together to save the people it's heartbreaking.

Raaf is a force to be reckoned with that's for sure. I really love how the author takes the time to give us some back story into Raaf's training to become the next Voice and we even get a glimpse into how it was created. This story is truly fascinating and grips you from go. With each turn of the page you wonder who will be next. You wonder if another character that you've come to like and cherish will be the next to fall and no longer be a part of.

With each book in this series the story gets better and better. Each time I think "Oh this one is my favorite" the next comes along and takes its place. Queen of the Dawn is the book that will shake the whole series up and when the dust settles everything will be as it should be, one way or another.

I am rating this book 5 out of 5 stars. For me it's truly a good book if it grabs me and has me finishing it in no time flat. Kimberly Loth has done a fantastic job with this series, and while I am sad to be leaving the lands of Stella and Sol I have enjoyed my time there and will revisit often. If you have read this far into the series then PLEASE grab this book and read the epic conclusion. You won't be disappointed. Two thumbs up to the author.

I received a copy of this book for review and will most definitely be adding it to my collection to complete the series.

Ryleigh Jayne says

Kimberly Loth has outdone herself again! She transported us into the world of Stella and Sol and made us love her characters even more! Throughout this book so many questions were answered for us. New friendships and loves were formed! You get to see if the worlds of Stella and Sol will get to be joined! By the finish of the book I finally see Zwaantie as a grown up and a queen, she has sacrificed so much just for her country.

I will have to say my favorite part of this book is the dual perspectives and getting to see inside Leo's mind. I absolutely loved this series and am sad it is over. I am secretly hope we might get a short story somewhere just to see how everyone in Stella and Sol are acclimating to all the changes!

Ashley Martinez (ilovebooksandstuffblog) says

An explosion of emotion and a whirlwind of action! I couldn't put this book down I needed to know what happened next.

I loved this series from the start with so many twists and turns it was an unforgettable exciting fast paced fantasy.

I kept hoping a certain person would magically come back to life since their character turned out to be one of my favs but I did enjoy the way the story turned out in the end and how everything turned out with the Voice and Stella and Sol.

I will certainly miss the characters and this intriguing world. I highly recommend this series if you haven't started it yet!

I voluntarily reviewed an arc from the author.

Ola Adamska says

GREAT finish of Stella and Sol series!

In this book, we encounter - mourning, love, fighting voice, passion.

Here main characters become Queen and King, but will it be that easy for Leo and Zwantee? Especially with Ari's death in book 3.

I LOVED this characters and series. I will read more of Kimberly Loth for sure!

Patti says

When reading a conclusion to a series that has kept you on the edge of your seat book after book, you really want the conclusion to be all encompassing and feel complete. This author delivered in spades! Brilliance flows from these pages. The life f the main character Zwantee has gone through some really major growing pains throughout these books and finding a path to any HEA seemed really futile. With the loss of a major character in a previous book, it was anyone's guess where this storyline would lead. This narrative of the future of Stella and Sol could not have been more perfect! Highly recommending this series does not seem strong enough to convey what an amazing storyline this is! Well done!

Topsues says

I read this book not realising it was part of a series. Even so it didn't spoil it for me. This book was so well defined. At first I thought i was reading an historical novel, until the character had a shower ! The plots was described that well, that it was easy to envisage the places the story was set in, but not flooded with to much information to deter from the story. This book was full of sorrow, mistrust, betrayal, fear, celebration,trust, love and friendship, I could go on. It captured you from the very beginning, but unfortunately wouldn't let you go, still at 2am !! It is a definite page turner. I would find myself speed reading, as I wanted to know what happened next, then slowing down as I neared the end as I didn't want to finish it. The author dosnt just have her foot trapped in the door of supernatural/ fantasy novels, she is in there with both very imaginative feet.

I would definitely recommend reading this and exploring other books by Kimberly Loth, I certainly intend to

Sharon says

4.5 stars

I am sorry to see this series end but Kimberly Loth has definitely done it justice. This book picks up exactly where the reader left off in book three with a shocking twist. Not having much time to grieve, Zwaantie has to step up and assume her new role becoming queen in Stella and ultimately in Sol as well. In order to ascend to the throne, she has to marry Leo. There are so many emotions at play here. Can Leo put aside his feelings of betrayal? Can Zwaantie move past her feelings to love Leo? Can they both work together to figure out who is trying to kill Zwaantie? Who can Zwaantie trust?

As the storyline progresses, the reader is able to see the tremendous growth allowing Zwaantie to transform herself into the leader she was prophesized to become and just how much she actually sacrificed for her country. I love this series and hope that there will be an additional book or two bringing these loveable characters back to see how they are all adjusting to the changes and the new regime. I look forward to reading whatever Ms. Loth has planned to pen next.

I volunteered to read an arc for a review.

Jennifer says

This was a stunning conclusion to this fantastic series. The book opens to find Stella still reeling from the events in book 3. Zwaantie and Leo are in shock from what has happened to Ari. Will Leo be able to get over the betrayal of the two to do what is right and will Zwaantie be able to do what is right for both the kingdoms of Stella and Sol? I loved how the author brought everything full circle with this book and gave a fitting conclusion to the characters. Some parts were absolutely heartbreakingly sad and the pain was so real I could feel it. I couldn't put this book down once I started reading it. I just had to read one more chapter and then one more and so forth. It's an excellent read and I would highly recommend this series to anyone. I volunteered to read this book.

Ruby McDemon says

Such an epic ending to an amazing story. I can't believe all the twists and turns this series has taken and I'm happy and sad at the same time. I'm so happy to have gotten to read this series, but sad it ended (book nerd problems lol). There is so much about this book that I loved that I honestly don't know where to begin or what to say or anything except that I loved it. It was so awesome that I really read it all in one sitting (at the bar even). Everyone needs to read this series because the ending is epic and just so flippin awesome.

iamnotabookworm says

I give this 4.5/5 queen's crowns.

This is the finale of the Stella and Sol series. It's incredible to finish a series within a year or within six months after the first book came out. Just like this series. I can still remember when I first got the first book- God of the Sun. It felt like it was just yesterday and now the series ends. It's a mixture of emotions. It's sad to

say goodbye to the characters I have grown to love and root for and to their story. At the same time, it is a relief to finally have all their trials come to an end. That finally, the characters will have peace and live happily ever after. After all, they deserved it. With all the horrors, heartaches, betrayal and pains they have to live through.

I don't know how the author did it. Coming up with four books, one after the other in less than a year. And most amazing of all is the creativity and the beauty of the story. No, this series felt like it took effort, strength and may be even pains for the author to write and finish. This did not in any way feel rush or was done on a whim. This was done with a well-planned out plot and thought-over characters with personalities unlike in any other stories. Being able to publish these four books like a month after the other was a feat the author did with great success. I can't wait for the next series and adventure I will embark on with Kimberly Loth at the helm.

This is a great ending to a very endearing story and set of characters. I can't think of any other fitting ending. All the bows were neatly tied and issues were resolved. I can have a good sleep knowing that I won't have to worry over Zwaantie and her friends anymore since danger is past and they don't have to fear for their lives. The kingdom is back to the way it should be and everyone, both citizens of Stella and Sol, are all happy with their new life. All is looking good and the future is bright and sunny.

I liked the King of the Stars better than this one. For the reason that it was more intense and I had a hard time getting over the events in that book. Add to that the cliffhanger ending that surprised me out of my wits. It was the most memorable scene in this whole series for me. Until now, I am still unable to believe that it happened. So, if I were asked, the best book of the series for me is definitely the King of the Stars. I guess, I was expecting a punch a lot stronger than the one in book three, but the surprises and revelations in Queen of the Dawn I think, paled a little (just a little) in comparison. I am thankful that the story ended so well.

I give this 4.5/5 queen's crown. It is an honor to be part of this story from start to finish. It's nostalgic yet exhilarating to witness the growth and transformation of the characters as the story progressed. I felt like I was a citizen of Stella and Sol fully invested in all the events happening between the two kingdoms. Being part of Zwaantie's journey from a strong-willed teenager to a queen responsible for the lives of two kingdoms was truly an experience that would stay with me. Fare thee well, Zwaantie, Sage, Leo and the rest of Stella and Sol. I am sure, I will visit you again.

Thank you again, Kimberly Loth, for this wonderful story. I am so privileged to have read this great and extraordinary series with strong and beautiful characters. I hope you continue to come up with unique and amazing stories because you definitely have a great talent in creating new worlds of wonder and adventure that bring relief, if not temporary, to this mundane living. Your stories also issue a challenge, just like your characters. A challenge to see life in a different perspective. To see and examine things in another angle to better understand them and in turn accept and learn from them. Your stories are full of real life lessons and scenarios, that is probably why I can mostly relate to your characters. More power to you!

Anger was a thousand times better than grief.

- Kimberly Loth, Queen of the Dawn -

Raewynn says

I must admit, the first few chapters were a bit hard to get into but, once you got through there, the book made

more sense and flowed really well.

It didn't take much to get sucked into the story and being able to associate with the characters.

Definitely worth grabbing hold of.

Well done Kimberly Loth.

Jennifer says

So this book picks up immediately after the first one ends and sufficiently addresses all of the plot points in the series. Once again, it is the world building elements that captured my attention.

I thought the prophecy fulfillment was well done. I have to say, for all they tried to make Leo a little less than a saint by having him not want to trust Zwaantie with his heart after she picked two guys over him, the poor guy really was put through the ringer and stayed the course. Zwaantie has finally grown up and reached her full potential.

What I continue to struggle with is was the entire series is if this is Leo and Zwaantie love story, it felt like there had to be some other way to get to where they needed to be other than to introduce Ari, have him and Zwaantie fall in love and then kill him so Leo could get the girl. It knocks my rating down a star. If the series is the journey of Zwaantie from a spoiled princess to a mature queen, Kimberly nailed it.
