DADDY'S PRINCESS: A Dark Bad Boy Baby Romance (The Horsemen MC) Sophia Gray

The princess has my c*ck in her mouth and my baby in her belly.

I'd had hundreds of girls before her.

But she'd never had a man – until I came along.

She's never had a lot of things, in fact: no pleasure, no pain...and no baby.

Looks like I'm going to change all that.

I was a walking mistake for a girl like her.

She should have stayed the hell away.

But how could she?

I'm six and a half feet of muscle and steel.

Inky tattoos crawl over my skin like snakes – beckoning, teasing, seducing.

She never had a f*cking choice.

The minute she stepped into that bar, she was mine.

She stuck out like a sore thumb.

A princess in a biker bar?

Sounds like the start of a bad joke.

But this was more like the start of a wicked night.

I took her home, stripped her bare, made her beg for my taste and my seed.

And when she'd said "please" enough, I let her have it.

Over.

And over.

And over again.

When it was done, I expected never to see her again.

Turns out, that was dead wrong.

Victoria wasn't just any girl.

She was royalty – true royalty.

And now she's got a biker's baby in her stomach.

DADDY'S PRINCESS is a full-length, standalone bad boy baby HEIST romance with an HEA, no cheating, and some very hot sex!

SMJC says

Mediocre at best

If you want a book with poorly developed story and characters, then yeah, this is for you.

The H is supposed to be the president of an MC, yet he comes off as weak and a coward. The h is a floor mat, the so called Queen does not even come close to behaving or speaking as one, the King was a pointless character that did not contribute to the story. For some strange reason, the author thought it was necessary to bring up a letter in its entirety over and over again. It's so poorly written that one character is described as far as looks go, and not even that much detail.

There are so many better written books offered in KU that far surpass this book. Oh and not just this one - the additional content is beyond awful. I feel like reviewers in ARC lists are afraid to give honest reviews, because I can't imagine how someone can give this book 5 stars when it is so full of elemental writing flaws.

AlligatorSmith loves to read says

Someone gifted this to me so I tried it. Just not a good read. Editing is okay but story has no depth.

Gina Cihacz says

I voluntarily reviewed this ARC book. Victoria is a real princess who knows what she wants but feels like she cannot get past what her mother the queen says she should be. Matt is a man who feels like his chance at love was stolen away. He does not realize that his first chance at real love has just walked through the door. He will just have to fight for it.

Pat says

Victoria is a real life Princess and she is tired of living under her mother's thumb, not allowed to do anything or go anywhere. While visiting America, Georgia, to be exact Victoria sneaks out and goes to a biker's bar where she meets Matt, who is a member of the Horsemen MC. They hit it off and they go back to Matt's place where they do the deed. When the Queen finds out she is furious because Victoria's parents have already promised her hand in marriage to Gaspard, who Victoria does not want to marry, she wants to be with Matt. When Victoria finds out that she is pregnant her mother is beyond livid and calls her all kinds of names and feels Victoria is ruined. The engagement is called off by the groom, however, that does not deter the Queen, she lines someone else up and Victoria's parents return to their home country leaving Victoria to fly home alone. However, she gets kidnapped and Matt comes to her rescue without her parents knowledge of what happened. Matt wants to marry Victoria, however, Victoria's parents will not give their blessing.

Will Victoria be forced to marry who her parents have chosen or will Matt and Victoria get their HEA?

I voluntarily reviewed an advanced reader copy of this book.

Alan says

A broken bad boy biker meets a real royal princess the light he's been looking for in his life

A princess from a foreign country is touring the state's with her parents the king and queen. Mother the queen lashes out at her daughter constantly strangling her with control and verbal abuse. Until she decides to snick out for some much needed air and a stroll and ending up at a bar down from her hotel that night changes her life forever. 18+

Gigi says

I received this book in return for an honest review.

Victoria is a real princess with a blip of a mother. One night Victoria decides that she is going out. That's how she meets Matt. Matt is a Bad Boy, and a Biker as well. One night together changes both of their lives. I really enjoyed reading this book from start to finish. Thank you to the author for the opportunity to read it!!

Ivey says

This is such horrible writing..NOT WORTH READING!
