This started out so good. It went downhill at 62%

The hero pretty much lost all my love and respect for him at that point. I won't tell you what he did but I'm pretty sure you can figure it out.

I'm so disappointed because I loved Love Show by this author.

The writing was amazing. I won't deny that. But I felt like there were SO many things happening all at once, piling up on each other. The story focused on the secondary characters, rather than the MCs.

January cried too much. I felt like Christian didn't care about her enough. I didn't feel like he really loved her.

I loved the banter between the characters. It was funny. But that's just not enough for me. It wasn't okay what he did at 62%. They never talked about it. It was just swept under the rug. I was too invested for him to do that, ya know? I mean if he did that at, say, 25%...that's fine. But he did it and he didn't feel any guilt or remorse whatsoever. Not cool, buddy.

This was a 4.5 star read for me. To be honest I was a little bit nervous about starting this. I love Audrey Bell. Carry Your Heart was a wonderful book. I loved how she was able to write a story about new adults that isn't stereotypical or dealing with the same old/same old plotline. Love Show is and will always be one of my most favorite books ever. It was humorous, heart-warming, and beautiful. So as you can see I have very high expectations for Audrey...

My main concern when beginning January was that from the blurb I knew that she was going to be a rich, spoiled girl and I was afraid that the book would be full of first world problems which tend to make me roll my eyes so hard that I fear they will get lodged in the back of my head! 32% in and I was already sure I would not have any trouble connecting with January...

*"Ok, so I have a really, really hard time relating to the uber rich when a book is heavily laden in first world problems... I'm so glad that I'm not having that problem right now. I love how January can be vapid, spoiled, and entitled but she also recognizes & accepts these things & can make fun of herself. She comes off with a great deal of sincerity & dare I say I can actually empathize with her!"*

As the story unfolds you feel an amazing amalgam of feelings sometimes all at once. I really did not like January at times. She was all of those things that I described above. What made her likeable and dare I say loveable was her inner monologue and how real she kept it with herself. She also had a killer sense of humor. At other times your heart just broke for her to be in such a difficult position when she had no part in the making of it and has no way to alleviate it. Her vulnerability and helplessness made her human and went a long way to me being able to empathize with her character. Through the story if nothing else you learn that she is a survivor and far more complex than a girl who used to have money.

Christian is from a typical middle-class family. He has a twin brother and a future ahead of him that is bright and full of fame and fortune as a professional hockey player. One event puts him into a tailspin that you really are not sure how he will navigate through. He is defeated and he harbors a great deal of guilt and self-loathing. He is really just getting by and those who love him and care for him are struggling to find ways to reach him with little success. He is also just as complex as January. At times I hated him and thought he was a jackass of epic proportions, even though I understood. At other times he was just adorable and the nicest guy ever.

I love characters that are dynamic and can provoke so many feelings and emotions from you, sometimes all at once. It is realistic. No one is perfect and those that you love have massive issues and things that you hate about them and/or their character. Yet, you love them anyway! I really enjoyed this one and highly recommend it as it will be going on the list with my favorites. If you haven't read Love Show yet I suggest you pick that one up as well and if you need more reasons why...

## 4.5 Stars

January Cooper has it all. A lovely life, rich parents and a stable full of horses, right?

In reality no one really likes her. They all pretend to be her friends because of her rich daddy but actually they're all just backstabbing bitches. And most of the time January is well aware of that.

To make matters worse her dad has been arrested for securities fraud. And January finds herself without money, a job, and an apartment and she has to deal with all these problems on her own. She can't trust anybody let alone talk.

Christian Cutlass was a really successful college hockey player with plans to go pro. But in one fateful night he had lost more than only his chances for playing hockey. Even after 2 years he still has to deal with the aftermath of this night and also the guilt.

Christian meets January when her life has gone to shit so he provides her a job at his bar. His impression of her in the beginning was not very nice:

One formerly rich bitch with a closet full of gorgeous clothing, a father headed for prison for a long time, a mother who wouldn't speak to her for legal reasons, and a growing crowd of ex-friends who wouldn't speak to her for personal reasons.

but he also thought:

January might have been a brat, but she wasn't fake.  
If anything, she might have been a little bit too honest.

And I agree with him. Sure January acted a little bitchy in the beginning but she was still lovable.

January and Christian have a serious love/hate relationship going on with great banter which I enjoyed a lot but at times I was like:

I also enjoyed their dialogues. Actually I enjoyed all dialogues in this book. *I was always entertained and never bored.* The only flaw for me in this story was the steam factor. It could have been higher.

But I still loved this story a lot because it has low angst and drama and really lovable MCs.

I think people who enjoyed Love Show will definitely enjoy this story too.

## **Zizz says**

I think it is sad that in this day and age of instant gratification, we tend to overlook the refreshing voice that this author possesses but instead focus on books that gives us the most feels. The darker/the more sensational and intense the storyline/ the smuttier/the angstier/the more controversial - the better.

I read Love Show earlier the year and fell in love with it. In my review I said this... *When the story-telling is this well-executed, a book does not need all that gimmickry to hook you in.*

**The Fall of January Cooper is the second book of Miss Bell that I've read and the second time around, she proves that she is no one-trick pony. She is indeed a unique voice in this tired old NA genre saturated with alpha-males, instant-love, tortured souls and roller-coaster plots. Miss Bell does not rely on convoluted plot developments to suck you in but instead she carefully crafts characters with so much layers, depth, dimension and growth. And she lets these characters drive the story. The plot is never complex but it flows. It is realistic/ very much believable and any plot and character developments are organic.**

Audrey Bell dedicated this book to Tammara Webber who encouraged her to write more. And indeed if you are looking for peers as far as talent for engaging and smart story-telling is concerned, you need not look further than Miss Webber herself and Colleen Hoover.

January Cooper's glorious life has gone to shit.

*"January Cooper. Remember her? She used to be beautiful. You used to want to know her. You used to think she had the loveliest life. Remember that, people?"*

*Yes. Of course they remembered that. That was why they avoided me and ignored me. Because with my lovely life and my perfect parents and my stable full of horses, I had been an unforgiving bitch.*

*I never thought I would fall.*

*Not like this.*

*Not so hard.*

*Not in a way that every person I had written off and wronged could exact their revenge—and everyone else, people who didn't know me but hated me anyways could feel like they got theirs too."*

And so January Cooper fell. And she fell hard.

*"People hated me before. Now they could make fun of me.*

*It was going to be hell.*

*I'd thrown loads of nice parties, given lots of expensive gifts, and when it came down to it, I didn't have anyone to call who I trusted. I didn't really believe anybody liked anything about me except for the fact that my dad had a lot of money.*

*And now the only thing I ever had to offer was gone and I was screwed."*

But then she also fell in another way. She fell in love. And suddenly, she felt safe. She felt like she stopped her free-fall.

The problem was she fell for Cristian Cutlass. He was likewise on top of the world before a double tragedy broke him two years ago. Now he considers himself a fuck up and refuses to care for anything or anyone.

Yet, Christian liked January even in her humbled state. Despite her being a spoiled brat and a hot mess.

And despite his reluctance, January proved to be an unstoppable force. *She was like everything. Like the center of everything.*

So I loved Love Show above this book but loved the heroine here more. If that confuses you, just read both books. They're both well worth your money and time.

Miss Bell, please keep writing. I am a big fan!

??? 4 January Stars???

When the world has turned its back on you, you have two options: give up or start over again. For some, starting over again means failure but In the Fall of January Cooper by Audrey Bell, starting over again means a fresh new beginning. It is a reminder that we get to restart and make things right. The bonds of family and friendship are tested when faced with life, death, money, love, and guilt. In the Fall of January Cooper, maybe its not the fall that's scary but trusting the person you least expected to catch your fall.

Christian Cutlass was a rising collegiate hockey star who was offered an NHL draft but turned it down to finish college and win a collegiate hockey championship with his twin, Sam. One fatal night, lives were shattered and destroyed forever changing Christian. Haunted with memories and guilt, he is left broken and half the man he was. Not only ridden with guilt and remorse, dreams were shattered.

January Cooper had the picture perfect image. Wealth, beauty, and a fiance but that all came crashing down on her. In a blink of an eye, her fiance turns out to be a cheater and druggie. When January couldn't think anything else could be worse than having her ex-fiance scandal break loose, all hell breaks loose when her family is being accused of a Ponzi scheme. Humiliated, broke, and no real friends, January is forced to turn in her Louboutins for sneakers and get a job. For the first time, January is faced with the ugly truth that the world has turned its back on her and she is alone. But that all changes when she meets Christian.

Down on her luck, Christian helps January get a job at the bar that he works at. Circumstances of fate threw these two broken individuals to latch onto each other. When only gloom surrounded Christian and January, they found hope, friendship and peace within each other. For the first time, the fall of January Cooper was worth it when there is someone to catch you.

The Fall of January Cooper by Audrey Bell is one of those reads that reminds us all that challenges and hardship can make you a stronger person. Life is about moving forward and starting over and second chances is one of the greatest gifts offered to us.

Love Show, the first book I read by this author was mind-blowing, earth-shattering "good" for me. Compared to that, this book was right up there - until the 60% mark. What happened then wasn't even that big of a deal (in the eyes of some), but I was royally ticked off.

January Cooper's life turns superfuckingshitty in a matter of moments, and it is apparent that the whole world is out, and conspiring against her. Saying they have a vendetta against her is not even a hyperbole, that's how much her life sucks - it basically plummets a billion feet underground after being up in the skies forever. But, she is a tough nut, and she somehow survives. She's one of my favorite heroines, no doubt about that. She was strong throughout, and she maintained a facade, however false it was.

Christian. I feel like using his name as a swear word now. This guy, I fucking loved him in the beginning. I had my fingers crossed that they'd get together, and get married, and I could be the imaginary maid of honor; that's how much I loved him. And then something happens, something he only had a small amount of control over, as he was basically a pawn in the grand scheme of things, but I can't *not* hold it against him. So I do hold it against him. Big fucking time.

Overall, I quite liked the book, but I won't be going back to read it, like I am itching to do Love Show. My opinion might change after I sleep on it, and read others' stellar reviews, but I doubt that.

PS: I demand a proper epilogue novella. Seriously, my need for them hasn't waned. (view spoiler)

## **Hanne says**

January Cooper is a rich, spoiled brat. She's enjoying college life. January's life is turned upside down when her dad gets arrested. The money, the freedom to do whatever you want, the big house and the fancy clothes are all gone. January lost everything and she's alone. Her dad is in jail and she can't contact her mom. Her friends aren't the friends she expected them to be.

January needs a job and she will become a bartender at a local and popular bar. Christian also works as a bartender there. He's attracted to January, but he sees her as the rich brat. They try to avoid each other, but they need to work together. When January needs help, Christian is there for her and this brings them very close to each other.

I liked Christian and January. Christian is damaged, closed off, hardworking and caring. He had a promising future in hockey, until something tragic happened. He tries hard to be the old player again. January is lost and feisty. Her life isn't what she always thought it was. She can't believe what is happening to her, but she tries hard to make her life better again. She works hard.

I thought I would love this novel more than I did, since I really liked another book by this author. I loved how this book started. I wanted to know more about Christian after the first chapter. I liked the banter. There was always some attraction between January and Christian, but they only become a couple near the end. I didn't like all the push and pull, them ignoring each other or the flirting with someone else. I sometimes wondered how January and Christian would end up together. I wished the last 40% happened sooner.

### **4.5 -Christian and January - Stars**

January Cooper is a rich, pretty, socialite from Texas.

She is currently attending Harvard University and has just broken up with her cheating fiancé.

She hopes to move on after that scandal but then gets caught up in her father being arrested for securities fraud.

She meets Christian Cutless one night at the bar where he works. He is a disgruntled former hockey player who's leg is messed up from a wreck he had where his twin brother died.

They meet and they have an attraction to each other but for some reason they also have a mutual dislike.

But Christian is a good guy and helps January out in a bad situation.

January is embarrassed by the state of her life.

Eventually their relationship grows over time and they provide strength for each other in tough times. January doesn't think she deserves someone like Christian though.

I loved seeing how the story of the two of them together developed.

**"Then go to a BC party. Catholic girls like a good hate fuck."**

OMG... If I could give this book more than five stars I would! **The Fall of January Cooper is by far the best book of 2014 for me. A MUST READ!** Audrey Bell has won me over- And I'm not an easy one to win over either. I LOVED this book to pieces.

**"Well your judgmental. And you talk too much, "I said. "I found you much more attractive when you had the strong, silent thing going."**

**"You find me attractive?"**

**"Found. Past tense. Your personality is abrasive. And I hate your shoes."**

Christian and January come from opposite sides of the tracks, but both are suffering. They meet by chance and don't exactly hit it off. What's great about them is that they aren't afraid to say what's on their mind, either of them. The love/hate relationship was almost too good to be true. The witty banter between each other was off the charts! It's usually one sided, like both aren't allowed to be brash, but not here. I don't think

I have ever highlighted so much on my kindle before. I laughed, I ached, I felt for them and connected to them. But they gave it to back each other 110% and that to me is what I love the most. She can dish it, and Christian can return it.

**I glared. "Listen, you've been on my case all night. I might suck at bartending, but there is nothing wrong with the way I eat pizza."**

**He just laughed. "Oh, yes, there is."**

**"Why because I use a fork?"**

**"Yes."**

**"Well, my feet hurt, my confidence has been destroyed, and I am covered in gin. So if you don't like how I eat pizza, I'm sorry, but I just don't have any fucks left to give."**

**He was laughing again.**

**"Shut the fuck up," I said.**

**So much for handling him trying to get under my skin.**

**"You have no idea what you're doing. Where'd they teach you how to eat pizza? Finishing school?**

**Pick it up. How do you not know this?"**

**"That's unsanitary."**

**"Like hell it is. It's pizza. It's how it's designed."**

**I glared at him, crumpling up a napkin in one hand. "I have had enough of your harassment. I'm exhausted. I'm covered in cheap gin, and I'm not going to contract meningitis B from pizza with my grubby little hands."**

**He half-choked on the pizza he was eating as he dissolved into a fit of laughter.**

**"I'm only doing this so you shut up. I don't think I've ever hated anything as much as the sound of your voice. And if I get sick it's your fault."**

January isn't your typical New Adult heroine lead...

**"She has a reputation for being ruthless."**

She's no timid virgin that's going to tame the bad boy. January Cooper, the strong, feisty little that she is has to be my favorite heroine to date. A bit pretentious, but I liked that about her. She comes from a wealthy family where she is handed everything. She's brilliant and doesn't miss a beat. She attends Harvard, but unfortunately becomes stuck in the crossfire of her fathers Ponzi scheme. Everything is gone in the blink of an eye. Luckily she's a go getter with a lot of confidence, so she does what she needs to get by when she is left all alone. But even the strong can break...

Christian....oh I loved him so much.

**"She looked like a butterfly caught in a rainstorm with nowhere to land."**

Then he would say, **"She was curled up like a little rodent."**

A former hockey player who suffered a great loss at his young age. Add in a relentless father who wanted nothing but the best for his son, there is no way not to feel for him. His story hurt to read, his emotions were running rapid through me the entire time. Even when he was being selfless, he was still suffering inside while dishing it out with January.

Now I need to read every book Audrey has written, because I loved every minute of this read so I can only imagine how great her other books will be. Her writing is effortless, it flows perfectly. Not only is the plot

refreshing and different, but the characters are BY FAR the best I've read in a long time! I expected such a different read. It was nothing that I thought it would be, but everything I had hoped for. I can't think of one thing to complain about. All I have to say is give it a chance!

**Needless to say, I am completely and thoroughly in love with The Fall of January Cooper. And with Audrey Bell.**

**This book has the BEST lines EVER! See for yourself:**

"And by the way, your shrubbery is the tackiest thing I've ever seen."

"You just get less attractive with every syllable," I whispered for dramatic effect. "It's horrifying."

"Your super looks like a sex offender."

"Like all athletes who got arrested, he apparently had a library of dick pics he's sent to various strippers."

"You're seriously going to give him a blow job while he watched Spongebob?"

"Do you know if our school has cooking classes?"

Clarissa nodded. "Yeah, chemistry."

"What?"

"Chemistry is like cooking."

"I'm not talking about meth, okay I'm talking about cupcakes and muffins."

"Well, I'm capable of communicating your concern."

"You'll communicate my concern? That's great. Communicate my rage, too, while you're at it. Okay?"

"January, try to maintain your equilibrium."

Maybe that was better than stay calm.

## **BookLover says**

My first impressions of January... someone who is just going through the motions. Doing things and choosing people in her life because it is expected of her or to buck against the norm in her life. I really wanted to dislike her. In fact, in the beginning, I found myself rolling my eyes to how clueless she seemed to be. She had no idea how shallow the relationships in her life were. But there was so much more to her and I really liked how it emerged.

January had a very dry sense of humour and wit about her. I loved all of the interactions with her roommate/ex-best friend and cheating ex-boyfriend.

**“I'm surprised you just didn't check into a hotel. I thought you said you would rather**

**spend a night in Guantanamo Bay than sleep in the same room as me again."**

**"Let's not exaggerate."**

**"I'm not. That's what you said."**

**"Mm...you've always had a terrible memory, Katelyn. Like the time you completely forgot that I was dating the guy you were sleeping with."**

**"I'm working on my thesis," they both said.**

**"Neither of you are writing a thesis."**

**"It's on anthropology," Katelyn said. "I just decided."**

**"Wow. All of anthropology. That's ambitious. Crazy that every time I see you, you're watching cartoons,"**

January was also very pragmatic in her thinking. When a family scandal leaves her isolated and without money, she is able to survive with her head held high, with a few minor drunken blips along the way. Her true character really emerges for the reader as she faces these challenges.

Christian was a great match for January. He comes with his own baggage in the form of misplaced guilt. Their banter and reluctant friendship was fantastic to read as it unfolded.

**"You know what? Let's just be quiet. Totally silent."**

**I smirked. "That could be dangerous. I might be totally in love with you by the time we get to the airport, and then you'll start talking and break my heart all over again."**

**He turned and looked at me. "Well, I'd hate to see that happen."**

**"Not as much as I would."**

**"How about being quiet?"**

**"Yeah, sure. You take the lead."**

Enjoyable read!!

### 3,5 Falling Stars.

January used to have everything: money, status, looks, friends... until the day her father is arrested by fiscal fraud and that everything starts to fall apart.

And just like her father's money, everything in her life was also a fraud: her family, her friends, her life. Starting fresh in a new place she walks into Christian's bar. And another fall starts.

Christian also lost everything once. And he still is haunted by it.

He locked himself so he doesn't have to feel or dwell in the past, but somehow January wakes up something in him. At first they don't really like each other, they're too different. But as everything starts to change, they will realize that sometimes opposites do attract.

**Rating:** 3,5 Stars

**Storyline:** A sweet NA story, quick to read and entertaining, but lacked some spark, especially between the MC's. Some things seemed a little rushed and left in the open, so I would like to read a second instalment.

**Writing Style:** First person, dual POV. Good and engaging writing, but the dialogues seemed sometimes forced.

**Character Development:** January was good but several times annoying and spoiled. But her sincerity and vulnerability made her easier to like. Christian was another case, he was for several times an asshole, but when he was sweet he was pretty good.

**Steam:** Some heated scenes.

Christian Cutlass was the first draft pick after his freshman year of college hockey. One Halloween night changed everything. He lost his brother and any hope he had at playing in NHL.

I know what you are thinking...

And you are completely wrong...this story had me laughing my ass off. I loved January's personality. Despite the fact she wasn't always trying to be funny, it was just her and I loved it.

January's will and determination was awesome. When shit hits the fan you can go one or two ways and I was impressed with the choices she made.

I really enjoyed this book, but I think I could have easily loved it. The banter that was fun and cute in beginning but began to wear on me towards the end. The middle of the book felt slow and then ending felt rushed. I am not sure if there will be other books and that's why it was left open, but this couple did get their (view spoiler)

#### 4.5--**Fallen**--Stars!!

"I never thought I would fall.  
Not like this.  
Not so hard."

#### **January Cooper:**

Rich, stuck-up, snarky bitch...set to marry Tyler Snow, NASCAR wannabe when she discovers he's a cheating druggie. Flees her hometown of Dallas...back to Boston and Harvard University, only to discover her dad's been arrested for securities fraud.

January finds herself friendless, jobless, and homeless.

"I'd been fucked ever since the big revelation. Now my life was like a Greek tragedy. Or a comedy, if I was being totally serious. There were a lot of people who had enjoyed this fall--my fall--because it was nice to see someone lose everything."

#### **Christian Cutlass:**

Arrogant, ass, manwhore, star hockey player....lost everything in one night. His purpose, his drive. Left with mountains of guilt and twisted in more ways than you can imagine.

#### **January and Christian:**

Christian and January meet when January comes in to the bar where Christian works. She's at a low point in her life, but Christian is too. Christian helps her.

Christian didn't want to like January. Christian didn't have room for love or even like in his life. Resolved to never move on. To live with the pain and the guilt of his past. But January had that type of personality that made people fall and fall hard.

"January Cooper. One unsolvable problem.  
And Sam Cutlass. One fucking life-shattering tragedy.  
Side by side. Wrapped up in my brain like a fucked-up little paradox."

Christian and January had this awesome love/hate thing going on.

I loved how January was so honest. She said what she felt. She was abrasive. Maybe a little crazy. But she was real. A real, girl with real problems.

Once again, Audrey Bell brings the humor and the banter that I fell in love with in Love Show. I can't tell you how many times I LOL at January and Christian.

I literally devoured Christian and January's journey. Trying to move on from the tragedy of their past and present. How they slowly went from loathing each other, to liking each other, to eventually loving each other. How they gave as good as they got. How they both fell but found their way back up together.

There was virtually no sex in this book--shocking, I know that, that I still loved it. What was there was not very detailed. Granted it was a slow build between Christian and January so it also wouldn't have been fitting.

I thought the ending was maybe a tad rushed. But it honestly didn't take away from the story for me. The ending was more HFN. Left things open for maybe other characters to get books. I was in no way unsatisfied with the ending.

This was another fantastic read from Audrey Bell and I definitely recommend this one!
