**The Academy Killer Returns**

The Academy is in mourning after students and instructors alike have been murdered in its halls, but the killer is now far away across the nine kingdoms—or so they believe.

When Ebon learns of a new threat within the Academy, he and his friends must work quickly to stop it—for if anyone knows the terrible secret they conceal, they could all be put to death.

As the school's danger looms, and Ebon faces increasing suspicion from the new Dean, he must infiltrate the family Yerrin and learn a dark truth if he hopes to survive.

**The pulse-pounding conclusion to the first Academy Journals trilogy will keep you up through the night to the very last page.**

### Secrets revealed

The search for Isra continues, bringing new challenges and danger for Ebon, Kalem, and Theren. The book is full of twists and turns. The ending brings one of the biggest surprises of the series so far.

An amazing conclusion to the Academy Journals! I hope to see more of Ebon and his friends in future books as I have grown fond of them. They are brave and likeable. I cannot wait to read Garrett Robinson's next offering in this world! I definitely recommend this book!

A new and even more gripping episode in this epic fantasy about Ebon and the Academy.

Dilemmas abound, both moral and physical, many questions are answered and the danger is as enthralling as the previous books.

The outcome was inevitable in a way, though it was a shock that it happened so soon. However, the epilogue, now that was a real sucker punch! I sat and thought that I should have seen it coming but I didn't. Talk about a sting in the tail!

\*This was an ARC, my opinions are my own.\*

This book is well written. I found no errors of any kind. It is fast moving, the characters well thought out in all aspects. The story picks up

almost direct from the last. They can be I would think that they can be read as stand alone, but yet not out of order, as characters develop and change, grow, mature through the series.

I am going to guess that we are going to continue to be thrilled and awed by this author and his splendid story line.

I received a free copy of this book and voluntarily chose to review it.

I liked the series. But they had a big flaw, I could always predict what was going to happen next. I felt the heros were always slow to catch up with everything.

Robinson continues to deliver a mix of political intrigue, engaging characters, and gritty fantasy.

This book is the third in the Academy Journals series. This review aims to avoid spoilers of previous volumes where possible, but does contain both explicit references and evidence to support further inferences.

With Isra, the rogue mindmage and murderer, apparently fled, Ebon and the rest of the Academy struggle to rebuild lives of study. However, the Dean's son is still missing and dark deeds still plague the Seat. Ebon and his friends are certain Isra is involved; but with each search turning up no evidence of her presence, others (the Dean among them) wonder if Ebon's insistence is a cover for his own guilt.

Readers of previous volumes in the Academy Journals series will find more of the same, turned up slightly: more magic; more moral dilemmas; more hints of a vast, vibrant world beyond the characters' narrow focus.

As the third in a character-focused series filled with ongoing mysteries, this book might be less accessible to readers unfamiliar with the previous novels. However, Robinson continues his skilled balance of reprise and new plot, giving the reader enough to see events and choices as plausible if not to understand every nuance.

Where previous volumes were about paranoia and unfair distrust, this novel focuses more on committing one evil to avoid a greater. Having used proscribed magic at the end of the previous volume, Ebon and his friends are no longer ethically pure. Thus, while the specific accusations that they are involved in the Academy Killings are false, Xain's suspicion that they have committed crimes are not.

Readers familiar with the Nightblade arc are likely to find especial depth in certain aspects and consequences of Ebon facing investigation from Xain for illegal magic.

This thread of magical crime is paralleled by a physical one. If Ebon doesn't obey Mako, the hidden conspiracy might kill them both; but if he does, he (and his friends) risk being drawn deeper into a world of expediency and family loyalty.

In addition to this external tension of being both guilty and innocent, each of the friends is torn between doing what seems needed to uncover Isra, concealing past crimes but committing no more, and accepting the consequences of even those. As each character both has different perspectives and reacts differently to events, this produces a shifting web of recriminations and recommitments.

And, as the novel progresses, these threads weave tighter and tighter, leaving Ebon with only a choice between who he betrays, and who he risks.

Overall, I enjoyed this book greatly. I recommend it to readers seeking a fast-paced fantasy focused on character.

I received an advanced copy from the publisher in exchange for a fair review.

The third book in the Academy Journals.

Our heroes get blamed for a crime they're trying to solve and the wonderful crazyness of magestones feature in this story again. They end up intertwined with another character from the first few books in the Underrealm series which I'd recommend reading first before these books.

We get taken on a darker journey through characters recovering from the mental attacks they've been experiencing and someone you don't expect helping the menace of this story.

I've loved all the Underrealm books so far and this is no exception! Please keep bringing these characters to life and bring on the Necromancer!
