Reed can have any girl he wants--except the one who seems determined to make his professional life as difficult as possible. Sara's been the number one paranormal researcher in their department for years, and she's not one to let a lack of magical aptitude keep her from the top.

With Halloween drawing near Sara has one goal: to win the Montera Award and with it the chance to explore the town's most haunted mansion. The one thing she didn't count on was having to share the honor with her chief rival. Reed's not just the strongest medium in town, but the star of some of her guiltiest fantasies--fantasies where she doesn't always stay on top.

Giving in might be the best sex of their lives, but sexual magic is potent enough to wake the true inhabitants of Villa Montera. Caught in the middle of a centuries long rivalry, Sara and Reed's only hope for surviving the night is to make love, not war.

i liked this - a nice, short, hot read.

Sara and Reed are colleagues and competitors, sent together to spend the night in a haunted house. while there they start actually talking to each other instead of just sniping, and admit they like each other. things get hot - which is when the ghosts show up.

This book really had no relation to the first *Carnal Powers* book which is a pity since I really liked those crazy supernaturals. However, it did have a hot, powerful medium and a saucy, intellectual, almost magically-nil professor who are investigating a haunted house. Not bad, by any means. I was just hoping to get more face time with Lars, Claire, Kiara and Adrian.

So apparently this was part of a series....I did not know that! It was pretty good story but I didn't like how short it was- 20 pages! laaame!

Great example of an erotic paranormal romance short story that actually mostly *works*. I have a hard time with shorts and so-called novellas because they so frequently are rushed, sloppy, and unbelievable. Ms. Rogers manages to dodge all those points and plops the reader into a contemporary-magic universe that makes sense from the get-go without a ton of backstory or exposition. The chemistry between the main characters pretty much crackles from the start, with lots of great and believable snarky dialog (both internal and external), and an easy, quick view of their individual hang-ups that serve as relationship-obstacles. Honestly, for the most part, the way *Some Like It Haunted* is crafted is just damned respectable. Not to mention the smut is super-hot without being ridiculously trite.

My only qualm with this story, and the reason I knocked off a star, was that it ended kind of abruptly. The paranormal elements weren't completely resolved, and I wanted them to be, since those were so integral in

bringing the characters together in the first place.

Still, I'm super-picky about short stories / novellas, so when I actually like one, I have to tip my hat.

Sara Patel tried to please her dad and he tested her over and over with every kind of test to see if she was magical, and when she failed every test, he left her when she was fifteen. All she wanted was his love but the big VP of Recruitment For Paranormal and he sucked up to her competition and hardly glanced her way! One morning her car failed to start and instead of viewing it as an omen, she called a taxi. In front of her class her student practiced her magic but it caught fire to her favorite scarf wrapped around her neck. She feared it would spread to her hair, but then a student channeled the water she kept in a bucket and drenched her a second after the scarf fell to the floor leaving her soaking wet, just when she thought her day couldn't get any worse; there stood her competition for the Montera Grant standing in her doorway looking at her soaked blouse.....

Reed Mercier knew he had to work twice as hard as Sara just to keep up. He wanted that grant to show the school and the world of his ability as a medium, he just needed to stay Halloween night at Villa Montera and coaxed an almost two centuries old ghost out of hiding so that he could write his own ticket to fame.....

I was a little disappointed that this didn't take off somewhere in the neighborhood of Last Hope (what can I say? I'm a series 'ho!) but other than being stand-alone when I kinda expected a continuation, I have no complaints about SLIH...except, maybe the length? *g*

Seriously though, I liked it: Short, to the point and hot.
