A Merman of Her Own Hazel Gower

Dr. Clay Grayson believes he may have found his mate, yet the Merman's entire world comes to a standstill at the knowledge she is human.

Alwen is ecstatic when her father's doctor, and her fantasies' leading man, finally asks her out. However while the chemistry between them is undeniable, there is something strange about Clay that she can't quite put her finger on.

Alone with Alwen, Clay confirms that she is, in fact, his mate. Overcome with the feeling of knowing how lucky he is to have found his mate when so many Merpeople don't, he takes no chances and claims her, binding them together.

When Alwen learns what Clay is, will she accept him and forgive his rash action of mating her without her permission?

SERIES: Merpeople #01

COVER:

The cover is quite nice, though it could have been made a bit more professional. But still, you get a sexy merman with bulging muscles, blue hair and a blue tail on the cover.

WRITING:

I can't really remember, since it's been a while. But, this isn't my first book from Hazel Gower and I never had any problems with her writing. Well after getting used to the aussie accent ^.^

STORY:

Dr. Clay Grayson believes he may have found his mate, yet the Merman's entire world comes to a standstill at the knowledge she is human.

Alwen is ecstatic when her father's doctor, and her fantasies' leading man, finally asks her out. However while the chemistry between them is undeniable, there is something strange about Clay that she can't quite put her finger on.

Alone with Alwen, Clay confirms that she is, in fact, his mate. Overcome with the feeling of knowing how lucky he is to have found his mate when so many Merpeople don't, he takes no chances and claims her, binding them together.

When Alwen learns what Clay is, will she accept him and forgive his rash action of mating her without her permission?

CONCLUSION:

I really liked the idea of the story, since I have a thing for sexy mermen, but there are a few things that bothered me.

1. First of all, it's way too short. The story had so much potential. Don't know if it was meant to be just a short story, but since it's so shot, for me – personally – the whole plot feels rushed. Ok, ok...they met three weeks ago and instantly felt that spark...but come on...

They met, had some hot sex and mated...oh I love you...good, cause I love you too...how wonderful...HEA :(2. The age difference. Clay is 49 and Alwen is 20...so ehm yeah. I know they say "age is just a number", but he could be her father for god's sake. This kind of irked me. The only thing that saved it for me, was that he's a merman and doesn't look his age. With him appearing to be rather 30 than 50, it worked out in my head/ imagination.

3. TOO MUCH "I LOVE YOU". Definitely.

For me, those words are important and should be used wisely and at the perfect moment (at least in the beginning.) and definitely not to often! (long time couples are an exception. They know they love each other and a short kiss on the lips and an "I love you" if one of them leaves the other's side as a goodbye is perfectly fine and kinda cute ^_^)

If the characters have nothing left to say, than to constantly repeat how much they love each other – the story is definitely OVER!

But I'm a huge fan of Hazel Gower and her stories. I love them. Some more- some less.

But I also can proudly admit I got used to the aussie English and the constant "arse" by now. (still sounds funny to me, since I'm no native speaker and grew up with American English).

Finally, it was just too short and quick for me to follow along and I had no time to get a real feeling for the characters. I personally prefer it, when the story develops slowly and the persons start to grow on you like some real friends. But for everyone who's a fan of Hazel Gower and looks for a quick steamy read with a HEA and no cliffhanger...go for it!

Short and sweet. Very cut and dried though. And rather annoying (beginning part, with the conversation between H and his bff about all the other women H has been with; his "type" and how the h isn't it, but hey, she just might be his mate). And after that, it was cookie cutter. Not bad though. Lots of ways to mess that up as well. 3.5 stars

Jessica Gomez says

It was alright. The writing was good. But it lacked life. The sex was fine.

Puna says

It was okay. But one thing I really dislike in some shifter books is that the shifters have any & every possible plus. They don't age, they can't catch any diseases, they have powers, they have magic that hides them from mere humans, they can bind their mate to them, magic that keeps them from leaving or talking the shifter world & etc. This book had it all. Makes the story a bit boring.

Amber says

I so wish that mermen were a real that would be so cool ... this was a cute fast read and hey hot mermen who could ask for more .. I loved both books in this series .. :)

Natalie Kirkland says

Loved this book

Amy Miller says

This was a great start to a new series! I have never had the experience of reading about Merman's/Mermaid's and at first I was hesitant but reading Clay and Alwen's story has changed that for me! Although Clay is older than Alwen I think that they both balance each other out and with his experience and her lack of experience it made for a hotter story!

Jessica Parsons says

I don't think i've ever read a merman story before while the story was short it was a very interesting start for the series, i would of like the story to be longer but i enjoyed it still

Talltree says

Couldn't get past sample..in H's POV talking about all the slim gorgeous blondes he's dated and how he can't get past the h being chubby and thick.. oh and the most recent girl he dated being only 25(H's 50 yrs old), yuck.

A Merman of Her Own is the first book in the Merpeople series by Hazel Gower. I chose this book because while I have read tons of books on shifters I have not read a merpeople shifter book. I was fascinated and wanted to know how this book would turn out.

Dr. Clay Grayson is a medical doctor who at the age of forty nine is still looking of his soul mate. Clay is a shifter and shifts into a merman. He lives on the water and swims every chance he can. He is blown away by the thought of having a human mate because of how rare it is.

Alwen is a young woman at the age of twenty just about to turn twenty one. Alwen meets Clay when her father is in the hospital and survives despite the odds against it. Alwen has dreams of opening her own dance studio helping people of all ages. Alwen comes across as a sweet and caring woman who seems older than her years.

The connection between Alwen and Clay is intense. Its apparent from the beginning that both Clay and Alwen are head over heels in love with other. The sex scenes were blistering.

I found this book is very well written with a very unique plot. The main and secondary characters were fascinating and enthralling. At thirty four pages long, this story had a well-defined beginning, middle and end. The ending of the story was a bit predictable but it was more the ride to the end that was more important. Overall, this was a great book.

Fast paced quick read.

To be honest, I was somewhat disappointed with this read. It's still a sweet read though and certainly doesn't take long to finish.

Rochelle says

This was a fast paced read which was really enjoyable but would have been longer and more detailed. I loved the storyline and the characters but I did find in places it was lacking a bit otherwise I really enjoyed it.

Christine Waters says

This is a nice short read. It was well written and was able to captivate my attention from start to finish. I enjoy Hazel Gower's writing style and find it easy to follow where the plot is going. Hopefully there will be more to this series with other books, as I enjoy reading about mythical creatures.

I Loved this book. The only thing I disliked about it was the length. Everyone knows I love a longer book. Well written with a really good flow. The love scenes were wicked hot. I loved the epilogue it is really nice to have a peek at the happily ever after.
