## 2 Days 'Til Sundae Heather Muzik

Cat is single, sexy, saucy, and perhaps a smidge too sentimental....

At thirty-four, Catherine Hemmings has it all—a New York City walk-up that’s relatively free of crime and steps away from a great slice of pizza, credit card balances with the full closet and finance charges to match, still-happily-married parents with a screw loose, a younger brother with more years of marriage experience under his belt than she has continuous dating time, and friends hell-bent on setting her up with anyone but her type of guy....

What more could a girl want? ... A sundae.

A favorite childhood treasure, an online auction, a woman on the edge—this is all-out war. When her bid is eclipsed in the final seconds, Catherine refuses to accept defeat. Her mission is simple: a well-planned, perfectly executed, two-day trip to reclaim what should be hers.

What could possibly go wrong?

Follow Cat on a chick-lit style comic romp to the “wilds” of Minnesota, where she might get what she’s after, or she might just get more than she bargained for....

## From Reader Review 2 Days 'Til Sundae for online ebook

### Jessica Wirth says

What a fun read! I'm not quite sure what I was expecting, but this was great. When I read the back I wasn't sure how the premise was going to create a strong story, but it totally works. If you're looking for something quick, light and easy, and laugh out loud funny - then give this a try for sure!

---

### Melankalia says

I was pleasantly surprised by this book which I received as part of the Goodreads giveaways promotion. Catherine's search was much more personal and poignant than I ever expected it would be, and that made for an interesting read.

However, I do have to say that the ending really let me down. All of that running around in the middle of the book (some of which really dragged on and on) just to finish up with one kiss and then suddenly it was the next morning??? Now, I realize that this is not meant to be a romance novel, but still. That seems like a big cop out to me. I honestly felt a bit cheated by the abrupt ending, kind of like getting into a really good used book and suddenly finding a bunch of key pages have been torn out.

All in all, it was a decent read. In my opinion, with a bit more fleshing out and editing, it could've been *very* good. I will definitely keep an eye out for what this author comes up with next.

---

### Brittany Jackson says

While slow to start, this book gave way to several laughs! I thoroughly enjoyed this book and hope to see more from the Muzik.

---

### Melissa says

When was the last time this mother of two young kids read a book until 5:37 am?! I admit there were parts I totally skimmed/skipped, but I thoroughly enjoyed this light read. It was less sexy than I expected (a plus), and at one point moved me to tears, but mostly had me seriously laughing out loud!! Suspend your disbelief and giggle like a schoolgirl, my friends!!

---

### Gaele says

Honestly the first line of the blurb closely summarizes my feelings about the book: this is a fun, slightly sentimental, slightly saucy story that focuses on family, friendship and the little moments that are shared with those you love.

A bit slow in the start, with several scenes that didn't always seem to find a common thread, Cat is an engaging and enjoyable character: rather fractured and often overanalyzing her own life, like we all do. Fortunately, her sense of humor and ability to laugh at the repeated absurdities that we all encounter keep the story moving forward and entertaining.

Romance is also a highlight, with moments that use humor and the really silly things we all do in relationships taking a forward position to graphic sex and overwhelming angst. No particular great conflicts in this story, it is a fun and breezy uncomplicated read that entertains yet doesn't require a great deal of effort from the reader. While Cat is truly the best developed character, the secondary characters all exhibit traits and quirks that will be familiar to many readers, adding another layer of depth to the story while maintaining a level of comfort for the reader.

I received an eBook from the author for purpose of honest review with Tasty Book Tours. I was not compensated for this review: all conclusions are my own responsibility.

### **Pam says**

Cat goes to visit her parents to pick up some of her childhood stuff and finds out her old toys were sold years ago. Being thirty- four years old her mom, family and friends are pushing wondering when she will get married. For reasons unknown even to her she just has to get her toys back. She tracks down one old toy that has special meaning to her and decides to go on a journey to find it. She finds herself in some funny situations along the way and even meets a man who will not deal with her. When her friends show up it just gets worse from asking why she is looking for the toy to trying to push her and Fynn together. Things just seem to keep happening to her and the hunt may turn out to be the best thing ever for her.

I love this book. I got several laughs all through the book. From crazy cars, to a crazy dog, to wardrobe malfunctions Cat has all kinds of love. I love how she goes about looking for her childhood toy as I have done the same thing a few times. Not flying all over the place for one but bidding one up and stalking the sale. She is a great character with a wonderful family even if they don't understand her at times. Fynn at first I thought was going to be a jerk but to give him credit Cat seemed like a crazy woman. He actually got my heart when I heard what he had planned. I would tell anyone to pick this book up. The people seem like real people and are very believable. I love how the author wrote about all of them and the plot is a good one. It really is a book about a woman's journey remembering her past and learning to let go and maybe finding something for her future.

### **Stephanie Haefner says**

I really like this book...so much so that I stayed up til 1 am to finish it, then right away bought the sequel and started that. :) Plus the mini cliffhanger at the end left me needing to know what happened next.

The book was good. The main character was funny and it she got herself into a lot of trouble. And the things

that happened to her were hilarious! I really loved the guy....kinda gruff, but oh so sexy. :)

---

### **Dawn Cook says**

This was a great book couldn't put it down. The poor girl could anything else have gone wrong on her trip? What great friends and the perfect ending.

---

### **Cayla says**

I downloaded the trilogy last night because the synopsis sounded really good! While some parts are funny, I'm not a fan of the cussing or drinking. (Please note: this was never advertised as a "clean read" or anything.)

Now that I've read it, the plot itself is good, a little weak in my opinion, but it has potential. Catherine is young, single, and desperate to hang on to a piece of her childhood. Many people wouldn't think twice about calling her "nuts," but the thing is, she's sentimental for the right reasons: she lost someone she loved as a young child and it followed her into adulthood. This piece of her childhood is one of her last connections to this dead person. If she doesn't get it back, it's like losing her all over again.

Would I read it again? Probably not. But I enjoyed the few laughs!

---

### **M.G. Wells says**

FUN FUN FUN!

I enjoyed this book very much. The main character Catherine Marie is a bit wacky and totally likeable. There are many LAUGH OUT LOUD moments. This gal manages to get herself in the most hysterical situations too. Catherine is also the kindest of friends one could have.

2 DAYS 'TIL SUNDAY is lighthearted, romantic and filled with quirky and memorable characters. I recommend to all you chick lit fans and those who need a fun read. I was delighted how much I related to the scenarios and just love Catherine. I look forward to reading Volume #2.

---

### **Kristie Worrell says**

Certainly not what I expected. What I thought of "chick lit" has been flushed. I was expecting sexy scenes, not giggles in the bedroom. I loved it! I thought it was a quick and easy read. Part of the story is based on an eBay deal that never happened. We all know how much I love eBay and I could so relate! Cat is full of emotion that every female reader will relate to and part of a typical, yet dysfunctional family (who can't relate to that??) Also strongly emphasized? Friendship, family connections and love.

A few books I've read recently have been well written but totally predictable, kind of like Sweet Valley High

romances when we were young teenagers (oh, so long ago.) This book? Not so much. Well written and entertaining from the beginning straight through to the end. It is full of laugh out loud moments; I would highly recommend this book.

What did my girls and I do on Friday night, after I had finished this book (while the boys were out with their friends)??? We went out for Sundaes, of course.

---

## **Ruth Pohl says**

Had some funny moments, but the pacing was much too slow.

2 Days 'Til Sundae is book one in the 2 '*Til* series and is a Contemporary Romance written by *Heather Muzik*. I received this eARC from the author in exchange for an honest review through *Tasty Book Tours* .

### **2.5 Struggling Stars!**

#### ***The Review:***

I wanted so much to love this book. The story was refreshing and entertaining and the characters were lively and so much fun! I really enjoyed all the hilarious antics the girls squad got up to and the humiliating situations Catherine always found herself in. The last sixty pages were absolutely enjoyable and is what saved this from being a one star review or a "Did Not Finish" book for me.

My major problem with this read was all the inner monologue, overly descriptive explanations or scenes and all the extra "stuff" that was in each paragraph. I just wanted to get on with the story, to get to the center of the plot and see what happened next. There was so much "explaining" I actually found myself skipping over a lot of the sentences. I felt like I was speed reading through it because I was pulling the important words from each sentence so I could get the gist of the story without being bombarded with all the details.

I would love to see this story condensed down, all the unnecessary details and explanations edited out, put in a few more hilarious situations with the girls, have a few more actual "romantic" encounters with the hero and heroine so the ending "hook up" didn't seem to come from nowhere and then re-released. I think this story could be a five star read instead of the 2.5 stars I'm giving it. I loved the idea. I loved the characters. I loved the situations.

I did not love everything being spelled out or all the descriptive or unnecessary background information that wasn't relevant to the actual story. And I wanted more romance. There's tons of potential here but sadly I felt it was poorly executed.

---

## **Sarah says**

I liked this book well enough. It was a quick-read and funny as well, but I felt that the overall storyline was a bit weak. There wasn't a whole lot that tied all the funny moments together for me. This may have just been because I felt that I couldn't really relate to any of the characters very well. It just seems crazy to go to such ridiculous lengths to find a toy from childhood, but I guess that's fiction for you! Even though I didn't really care all that much for the characters, I still felt embarrassed for Cat with some of the "ordeals" she went through. I also enjoyed the level of the romantic side of the story (no explicit details) which fit well with the book as a whole. I would recommend this book if you are looking for something light and fun to read.

I received this book for free as a first reads giveaway!

---

## **Pauline Tilbe says**

Not a serious book, this is more of a guilty pleasure. It's fun and quirky, the characters are larger than life. At about 80% through it, one scene grabbed me and opened up a long ago memory and gave this story more depth for me. But honestly, on the very first page, it had already spoken to me-Elizabeth Hemmings favorite phrase, repeated through the story, is "life is real, not ideal."

I'd love to say more but I'm off to get 2 Months 'Til Married!!
