Never trust a twin!

I want Ethan, and Chris wants me.

Somehow, I managed to get caught between identical twin brothers at school this fall. Both of them want to date me, so I only have to take my pick. Right?

Wrong! Ethan is reluctant to kiss me, and Chris wants me for the entirely wrong reasons.

Nothing like his obliging and sweet brother, Chris Donovan has trouble written all over him. He changes girls like other guys change t-shirts, and the next trophy on his little list is me. I swear that's never going to happen.

So why the heck did I let him feed me with strawberries when we were alone in his house? I knew I was getting myself into more trouble than I could possibly handle when I did what he said and closed my eyes...

-4.25-

Ich tu mich gerade mit der Bewertung etwas schwer. Zwei Drittel des Buches hatte ich ein Dauergrinsen im Gesicht, weil es einfach unglaublich süß und humorvoll war.

Dann kam für meinen Geschmack etwas zu viel Drama auf für eine letztendlich dann doch relativ einfache Auflösung. Zum ersten Mal in dieser Reihe, hat mir der Epilog nicht so sehr gefallen, wie sonst. Sonst würde da oben wahrscheinlich auch 4,5 stehen.

Ich bin schon sehr gespannt auf die männliche Version der Geschichte, da mir die erfahrungsgemäß etwas besser gefällt. Wobei das wahrscheinlich an den Zusatzinformationen liegt, auf die ich immer so neugierig bin. Mich würde mal interessieren, ob es einen Unterschied machen würde, wenn ich zuerst die männliche und dann die weibliche Sicht kennen würde.

I loved this book. I've read and enjoyed all of the Grover Beach Series, but this one was definitely my favourite.

Susan we've met before, Ethan and Chris were new and wonderful. I loved all the confusions, twists and turns that the plot took, and the fact that Susan didn't see any of it coming.

A romantic teenager who has never been kissed and is watching her family break apart, Susan finds solace in

a new friend. She falls almost immediately for Ethan, and takes an immediate dislike to his twin, Chris. Susan tries to keep Chris at arm's length, but he has other ideas, and pulls out all the stops to get past her image of him as a player.

Susan knocks him back again and again, but how long can she hold out, and why isn't Ethan kissing her?

Dating Trouble is a lovely, sweet, teenage romance. The twins are irresistible, and once it got me hooked, I couldn't put it down. I can't wait to read all about Chris's side of the story when the next book comes out.

#### 5+ Stars!

*“So you want me because you can’t have me?”*

*“Who says I can’t have you?”*

*“I do.”*

*“Oh, okay. So yes, then I definitely want you.”*

**What's it about?** Bookworm, soccer-playing, romantic dreamer Susan meets the delectably good-looking Ethan and after spending hours talking to him after their first meeting, she feels as if she's finally met her soul mate. But then his arrogant, one-track-mind twin brother, Chris, also enters her life and makes her question everything she ever thought she knew she wanted.

**The Best bits:** I absolutely LOVED this book. I'm still gushing and can't get my thoughts together to write a proper review. But Chris and Susan's romance is definitely my favourite in this series!!

First, there's Chris. He was hilarious, cocky, mischievous and devoted. All good things in a YA hero. And so perfectly suited the stubborn and romantic Susan.

Susan was a terrific heroine and perfectly captured the doubts and insecurities of a 17 year old. I loved her spirit, especially when cornered!

Anna Katmore sets up the mistaken identity them brilliantly and creates tension and chemistry between two very strong personalities. And while I totally loved this book, I am almost twirling with glee because I get to read it from HIS point of view next!!!

**The worst bits:** I think the last few chapters were drawn out a little bit, but on the other hand, without that aspect *“the pool room scene”* could not have been as awesome!

**Recommended for:** Absolutely anybody and everybody who enjoys YA romance!!! Fans of mistaken identities, cocky heroes, and fiesty heroines. This is an absolute must-read!

#### Awesome 6 star favourite!!!

"Dating Trouble" by Anna Katmore

5 out of 5 stars

Grover Beach fans rejoice!!! Anna Katmore has taken the beloved series to a whole new level! If you are a diehard fan (like me) or new to this group of characters you will not be disappointed with this new installment!

Susan is a little down on her luck. Everyone is coupled up around her and now, because of an injury, soccer is sidelined as well. Could her life suck anymore? That's what she's asking herself when she meets a cute new guy named Ethan who seems to be everything she's ever wanted in a love interest. It all seems to be going so well until she meets Ethan's twin brother and he sends the butterflies in her stomach on a rampage. Will she listen her head or heart and take a risk on love?

Susan has always been one of my favorite characters in the series. I have always pictured her as the foundation of the group. Even though her head is often in a book, she's the one that grounds everyone else and keeps them together. I was honestly waiting on a book where she and Nick realize that their feelings go beyond friendship, so I was pleasantly surprised with this story. I loved getting to know her on a deeper level. Her interactions with her family are raw and realistic. I felt her frustration with her family drama and her sadness as things escalated. There was a sense of loneliness in her that Katmore managed to bring out so well I wanted to reach through the pages and offer her comfort.

Ethan and Chris are great additions to the group. While identical twins in appearance, they couldn't be more different in personality. Ethan's relationship with Susan is fun and flirty. They have great chemistry and always have a good time together. Chris is more mysterious and has just the right amount of that "bad boy" vibe. When he and Susan are together the sparks just ignite the page and I kept waiting for the explosion. Katmore did an amazing job of taking two people who have the same physical characteristics and making them stand on their own as two very individual people. I love their personalities and I can't wait to see more of them in subsequent books.

Katmore is one of my favorite authors. I've written before about how she has a knack with imagery (the world Neverland and Pan's Revenge are beautifully written) and she has translated that to this series. I felt like I was in each scene. I could easily picture the soccer field, the school, Charlie's, Susan's house, and the boys' place. In fact, I wanted to visit!!! My favorite characters were all back and it was fun to take a peek into their lives and see what they've been up to since the last book. The only downside is now I have to wait again to catch another glimpse at their world. Until then I'll have to settle for stalking them on Facebook (where many of the Grover Beach kids hang out) and anxiously await the next book. This one is a definite recommend and if you are new to Anna Katmore make sure you scoop up her other books as well...you'll thank me later!

Es war tatsächlich mein Lieblingsband. Chris und Ethan sind mir sehr ans Herz gewachsen. Leider hat sich das Ende für mich etwas gezogen, aber alles in allem eine tolle Geschichte. Bin sehr auf den letzten Teil der Reihe gespannt!

Omg. You guys. YOU GUYS!!!

If you loved Ryan Hunter, you will love this. I was skeptical on whether or not the new guy could be, but he's a very close second to Ryan.

This was amazing. And I love Susan even before because I'm pretty sure I was just reading a story about myself with a few embellishments.

So yes, highly recommend. Super amazing and perfect.

You know what they say about twins? They're double the trouble, and that's definitely the case for Sue! Sue's falling for Ethan but Ethan's hiding something. Meanwhile Chris is after Sue, but he's not the twin she wants!

I really liked Sue at first but she gradually turned into a soppy, angsty teenage girl who just couldn't stop thinking about a boy. I enjoyed the first half of the book and the leadup to the revelation of Ethan's secret. I didn't see that twist coming. After the cat was let out of the bag, the story went downhill from there. There were so many cliches crammed into the plot that had my eyes rolling (view spoiler) I thought a lot of the second half of the book was redundant, making the book unnecessarily long. I felt very bored! Overall, the book was enjoyable but let down by a weak middle and end.

**"He didn't act like he didn't know me. He just acted as if ... he didn't care."**

The butterflies in my stomach won't stop stop. I sooooooo love this book. It gave me a hell lot of giggles in middle of the night, butterflies and so so deep sighs with thoughts of "How I wish". Definitely how I wish for a Hunter and Tony, or even Alex and Nick, or for this book, a Christ and Ethan in my life. Goodness, how I wish I could give death glares to these girls in the book because they're so lucky and I can't even.

**"Don't worry. It's okay to be nervous. You'll get used to the butterflies. And at some point, you'll love them."**

This series earns a spot in my heart. This review includes the entire series. Although a little too good to be true, it makes me feel better and hope for something as good. Young love earns a soft spot in me for the reason I have no idea. In GBT, everything was just perfect - hot guys, pretty girls, families, group of friends, and perfect love stories. It revolves around a group of friends in high school who found one another through love and relationships. Totally a #Relationshipgoals #Friendshipgoals you name it. I awfully sound a lot hopeless romantic but who cares, it got me hooked. Thankfully I'm not too old for this. I think.

The Grover Beach Team series by Anna Katmore just get more and more amazing. Meet Chris Donovan. He's a playboy, a charmer, a hidden romantic, and he's just...ugh...so impossible at times.

We've met bookworm Susan Miller in the previous books in the series - and she gets in trouble pretty soon when she meets attractive twins, Chris and Ethan - not necessarily in that order. But while Ethan is obviously her soul mate, his brother is quite a handful to deal with. They both want to spend time with her, even if their motives aren't entirely clear. The texts from Chris? Just hilarious! They made me smile every time Sue's phone beeped with a new SMS .

Susan finds herself drawn to the twins in a way that leaves her breathless. And breathless you'll be after you read the amazing kiss scene. It's just the BEST ever! And so-soo darn sweet. ;)

I wished Sue could have both twins, of course, but hey this is sweet YA--LOL.

### **J. says**

I can't decide if I like this book more or less than the others. It was really entertaining, and I appreciated that it was longer than the other books, and therefore gave a bit more breathing room for character development. It's cool that Susan didn't immediately melt into Chris's arms, kind of; but at the same time, the obstacles, by the end, were getting tiring, because they were so contrived. It got to the point where I thought that if I were Chris, I would just forget about Susan.

Was the pacing perfect? No, not even close; I predicted most of the twists and turns way before they actually happened. But was it compulsively readable? Certainly.

Unfortunately, I really can't seem to get past some of the awkward word usage and phrasing (especially, in this book, "sweetness", sure and surely, heck). I was also thinking that I really hope Katmore won't get into a habit of writing two books per character in this series, because it just feels like a bit too much. Also, each

successful couple is showing up in the later books, which is kind of cool, except that there are just a *lot* of cameos of kissing couples.

I don't know if there's anything more to be gleaned out of the series, to be honest. I like Nick and would possibly welcome a story about him, but in some ways, I'm hoping Katmore will branch out and write something different.

Apparently the next book is going to be this one in Chris's perspective. After having read *Play with Me* and *Ryan Hunter*, I'm not sure I can handle that. But overall, this book was an enjoyable and quick read.
