## **Fighting Demon** Winter Travers

A shared past that no one knew about until Demon and Paige's worlds collide again.

Demon and Paige both made mistakes eight years ago, tearing apart the love they had for each other.

Now, Demon has Paige in his sights again, and he isn't going to let her go. But things aren't always what they seem.

Could Demon and Paige be over before they even start again, or will the past fade, making room for the ending they've always wanted?

# From Reader Review Fighting Demon for online ebook

## Stacy McAskill says

Received ARC for honest review.

Every time I start to read a book by Winter I know two things are going to always happen, (1 make sure have enough time to read the whole book as wont want to stop), (2 will be laughing like a hyena).

Fighting Demon will take you on an emotional roller coaster that you will want to ride again and again, Demon and Paige are a great leading couple. The way Winter wrote this story line was great the little flashback scenes to show us their past were written in way that didn't leave the reader confused, as so many authors do when they jump from present to past. The why behind their breakup in the past was written in a way that many a reader will be able to understand and dose help you to be routing for them to find their way to a happy future together. Yet again Winter leaves us begging for the next book with that ending, we all will be stalking her wanting to know the release date.

Overall I would say that even if you have not read any other book of Winters (You will be kicking yourself wondering why you waited so long to pick up a book by this wonderfully talented author.) you could pick this up and read without having read the rest of the series but would recommend reading the others so you know who is who.

## GimmeAllTheWerdssss says

*I was given and ARC for a honest review*

2.75 not enough groveling and a strong heroine became weak stars.

First let me say - I am a hard reviewers on books. I rarely ever give 5 stars and in fact my average rating is right around 3. To get a 5 a book has to be truly spectacular. I'm talking blow my mind good! A four star rating for me means I really like it, three means it was good but probably not on the re-read list, two I mostly suffered through it and one is I wish I could un-read it. With that being said a 2.75 means that the book was just ok for me.

Where this book failed for me was the lack of conflict/angst. We had the perfect set up - past lovers who parted on terrible terms. There should have been a lot of push and pull. A lot of groveling. A lot of explaining past actions and healing emotionally. We didn't get that though. We got a one chapter apology that went something like this:

"You hurt me"

"I know, I'm sorry. I was young and stupid"

"Ok, I forgive you and want to be with you again"

Considering their past there it should have taken more than a few pages for them to get over the it. Plus, Demon didn't even chase after Paige when she left. He watched her walk away and moved on with his life. He eventually came to the realization that he blamed her for something that she couldn't control and that he

was wrong BUT he still didn't go after her. For 6 books we've heard about "the one who got away" Well, man up and if you still want her...go after her!! Stop wallowing is self pity and endless club whores. To his credit though, when he saw Paige again he decided he wanted her back and went after her. THAT is what I love about Winter's hero's...they see something they want and they go after it. They chase and they pursue until they get their woman. The downside...he waited almost 8 years to decided he would fight to get her back.

As for Paige, I enjoyed her character until around chapter 15. Up till that point she was one of my favorite heroines. I like strong but refined heroines and for me a few of the heroines in the previous books have been lacking in the refined area. Personally, its hard for me to stomach a heroine who can out cuss and out drink a sailor. Its just not very womanly to me. Don't get me wrong, I cuss and occasionally I drink, but some of them were just over kill as it was so in your face. There have been times when the only thing that kept me reading was the hero.

But back to Paige. Up till chapter 15 she was that strong and refined heroine. She lost me though in two areas. 1 - she forgave Demon way too easily (view spoiler) and 2 - she was the classic cliché of "you ruined me for anyone else" Seriously...she told him that! She didn't move on in almost 8 years...no sex, no boyfriends...NOTHING!!

From that point on it was hard for me to stay "in" the book. The writing was good and the few errors I found were more than likely corrected in the final editing process. There were a few other bumps but nothing serious for our main characters. Overall, this was a good book and a fan of the series will like it. In the author's defense her writing typically doesn't involve a lot of angst/conflict so the lack of it wasn't necessarily out of the normal for her. For me though, I think she missed the opportunity to create a truly emotional book that brought all the feelings out and had you rooting for the characters.

**~Steph K~ says**

OMG - I need the next book now!!!

---

**Rachel K says**

[Not a fan of the heroine being celibate for 7 years while the hero certainly isn't! My issue isn't with the fact that he screwed around lots....more that I think its bloody ridiculous to believe that the beautiful, sweet heroine didn't get any at all during the whole time they were apart. Seven years is a really long time to stay faithful to a man who didn't deserve it!! (hide spoiler)]

---

**Fatimama says**

I regret not reading the reviews and spoilers before reading this book. Wtf is this shit?! Zero blames doormat for a miscarriage and was caught cheating and zero did not even chase the doormat for years!!! If it wasn't

for a chance encounter after 7 years, zero would have done absolutely nothing except screw more clubwhores. Also, wtf doormat was celibate for 7 years?! Gawd why?!!!

---

### **Lu Bielefeld \*read.laugh.love\* says**

Everyone talking to her that he did not cheat ... in my opinion it's cheating.  
Read this scene and make your own conclusions.

Dustin was sitting on the bed, his back against the headboard with his pants unzipped. His hand was stroking his cock while his eyes watched every move two naked women were making while they made out with each other at the end of the bed. I stopped, my breath caught in my throat and I didn't know what to do.

My boyfriend, the man who I was going to have a baby with not even three weeks ago, was watching two women make out while he jacked off to it. My heart felt like it was repeatedly being stabbed over and over as I stood there watching.

My whole body went numb and my phone that I was holding slipped through my fingertips and crashed onto the floor. Dustin's eyes finally fell on me, and he just stared at me. His hand in mid stroke on his dick and a shocked expression on his face.

"It's gonna take a whole lot more than fireworks to make up for jerking off to two girls."

### **Cassie Caskey says**

#### **Stool Runnings**

Read this book and you'll understand how funny the name "Stool Runnings" is. If you've been reading this series, you're familiar with Meg and let me just say the hilarity continues!

This book is based on Demon and Paige who have a past together as a couple so this is also a second chance romance. Lots of good chemistry between these two. My only complaint is that the book seemed short. I'm excited to read Slider and Fayth's story now!

---

### **Stephanie Beasley says**

#### **Fighting Demon: Devil's Knights Series Book 7**

Demon has been a hard A\*\* about people being in relationships from time Lo got with Meg. Now we found out why. .. Wow what a bomb that was. I think they are each other half. You can't have lost what they did & it not make them strong enough to get through anything else thrown at them. I think she will smooth out

Demons rough edged & he will make her start to not plan things as much. Omg that cliffhanger at the end with Slider & Fayth.. Can't wait to see what happens next in the storyline. I'm recommending you read them in the correct order or you will be lost. I recommend this series & the Author. You won't be disappointed in the story or the Authors writing style.. I read & finished book 1 and bought all the books that was out at the time. Thank you Winter Travers for the great series. Hope they go on for a long time.

---

### **Fran Zoch, LSoR says**

I have loved this whole series and was waiting for Demons story and Winter did not let me down with it

Demon lost his one love by making a mistake , now years later with Paige walking in the door he might just get his love back, Paige lost everything that night she lost their baby, then him , left school , she finally was feeling better but still loved him, when she realizes he won't give up she allows him one week to change her mind about them , one week for Demon and Paige to find what had never really left just went to sleep

---

### **Kristina says**

You know the worn out stupid drill. He got to screw his way through hordes of women "enjoying the club lifestyle" as he put it. Of course he "loved" the h the whole time he was drilling all these other women "eye roll"....while she remained celibate for 7 years because she didn't want anyone after him. VOMIT.

Where are the women who live in THIS century who are fed up with this crap being shoved down our throats as a "love story". Get a damn spine & brain while you're at it.

---

### **Flavs is Mrs David Gandy♥~♥' says**

ARC received from author in exchange for an honest review

A Winter Travis Book

This author's books just gets better and better with every Devil's Knight Book. And I absolutely loved it.

This story is about Paige and Demon. It literally starts off exactly where Keeping Meg ended. Demon (real name Dustin) and Paige haven't seen each other since Paige walked in on Demon in a bit of a compromising position. So needless to say she was not happy to see him again.

Demon couldn't believe that he was seeing Paige again, the only women he has ever loved.

Paige and Demon's story is a bit heart breaking when you read what they went through. But the author keeps you on the edge of your seat to see how they will eventually find their way back to each other.

We also get to see the rest of the club making an appearance and Big A is still a thorn in the club's side and Fayth and Slider's chemistry is heating up. And seriously Winter how can you leave me hanging with that ending

Definitely another awesome book in this series that you will kick yourself for not picking up! So read it NOW!!!

---

### **Charlotte Isaac says**

Wow, this book is very interesting. We finally find out why Demon always gives his advice to the people who find their ones. We also learn more about Demon and Paige.

I loved Demon, I thought he was a idiot at beginning, but he won me over. He is caring in his own way, and adventurous. He never makes a plan, flies by the seat of his pants. He is dominant, but also has a sweet side to him.

I loved Paige, she is crazy, sassy and funny. She knows what she wants and goes for it. She loves time to herself. She fits in well with everyone, and she is laid back.

I loved this book, and I can't recommend this series enough.

---

### **Crissy says**

I found this book tedious. It was a struggle to finish the book. The characters were a bit boring especially the h. The secondary characters were a bit ridiculous and childish - Meg in particular. MC light - mentioned here and there that they belong to a MC but no real action.

Attention to detail needed. The h indicates that she was with the H when she was 21, for a year, than she hasn't seen him for 7 and she is 31. Hmmmm

---

### **Melissa creasey says**

received an ARC for an honest review

Winter you did it again with this book I knew once started I wouldn't be able to put it down

Demon and Paige have a tragic past that no one knows about and they run into each other again at Lo and Megs wedding. paige is not happy to see him and we soon learn why

demon is determined to win paige back and the chemistry between the characters is hot

can not wait for the next book in the series this is my favourite series by far and would definitely recommend.

---

### **Sivutha says**

**5 Awesome Stars**

Demon fell hard for Paige and he knew that she was the one for him. Then something happened and it changed everything. No!!

Paige loves her dirty mouth biker. They were so happy with each other but that all changed when she.....

Yes, they were separated for 7 years!!

I love this series and waiting for the next book. Crazy
