Book two of the Mysterious Devices series of clockwork cozies set in the Magnificent Devices world!

Daisy Linden and her sister Frederica arrive by airship in Santa Fe, capital of the Texican Territories, determined to search for their missing father. But two surprises await them--the authorities' baffling refusal to help, and a not-so-chance meeting with snake-oil salesman William Barnicott.

To their joy, the Lindens find that their father has indeed been seen in Santa Fe. To their horror, it was an assignation with a cancan dancer in the dead of night. Now the dancer is missing--and their father seems to be the only suspect. There is nothing for it--Daisy and Freddie must find the girl, for only she can clear his name, and tell them where he might be now.

But there are forces arrayed against them in Santa Fe ... men in the shadows who have bet too much on a dancer's disappearance to let two young ladies interfere and raise the stakes ...

"Shelley Adina adds murder to her steampunk world for a mysteriously delicious brew! You'll love watching her intrepid heroine (and unexpected friends) bring justice to the Wild West while pursuing a quest of her own." —Victoria Thompson, bestselling author of *Murder in the Bowery*, on *The Bride Wore Constant White*

## **Magnificent Devices**

I love the Magnificent Devices books. This spin off is as good as the original series. I can't wait to read the next one.

Good follow up to the first volume, nicely written & nice characters. Again the Steampunk elements are light, primarily the means of travel. I'd like to stay a while in this version of Santa Fe, but it seems we'll be up and traveling, and if the concluding chapter is a foreshadowing, we'll move about with each book.

## **Alluring**

Can't tell you how much I enjoy this series. The only drawback, is the waiting for the next "installment"! Love the characters, the devices, the ingenuity and the drama. They never disappoint.

In the 2nd book of the new series our heroines have made it to Santa Fe but aren't having luck finding their father. The Texican Rangers are particularly unhelpful and after their last dealings with them, the girls look for other avenues of assistance. The clues they find involve them in the theater and unscrupulous men...and possible murder of a school friend who was the last person who has spoken to their father. We meet again with the Navapai, and their amazing mecaballo, but also with a new friend from the theater and a rancher running for mayor who is searching for his missing fiancée. Will the girls get any closer to finding their father or lose their lives?
